I think this book was good because it told me a lot about Mia and her live back in New York ,and how she made new friend when she ,moved. And how her parent got a divorce and how.Mia can't decide how to make up her mind to bring the popular club or her cupcake friends . Sow she mixed up by bringing her friend New York, and bringing her cupcake friend. Katie and Katie's friend from the popular club.

Mariah says

It was a pretty good book.

Kathryn Ruiz says

I like this book because it's very relatable. It shows how Mia really feels about moving and her finding true friends. I recommend this book to girls who just want to read a fun book. I really enjoy when Mia tries to figure out who to be friends with.

Mia is a part of the Cupcake Club, a group of four girls who share a love for eating (and now baking) cupcakes. But Mia has another interest too, one that her friends from the CC do not fancy - fashion. But the members of the Popular Girls Club do, and they seem to always run into Mia at the mall.

Can Mia be friends with two sets of girls while staying true to herself? Can she "mix it up" and be friends with everyone, or will she have to choose sides?

Cupcake Diaries is an adorable tween series. Katie's Cupcake Cure is the first book, and I really enjoy reading about these four friends. Each of the books is from another character's point of view, which is refreshing, and the story lines deal with true tween issues - divorce, moving, starting middle school, growing apart from friends, finding new friends, etc.

Another reason you should read the books - they always include a yummy cupcake recipe.

I'm really looking forward to Emma on Thin Icing...the next in the Cupcake Diaries.

I liked the book Mia in the mix by Coco Simon. Mia in the mix is about Mia, she is a new classmate at

school and has trouble fitting in. She decides to join the Cupcake club. When the popular girls club is interested in Mia's style they decide to ask her to join their group and Mia had to make a hard decision. I liked this book and I recommend it to anybody.

Mia spends most of her time trying to balance two different worlds. She still has friends in NYC, but she is adjusting to life in the suburbs with her mom, her mom's fiance, Eddie, and a slightly annoying future stepbrother, Dan. As a member of the cupcake club, she gets to spend her time baking and decorating cupcakes with her friends. But Mia likes fashion and shopping too -- and so do the members of the PGC (Popular Girls Club). Can she manage to juggle life between the city and the suburbs, between her Dad and her mom, and between the Cupcake Club and the PGC without hurting anyone (especially herself)? Read on to find out.

The book Cupcake Diaries: Mia in the Mix is written by Coco Simon and is the 2nd book in the series. The book has 156 pages and 18 chapters. In the first book it is all about Katie and how she starts the CC (The Cupcake Club).

Mia is a new kid to school and has no new friends. Her parents are divorced and her dad lives in Manhattan. Mia is feeling very lonely and finds Katie, Alexis and Emma. They decided that for a fundraiser for the dance. The group of friends decides to bake 3 dozen cupcakes to raise money. The PGC (Popular Girls Club) also decides to set up a booth but won't tell anyone what they are doing. They decide to do a makeover booth. They are convinced that they will beat everyone and win the grand prize at the dance. At the end of the day it turns out that the Cupcake Club won the fundraiser for raising the most money.

Now, into the 2nd book. In this book Mia runs into a lot of trouble, such as on Monday, they won the fundraiser so they got the grand prize. So on Monday they all were going to wear the school sweatshirts to school. The only problem was that Mia did like to wear sweatshirts. So, being the fashion designer she is she decided to make her sweatshirt into a sling bag. The only problem was that her friends did not like that she did not wear it as a sweatshirt and not the same way as they did.

Mia has a hard time with her life, because her dad lives in Manhattan and has to spend every other week with her dad. Mia has a lot of old friends in Manhattan and misses them a lot. Another hard thing that is hard for Mia is that she starts hanging out with the PGC's and her other friends do not like that. Her mom is a big time fashion designer and is holding a fashion show. The only problem is that she and the CC are supposed to make cupcakes for the show and the PGC's want to go as well. But Mia knows that that is not a good mix. This leads me into my second problem Mia is having because she has to decide who to give the last 3 tickets to, to her real friends or to the nasty popular girls.

At the end of the book everything works out okay and Mia decides to dump the PGC and stick with her real friends. I hope you enjoyed reading my review and try and read the book. I also want to say that this book is

for any gender and age.

It's soooooo cute! And dare I say... sweet?

I don't care how old you get you can always use more lighthearted fun and cupcakes.

Did I mention there are actual cupcake recipes at the end of each book? Um YES PLEASE!

Lisa says

I'm really enjoying this series- I think it's a fun flashback to Babysitter's Club for me :) Each book is from a different girl's perspective, so that was a fun way to change it up (and one of the reason's it reminds me of BSC- oh yeah, I'm using the abbreviation). This was another positive, sugary installment of the series, and it's a easy little relaxing read.

Shea says

This book is great !!!!!!! All about the PGC and Mia wanting to be friends.? What will happen in the end?

Hannah gauruder says

Stir it together.Mix up the right ingredients and your result is really spectacular!

But Mia is doing the exact opposite!The popular girls club and the cupcake club do NOT mix together well and the result is really miserable.But Mia decides she needs to stick up for herself.She can't go on like this!But will Mia be able to get the right ingredients, or is she gonna mix it up all wrong?

Defiantly read this.It was a cute story and an easy read.Recommended ages 7 and up! Sooo cute.

Talia says

This is a problem any ordinary girl could have.It makes you hang of your seat the entire time. I loved this book because the author showed what is wrong and right, but then at the end she has lots of groups of friends and only has 3 faishon show tickets. Finaly, the author brings out who she should really be friends with.

Nina says

I like Cupcake series. The formula is unique, there are mixture of friendship, rivalry, fashion, family, frenemies.

Mia is a fashionable middle grade girl. Weirdly she gets along with The Popular Girls Club, which consist of a bunch of mean girls and the nice Callie. Mia can stand Sydney the bossy leader because the latter is nice to her, due to the fact they have one thing in common, good sense of fashion.

But Cupcake Club and PGC don't get along well. In the end the true nature of Sydney shows and Mia firmly rebukes that her friends don't reevaluate their friends.

I like Mia's family stories, esp Dan, her stepbrother to be.

Siapa bilang berteman itu harus nge-gank? Kita bisa kok "mix it up" sesuai yang kita inginkan. Memang akan sulit di awal tapi di akhir akan berakhir manis seperti Vanilla Cupcake :)
