This has to be one of my favorite “co-author” books. I love how Ella Jade wrote Hudson’s point of view, and then Lacey Wolfe wrote Liam’s. The way it’s written will have you hooked from page one and you won’t want to stop reading!

Hudson is a successful real estate agent as well as an attorney, and he also happens to be the most eligible bachelor of the town – and no one will let him forget it. Hudson is perfectly happy being a bachelor and at first doesn’t mind the attention it’s drawing him. That is until he meets Kennedy. Kennedy’s father is helping her get started with a house flipping business but after the last 2 houses ended up drawing losses he reaches out to Hudson to help his daughter. Kennedy doesn’t like Hudson intruding on her flip but at the same time loves it. Kennedy and Hudson are the perfect balance to one another and the sparks fly from their very first meet.

Liam has his own successful construction business that keeps him busy 24/7. He doesn’t have time for a relationship after his high school sweetheart from years prior dumped him. Liam has been a playboy ever since – until his high school sweetheart, Chelsea comes back to town. Chelsea has just purchased a new home in the town she grew up in, using Hudson as her real estate agent. The home she’s purchased needs construction and to Chelsea’s dismay she’s going to have to turn to Liam for the renovations. Liam isn’t happy that Chelsea’s back but once they see each other again they realize the love is still there. The only problem – neither of them is willing to admit it out loud.

This was a fantastic read – Lacey Wolfe has always been one of my favorite authors and this is my first Ella Jade book – definitely going to have to check out more of her work. I highly recommend you check out this read!

I reviewed my personal copy of this book for Wicked Reads.

The Maddox Brothers by Lacey Wolfe & Ella Jade

Hudson and Liam Maddox are 2 very successful single brothers. Hudson is an attorney doing real estate law and Liam is an owner of a construction company. Neither one is looking for ladies who will turn their single status into attached, married men. But then Kennedy and Chelsea enter their lives.

Hudson

Hudson has been established his career and building on being the best attorney for real estate in the town. He was called on by Kennedy to help with a problem on one of the houses she was flipping. He helped her with the issue and he became her colliding factor of life. Her father would never stand up to her like Hudson has. Hudson’s mother was a charity organizer and she ran a bachelor auction and Hudson always drew the most bids. You will never guess who bids on him and for how much.

Liam

Content with his life and having built his own construction company and has an impeccable reputation for his work and for his price and completion in a timely fashioned. His heart was once broken by his high school sweetheart and when she comes back in his life, totally turning it topsy-turvy. His brother Hudson helps Chelsea obtain the property, recommends Liam’s construction company and fails to tell Liam that he helped her. Turns out it is just down for Liam’s own home. They can either fight & disagree for life or they can come to terms with that they are meant for each other. You will have to read to determine which it is.

Lacey Wolfe and Ella Jade are great authors who collaborated on the Maddox brother story and did an awesome job. You won't be sorry you read it.

Hudson:

This one was my fave, I loved how he was so in control until Kennedy came into his life. And how out of control Kennedy's life was until Hudson came into hers. They are the perfect yin and yang.

Liam:

This was a cute, and funny 2nd chance romance. When Mr. Hit it and Quit it comes face to face with the one woman who he can't quit.

Both of these books was great , it was funny, sweet, sexy and down right great and easy read.

This is the story of two successful and gorgeous brothers, the Mattox brothers. Hudson is a well like attorney with a successful real estate business. He has just been voted the most eligible bachelor in town. He has a sterling reputation in business and has no interest in getting serious with any woman until Kennedy invades his life.

The other brother Liam has a successful construction business that he built from scratch. He too likes his single life but that changes when he reconnects with his old flame, Chelsea. Like his brother he is a well thought of honest businessman

.  
This duo are so much fun to read about even though they are so different. A great romance with one being a second chance. I really enjoyed this book and recommend it highly. Well written with great characters and a strong storyline.

\*I was given an ARC in exchange for an honest review\*

From start to finish, both Hudson and Liam had my heart. What could be better than two sexy, domineering men who get leveled by two strong, beautiful, and independent women. Lacey Wolfe and Ella Jade created fascinating, realistic characters and a unique, funny, and provocative story. I loved watching the sparks fly between Hudson and Kennedy who are polar opposites but are each other's missing puzzle piece. My heart hurt for Liam and Chelsea's heart sick past and was anxious to see them get their happy ever after.

Hudson is gorgeous, ambitious, charismatic, and considered to be the most eligible bachelor. He plans every minute detail about his life... that is until the beautiful, spirited, tool belt wearing Kennedy stumbles into his life. Kennedy is carefree and easy going, and is trying to her get a foothold unsuccessfully in the house flipping business. When Hudson waltzes in with his real estate knowledge and his domineering ways, Kennedy is not having any of it. The verbal sparring kept me entertained and enthralled. The steamy scenes were so hot and watching them fall in love left my heart in a puddle on the floor.

After meeting Liam during Hudson's story, I wanted to learn more about this heartbroken, muscled, contractor. I have to say out of the two, Liam is my favorite. His love for Chelsea shined through whether he was remodeling her house, staking his claim in front of others, or being commanding in bed. My heart went out to Chelsea as well, she was just as hurt by their past as Liam and was desperately trying to pick up the pieces and put herself back together after losing the love of her life. Their story was endearing and passion filled no matter where they were and what they were doing, you could feel the love and sizzle between them.

The Maddox Brothers will make you fall in love with them and the women who steal their hearts. This was a fun, entertaining, off the charts steamy read. I highly recommend for a romance that will sweep you off your feet, melt your heart and maybe your clothing too.

## **Kathy Osborn says**

Amazing read, I loved how Ella Jade and Lacey Wolfe combined both stories of each brother. The flow between the brothers in this book was flawless.

Hudson and Liam are brothers who are still playing the field. Hudson hasn't the right girl yet and Liam lost his girl in high school when she left him. The first half of the book is regarding Hudson written by Ella Jade.

Hudson is a well know real estate agent and has sold a home to be flipped to Kennedy, but doesn't know that

Kennedy is a woman. When he meets Kennedy sparks fly and he starts inform her that she needs help to do the job as she is losing time and money on the property. This doesn't sit well with Kennedy and she decides to one up him by bidding at the Bachelor Auction. However Kennedy becomes jealous when other women want him and puts everything she has to win the bid.

Now that she has him, should she listen to him or disregard all of his unwanted advice?

Ella writes with such passion and this shows through her characters. The reader is treated to so very hot passionate scenes with two strong characters.

Liam's story is the second half of the book written by Lacey Wolfe.

Liam is still bitter about his high school sweetheart - Chelsea leaving him after high school. However, Hudson sells a house to Chelsea, which is only a few doors down from Liam home, as she has returned home to run the local newspaper. Liam owns a construction firm and Chelsea must shallow her pride to ask his company to renovate her home.

The first time they meet at her home, passion takes over Liam and he forbids Chelsea to date another man. This doesn't set well with Chelsea so she goes on a date with William despite what Liam said. The sexual tension between gets so bad, that Chelsea goes to Liam and wants a one night stand. Does this relationship continue after this night or is it enough to get the tension out of their systems?

Lacey is another author who writes excellent hot passionate scenes with strong characters.

Ella and Lacey have written a wonderful romantic love story regarding the Maddox brothers finding their matches. Each have their own writing style and have blended together to create an amazing book.

I would highly recommend this book to anyone who loves romance with hot, sexy and passionate scenes.

I received a complimentary copy of this book in exchange for a fair and honest review.

Hudson

I really loved both of these books that were featured in this story but my vote would go to Hudson as being the most driven and meticulous of two brothers. When he meets Kennedy who has bought a run down house and hopes to flip it for a profit, the sparks literally fly. This is Kennedy's last chance to renovate and prove to her dad that she can make a profit on the house, as he's told her that the funds are drying up. When Hudson stops by and meets her for the first time, he doesn't know what to think of the instant attraction as she is completely opposite of what he usually seeks in a woman.

When Hudson does just one more Bachelor Auction, Kennedy decides to be the top bidder even though she is using money from her funds for the house. That one "date" goes from zero to extremely hot in less than 60 seconds, as they realize that their attraction is leading to love. Hudson decides that if he doesn't step in and offer his brother's construction companies help, she will have to decide if Hudson is trying to sabotage her in making this project turn a profit. This is the first time I've read Lacey Wolfe's books and it definitely won't be the last.

Liam:

When Hudson secretly sells a house to Liam's ex-girlfriend, Chelsea without letting Liam know that she has returned home. Chelsea decides to bend under the pressure from her parents and tells Liam that she doesn't want to get married when they graduate. Liam is heartbroken and then spends a lot of time not becoming attached to another woman. His construction company has become well known and profitable in his hometown of Morgan.

Chelsea has just bought the newspaper and wants to prove to her parents that the paper will succeed. The house that she buys needs extensive remodeling but what she doesn't know is that Hudson is sending over his brother to bid on the project. Liam realizes that his love with Chelsea hasn't died but only burns hotter than a out of control wildfire.

When both Hudson and Kennedy see that Liam and Chelsea are attracted to each other, they come up with a plan to lure both of them to the Maddox cabin in the mountains for a long week-end. Once the two lovebirds realize that they have been set up, they spend much of the weekend in bed and acting on their fantasies. When Chelsea's mother finds out that she is back together with Liam, she decides to go with her heart this time and tell Liam that she loves him and won't ever let him go again. Liam decides to convince Chelsea that she's the one who will always have his love and heart.

## **Brothers will be brothers**

I loved that this book had 2 separate stories. The Maddox brothers are intriguing, sexy bachelors, Kennedy and Chelsea two independent women who cross their paths. Funny, sexy, and thoroughly engaging. Fully recommend.

## **Sherri says**

I received this book from the authors in exchange for an honest review.

These two authors come together to bring a wonderful love story with two sexy brothers. Hudson and Kennedy are hilarious to get to know because they are the total opposite but blend well together. Liam and Chelsea have to get past the pain of their break-up 14 years earlier. They are tricked into a weekend at the Maddox cabin alone together and finally admit that they are still in love and get back together.

Great stories from both authors! I hope that they get together again and do another book!!

Hudson- 5

I liked the premise of the book and the author delivered on giving the reader a sweet read. I was immediately drawn into this book and had a hard time setting it down .

Hudson and Kennedy had an immediate connection. I liked Hudson's bossy personality and Kennedy's headstrong determination.

Often times the author refers this couple as having ying/yang personalities. They were different but complimentary. The pair was also pretty hot together. The author does a good job with their passion. I was wrapped in their story and sad to see it end.

Liam- 3

I was happy that Liam had his own story in this second chance romance. Unfortunately, this story didn't work for me. I didn't feel a romantic connection between Liam and Chelsea. At times their romance seemed forced. I could feel his pain and anger though. I'm as confused as Liam as to why she broke up as teens. I'm also not sure why her parents have such a strong hold on a 30 year old women.

I was given an ARC for honest review

## **Isha Coleman says**

I was given the opportunity to read The Maddox Brothers in exchange for an honest review. It was a pleasurable experience. Hot blooded males meet their matches when confronted with women who know what

they want and have their own ideas how to get it.

The Maddox Brothers mixes sensuality with control and stormy personalities. Ella Jade and Lacey Wolfe created characters that are hard to look away from and not easy to let go of. With Hudson, Kennedy blows into his life leaving him questioning everything he found important and leaves the hunter feeling hunted. Liam has to decide if his heart can take the blow when Chelsea walks back into his life. Who will be tamed in this battle of hearts?

omg I was blown away. when I was asked to read this book the Blurb was a no brainer I'd be crazy not to read it.

we have to sexy brothers Hudson and Liam Maddux and they both have always gotten what they want especially when it comes to women.

When Kennedy and Hudson meet is obvious there is chemistry but Kennedy is strong minded and sassy mouth but those are the traits that Hudson loves the most, they are complete opposites but they complete each other.

Liam and Chelsea were high school sweet heart , Liam wanted a future and she felt like they were to young but her she is years later and things between them are still just as explosive. will they have thier second chance? I just loved this book and could go on reading more on these two couples. this was a great book I loved how both stories entwine with each other but you knew who was the main characters, definitely a must read. 5 plus stars easy.
