Rosa Cline says

In this story a tiny winged pony as she learns about life itself; learns the moral of the story " Laughing at yourself can be the most fun al all." As all baby ponies do as they grow up they start to wonder from their Mama's and be curious and learn about their environment. But the same butterflies that she loved the day she was born and was named after "Butterwings" She saw that the butteflies were laughing at her! They wouldn't stop laughing at her long enough to tell her why they were laughing. She turned her head so far and saw on her bottom that she had purple spots! Oh no! To her that was horrible! She tried everything to get them off but they wouldn't come off; but after a few days she soon learnt the moral of the story. Any child (of any age for that matter) would love this story and realize that laughing at oneself is always the way to go)

I was so surprised and happy to find Mr Cosgrove's books again! I loved these as a little girl. I would always seek them out from our school library (and matter of fact our librarian had to replace a few of the books because they had gotten so worn out after the seven years of elementary (Kg through 6th grade I would check them out) Now I'm finding them for my adult special needs son and my granddaughter and falling in love with them all over again!

I used to read these books all the time when was kid. This one and Crickle-Crack where by far two of my favorites. This brings back so many memories!!! I might just cry of a little while!

Amelia says

I love the illustrations of these Serendipity books. The nostalgia of loving these books as a child! The stories are simple, but teach a cute lesson.

Katy Brandes says

Very sweet story about self-acceptance.

Aine says

Very cute story. Very cute illustrations.

Kaye Shukosky says

It is a Serendipity book, never hesitate if you find one of these to immediately get it for you children and read it with them. They are simply wonderful.

They teach life lessons on so many topics while not scaring the child.

Ilana says

This series of books is the most wonderfully illustrated, sweetest series available for children. Each book is beautiful, the animals are so sweetly drawn and each book teaches a wonderful lesson. I still have all of my original copies from my childhood (the 90s).
