### **Andrew Hall says**

One of the best books written

---

### **Peter Finnie says**

Powerful read from a master at the skill of working with people.

---

### **Andy Holligan says**

Great book

---

### **Michael Coletta says**

This book really helped me to understand how to be a more emotionally consistent person. In one part he talks about how important it is to concentrate on what you're thinking about to control your emotions and not letting your emotions control you. But honestly he covers soooo much more. GREAT BOOK!

### **Abby Morales says**

This book is about personal responsibility. Just because you are a certain age doesn't mean you are an adult. Mentally many people are still children. This book gives a detailed pathway to reaching adulthood aka maturity. Great book for anyone wanting to move forward in life.

### **Jennifer Kurburski says**

This book was an eyeopener. I learned skills that I can use daily. I learned that good people skills can lead to great relationships with loved ones. I enjoyed reading, Dynamic People Skills. It was interesting. The topics will help me become a more loving and open person to others. The author did a wonderful job. I hope others will consider reading this book. It is a necessity.

**Jalpa S. says**

I picked up this book by looking at great rating and reviews. However, I am pretty disappointed with it. Neither this book provided any convincing guidance on developing people skills nor its an enjoyable read of successful deployment of such skills. Its pretty average with repititon of what is already known without any details or exercise of how to be consistent in doing these.

I underlined almost half of this book.

Appeals heavily to the Christian crowd. A lot of common-sense information in this book. Seemed boring to me.

Personal Opinion.
