From Reader Review Introducing Physical Geography for online ebook

Ajith Somarathna says

This book is very good for university students. Therefore anybody read INTRODUCING PHYSICAL GEOGRAPHY book.

Ajay Ajay says

A very nice read for the students of physical geography. The illustration is good.

However, it is suggested that the chapters on Plate Tectonics and Continental Drift should be elaborated more, as the author has touched only the basic aspects of it.

Recommended for all those, who wants to understand the basic geography.

Jennifer says

Beautiful text on earth science. Also has amazing pictures. I fully enjoyed this text.
