## Something About Eve Jourdyn Kelly

"Something About Eve" is a story about Eve, a woman haunted by her past whose path crosses with a married woman afraid of her future. As they set out to help each other, an unsuspected and passionate friendship evolves between them. When Eve's past catches up to her, she finds herself having to save the lives of those she loves or lose everything she has worked so hard to achieve. This is a unique and powerful story of two completely different women who, through fate, find each other and teach each other how to love.

## From Reader Review Something About Eve for online ebook

### Shannon says

I really liked this book! Kept me interested & excited to read.

---

### John Hennessy says

Read this into the small hours. Great book.

---

### Dave says

The mystery aspects of the plot were good, but I really don't see what the point of the affair between Lainey and Eve was. They are each with people, they get together with each other, then Eve decides that she really wants to be with Adam so she goes and lives happily ever after with him and Lainey goes back to her husband that she can barely stand half the time, essentially putting their respective relationships back to where they were at the beginning of the book. So again, what was the point of putting it in in the first place? All this did was turn Eve from a sympathetic character and turn her into a somewhat twisted one, while Lainey went from someone trying to achieve happiness to someone who is just sad. I read one of the authors other books Coming Out and greatly enjoyed it, but was a bit confused by the Eve/Lainey relationship mentioned in it, so I read this book. Now I am even more confused.

### Kristin Scearce says

Disclaimer: I received an e-copy in exchange for an honest review.

Lainey feels like there's something wrong with her life, and she wants to do something about it. She decides that going back to work might be just what she needs to get out of this slump in which she feels stuck. However, she's soon captivated by her new boss, Eve, who takes Lainey under her wing as her personal assistant. Soon, there's more than just art and paperwork between them, and they must decide how to handle the new-found feelings along with everything else in their tumultuous lives.

This story definitely kept me interested, as I wanted to see how everything would develop between Lainey and Eve, and especially to know just what all happened earlier in Eve's life to make her the woman she is today. Lainey's married, Eve's with Adam but doesn't know how to commit, and to top it off, there's people dying and going missing all around them, with each new problem being attributed to Eve. She knows what's wrong, but she has to prove it, and along the way we not only learn how ruthless and determined she can be, but we also get to see the vulnerable side that she's been hiding all this time.

My only criticism is that I thought it was a little long, but that may have just been me getting tired (I read it all in one afternoon/night). There was a lot of ground to cover, so it makes sense for it to be longer than the sequel, but to me it felt some parts could have been shortened without losing any information or natural flow of the story. Other than that, great novel, and I'm starting the sequel ASAP!

4.5 stars

### **Aditi says**

Dark past is horrible, they will chase you till your last breath and even though you have enough money and beauty in the whole world and nothing can touch you, beware, of your dark past, because, it can twist your so called power within a snap of a finger!! *Something About Eve* is a dark, mysterious tale about a woman who have all the power in the world, but her dark past is haunting her like a bad-hungry wolf.

**First of all a token of thanks to the author, Jourdyn Kelly, who provided me with a copy of her book, in return for an honest review.**

Eve has an empire to rule, from a restaurant to an art-gallery to many other such businesses. One look at her, every woman would hate her, and every man would love her. She hires a married woman as her assistant in her empire named Lainey, who's equally stuck up on her life. Eventually, both these women grew fond of each other, which sparks off a relationship between them. Each one of them was unhappy with their own lives, thus finding solace in each other's company. On the other hand, their decisions and Eve's dark past was plunging on them, making them weaker thoroughly. So many bad incidents started happening around them, as a result, Eve embarks on a dark and vulnerable journey to make peace with her past.

The writing was flawless with too many twists and turns, which will force your grey matter to work, yeah quite an intelligent novel, and highly intriguing plot, which will hook you till the last pages of the book. The chemistry between the two women is totally rocking, which will make you want more to happen between these two, making the USP of the book. The characters were strong and powerful, at times we see they are at the point of breaking down, but still they manage to recover and to stand tall, totally apt and justifies with the plot.

So I recommend you all to read this book, if you want some badass drama!

### **Dide says**

Action packed romance. At first I sided with the F&F affair but I couldn't help giving in to conscience and

rooting for Adam. I believe this was a really good story, it has lapses of course but it was obvious in the pages that the author invested a lot to get her audience wanting.

I see it is a series... Not sure I am enamored enough to want to read the sequel because I really do feel every chapter here is closed but perhaps I'd read the reviews of the sequel and hope that changes my mind.

### **Nina Norstrom says**

This author's work is a fiction of the imagination. Her story is of an informative nature. The average reader will have a high school education. The author's tone is informal; and presented in third person narrative. The title chosen was perfect for the storyline. This author's structure of text and language is organized professionally which makes the story an easy read. There are so many twist and turns - it's another fascinating aspect of the story. For a first time writer, I feel this author developed an excellent plot, her writing is superb and character descriptions and settings are awesome. They are so vivid it makes the scenes and people appear real.

There was truly Something About Eve - a woman you'd love to hate; and hate to love! She had everything sex appeal, smarts, money - and her own empire of businesses. If you're looking to read a book packed with intriguing action, this is the one. There is a multitude of going-ons: from romance, betrayal, sabotage, fantasies, suicide to murder. I was hoping the two women would not let their emotions get the best of 'em - since they both had a lot at stake. Guess, it was bound to happen, thou. I was constantly trying to figure out who the real villains were, trying to destroy Eve and her empire. The way the author played this story up was awesome - it took a level of imagination to make it all so real.

It's not over yet for Eve, I believe. The way this story ended: "She had never been happier." "As she was being watched through the binoculars, . . . he walked away." With the finishing touch here ("a twist"), there will be more to her tale than a "supposedly" happy ending. Certainly, we can expect to hear more from this author. And that's a good thing! Overall, it's an impressive tale for a fictional work of art, and "Something About Eve" will make a great gift for any occasion. I love this story and recommend it. As a reader, I'm sure you'll agree.

#### **Incredibly Intriguing + Irritating**

\*\*\*\*\*

**\*\* SPOILER ALERT \*\***

\*\*\*\*\*

—“Your illusion of me was far better than my reality. I should have let you keep believing I’m who you thought I was.”

—“How do you explain to someone that,, hearing them tell you they may be falling in love with you had not only confused you and scared you to death, but also brought you more joy than you had ever felt in your life?”

Absolutely beautiful!!! OMG, this story TOTALLY rocked & then some!! This story was absolute perfection!!! With every page I read, the more I identified with & felt connected to these characters then the more I became invested in their journey of revealing & reconciling pieces of themselves while exploring each other—hostages to the pleasures & pains, intoxication & desperation & feelings & fears of love.

I Loved the journey of attraction, recognition, understanding & love as it developed & intensified between Eve & Lainey—in the midst of their redefining, self-discovery of understanding & acceptance of their own evolving identities— was crafted marvelously by Jourdyn Kelly!!

I expected being more upset & displeased by the concluding outcome & the way this story ended... (weren't we pretty much ALL hoping for Eve & Lainey to make it last forever somehow!?!)... but honestly this is probably the more riskier & repressive ending but it was more of a resonating & responsive romanticism that's written all throughout the narrative.

### **Cassandra Lemard says**

#### **5 star's do not do this book enough justice!!**

Something About Eve, was everything i could have asked for in a book. Amazing chemistry between the characters, tension, mystery, lies, threats, murders, and an in-depth insight into the characters heart desires, fears, and weaknesses. All which make the book a definite page turner, i really couldn't put the book down!

Lainey has been married to her husband Jack for well over 10 years, they have two beautiful sons. Lainey is bored of the same routine day in and day out, Jack has been paying less attention to her needs and wants, they haven't been intimate with each other in over 2 months, all in which prompts Lainey to make some changes, starting with returning to the working life. Although Lainey has a keen interest in Art, she applies and gets the job of accountant for one of the most respected Art Gallery's in the city. Here we meet Eve, Eve is rich beyond words, beautiful beyond measure, and extremely confident. When they both meet, they are instantly attracted to each other. With Eve captivated by Lainey she offers her the job to become her assistant at the gallery. The more they spend time together, the harder it is to ignore their desire for one another, although both are in different forms of relationships, they're love, chemistry, respect and understanding for each other strengthens. Eve has been the happiest she has been in years, but is harbouring a secret that could not only ruin her life, but ultimately end the lives of everyone she cares about.

I could sit here and write a detailed review of what happened word for word, but i won't lol. Go read, i promise you won't be disappointed.

Happy Reading!!

### **Wanda Shull says**

Loved the book and could not wait for the sequel to see what was next with Eve and Laney. The unexpected twists and turns throughout the story definitely kept me riveted. Very emotional past with Eve that was told beautifully. Would definitely recommend!

---

### **Chow says**

#### **Cheating, more cheating and some more.**

Couldn't get past the cheating. A big letdown. Had to quit. How is cheating(emotional or physical) cool?? And what a big letdown.

---

### **Darlene says**

I received a copy of this book from the author in exchange for an honest opinion. First let me say thank you very much to Jourdyn Kelly for allowing me to read her book. From the very first page of the story I found my self drawn into Eve's story. I had to read more and more . I just could not get enough until the last sentence was complete.

This story is about a woman by the name of Eve - who is being haunted by her past . She is the owner of several business's - a restaurant-an art gallery-and sever others. She hires a married women by the name of Lainey who is having problems with her marriage to be her assistant in the gallery. Eve and Lainey hit off real well. They become close friends- as they become closer they find themselves exploring a relationship between them. As neither is happy with in there current one. All the while Eve is being hunted by her father. Yup you read that right. See there something about Eve - that makes everyone want her.

This story is full of love-desire- finding oneself and find out who you are. Jourdyn brings all the characters to life. She makes us see compassion in Lainey how much she cares for her sons, Eve and and the end her husband Jack.

The plot is amazing! I am so looking forward to a follow up of this book. As it leaves you wondering - I sure hope we see more of Eve, Adam, Laundry, Jack and the kids.

For the outstanding work on this book. With everything I am going to give a rating of 25 stars!!!!!!

Please Jourdyn keep up the OUTSTANDING,AMAZING,AND TERRIFIC JOB!!!!!!!

WAY TO GO !!!!!!

---

### **Tracy says**

Back story was interesting and suspenseful but I had a problem with the main characters bouncing back and forth between each other and their lovers. It felt unresolved and disappointed at the end.

---

### **Kelly says**

Lainey, is stuck in her life, with an unresponsive husband and her 2 kids. She goes back to work to break the monotony & reclaim her sense of self. Enter Eve, who owns the company she starts at. There is an instant appreciation for each other which leads to a smoldering relationship. Eve is haunted by her past, multiple criminal elements and her current relationship with Adam. This book takes you on a rollercoaster ride, through emotions & situations. Spoiler the happy ending seems to foreshadow a dark sequel, which I can't wait to dive into.
