Chicken Soup for the kids soul 2 is a nice book. My brother bought it some time earlier this year. It has many different, but short stories. It is very nice. This book was wrteing by jack Canfield. This book is mostly sutible for kids ages 6-10. Even though I'm 11, I think this book is sutible for kids 7 to any age! Everyone should read this book. It has quite a few strong words in it and I find it very interesting. The stories made me laugh, smile, cry and frown. Sometimes when I'm mad, some of the stories helped me cool down. When I'm sad, some stories cheer me up. This book is adventurous,enjoyable, and inspiring. I learnt about respect, courtesty, and reaching out to help others. I think every kid should go and borrow/buy from a nearby lirbary or a bookstore because it has the best stories I have ever read. Kids Souls 2 helped me understand that there are kids with the same porblems as me, and I can find out that I'm just a normal, regular kids after all. This book will keep making you turn the pages way past your bedtime! Sometimes, I like to read out the stories to others and they get more interested when I read them out. Each and every story has touched me and made me think that if i was the character in the story, how would I feel? All the stories made me think about my life. I nearly cried in class while waiting for the teacher. I told my friends I yawned. I told my family some important ones and some that touched me alot. The authors did a great job writing these stories and i compliment them 100%. I have a few favourite short stories that I would like to share with you:

[Vitamins]

--I was in my room getting ready for school when Mom stormed in with an angry face cemented in place. Ooh, scary. Watch out, world! As she stared at me, I mentally ran down a list of all the things I could have possibly done wrong that she could have found out about.

"We had a deal," she seethed through her teeth , pointing at me. I cocked my head to the side and frowned. " I

don't know what you're talking about." "I'm talking about the green and white vitamins I just found in the toilet."

Shocked, I shook my head. I hadn't done that since I got caught. " I don't know how they got there, but I swear, I didn't do it."

Okay, here's the thing: I hate taking vitamins. Their nasty. I gag when I try to swallow them, and I taste them for the rest of the day. The very smell makes the bile rise in the back of my throat. They're chalky, then slimy as they start to dissolve in my mouth. My cheeks soon puff out with water, causing me panic every single time. I have to fight to clam down enough to swallow. Sometimes it takes three tries to get them down.--

I will stop writing the story. You got to go get the book yourself to find out who put the vitamins in there and why!!

Hope you'll buy this magnificent book!!

My father purchased this book for me when I was 7. I didn't actually read it then, just loved seeing through the pictures of the cartoon characters, laughing at their stupidity or their adventures! This book again caught my attention when I was 10/11. And only then did I start reading it regularly. I loved all the stories and felt inspired, happy or sad, as some of them made me cry. But I learned something new from each of them. This is a really good book to gift to a child as their, birthday or even as a surprise, present. Trust me, you wouldn't regret it. Not once. This is the kind of book that will stay with them for a long time, growing up, they'll learn to see all the different horizons of a story and how deep these really are. They'll look back at those memories felt whilst reading this book, smiling. I enjoy reading the stories even today. I just love this book.

This is one of my favourite books of all time. Its amazing in so many ways. The stories are funny, sad, happy and there were even some stories that I could relate too. That made me feel like I wasnt the only one having to go through things like being bossed around by your older sister and things like that. This book is the best!

Again, this was given to me by someone cleaning out the school book room. It's more up to date than the last one, and I was able to pull out some character building passages I might use in the future (obviously staying away from any religious themed stories, as they're all centered on the same religion).

Brooke says

THIS IS A GREAT BOOK! EVERYONE SHOULD READ IT!!!

Brandie says

I needed some moral character building stories for some issues going on at the school. I bought this kind of as a last resort, but it ended up being exactly what I needed. Some great stories for a variety of issues.
