### **Tanya says**

Although it was short this book's title explains it all!! I enjoyed it just wish it was longer. And thaks for acknowledging my nook friends!!

---

### **Ms. T. Nicole says**

#### **Too short**

I understand it was a short story but it wasn't enough development for me. there's no way deuce could have accomplished all of that in so little time, no explanation to why. but other than that, I guess it was a cool short quick read

---

### **Tieakia says**

#### **Ummmmmmmmmm**

I enjoyed this short story. I just wish it was longer. I mean the author gets you open and then leaves you wanting more. I think more would have been incredible.

---

### **Shannon Moseley says**

The Drama The Street And The Seduction is a short story by Deatri King-Bey. When I was reading the author's synopsis of the story on Amazon, she seemed to almost apologize for it. That should have been a warning for me. I decided to take a chance on it, however.

It's a very short read. I finished it in one sitting. Finishing it was not a testament to the engaging story as much as it was to my own morbid curiosity. It was like watching a train wreck in slow motion.

The story is set in Chicago. The main character's boyfriend is in prison for murder, and she is struggling through college while supporting her drug addict brother. The brother owes money to a gangsta that has his eye on the main character. The thug tries to give her an offer she can't refuse. She is torn between bailing her brother out once again or remaining faithful to her imprisoned boyfriend.

It sounds dramatic, right? Oh how wrong you would be, dear friends. First, the characters are ALL static and painfully cliche. As for drama, there are two death scenes in the story. They basically play out like this, "He shot him." THAT was the dramatic death scene.

After the "build up", the story turns into a pornographic fairy tale. The boyfriend is magically released from

prison just in time. He defeats the gangsta dragon, and takes the hood princess to his condo castle with a view of the beach.

I would have enjoyed the story so much more if it did not rely so heavily on this Deus Ex Machina. Why does this woman, living in a poor neighborhood, supporting a brother and putting herself through college need some man to save her? This could have been a good story with a dynamic character, a woman who realizes her own power. Instead it disappoints and leaves the reader thinking that slush piles are really not a bad idea after all.

### **carol harvey says**

#### **Very good little story.**

This was a great little story. Short and fast. Going  
To look for more. Now I'm going sleep. Good for night time reads.

---

### **Mamajay says**

#### **Great book**

#### **Great book**

This book had me from the first page. I like how Deatri held my attention. I could not stop reading. This was my first time reading one of his books. I'm looking forward to read more. Keep up the good work.

---

### **Barbara Tsipouras says**

This is how we imagine life in the ghetto, short, cruel, passionate.

---

### **Keke Chanel says**

Three words: Passion, Heat and Desire!!!

---

### **Angel \*\*Book Junkie\*\* says**

Okay, weird as hell is all I can say. It seemed to be about a guy going to prison. A girl who waited for him but had to face some mess and he saved her from it when he got home. I think that the author did attempt to tell a story but I did not get much from it. Super Excited this one is now off the Kindle.

---

**MidnightAce says**

This was a short story that had the potential to be so much more....hint

---

**Deity says**

A really good short story

---

**Candace says****Want some MORE!!!**

I've had this book for sometime now and I'm just getting to reading it. Excited and disappointed I, didn't realize that this was a short story. It was a great read leaving me wanting more!

---

**Jaylis says**

This totally reminded me of the stories my friends used to write in junior high when they knew nothing about story and character development or had the know how to make sure everything made sense. It was like whatever idea came to their heads they wrote it down. We got a kick of it then because we were thirteen! This short story was all over the place and wasn't something I cared for. This was my first time reading something by this author and will more than likely be my last.

---

**Cali B says****Short but still intense**

This short story was breathtaking. I felt the character and I felt the emotion the character was going through. beginning to end the story kept me wanting more.

---

**Beverly Walker says****Spellbinding**

This short story was exciting and left you wanting more! True love wins in the end. What happened to Deuce & Jay?
