## **Into the Light** Kat T. Masen

“I need to tell you why I so afraid to fall in love with you again. Why from the moment I saw you in the restaurant I tried to deny any feelings I still had for you. Why I pushed you away, why I lied to you that day in the hospital... It all started during the summer break of 2005, exactly sixty days since the last time I had seen you...”

He was the Dark Angel. He came and stole what she had desperately tried to hold onto: her heart. Charlie Mason thought she knew better until her insecurities overruled and she again believed he broke her.

In a bid to finally find their happily ever after, Lex and Charlie find themselves on a journey of learning how to love again. They began a new future to move forward from a broken past, but life is never so easy. When you finally have the one thing you’ve always wanted, what do you do when that place of darkness finds its way back, shattering everything you fought so hard to have?

This is the final story of Lex and Charlie, two souls that were brought back together in a twist of fate. An eternal love that has been through every storm, dragged into the dark abyss without a chance of climbing out, but through all the battles they find themselves in a place they call home, away from the darkness and away from the fear. With a glimmer of hope, they look directly into the light.

**Kelli C ~ Jack Sawyer's Heart says**

## **3.0 - 3.25 Bring me to the Light Stars**

I bought this book before even finishing my book 1 review. I needed some redemption for these characters desperately. I won't spoil much here, as you really need to read the insanity of book 1 to appreciate the full circle that book 2 brings.

I start with saying Lex is fabulous. He is all kinds of emotions tied up in the fact that he is in total love for a woman who in my opinion was not really worth it. But putting my bad ju-ju feelings aside, I finished this book in one sitting. Yes, I got some answers as to why Charlotte is the way she is. Yes I got a slight appreciation for her as she finally chose her heart and took what was rightfully hers. Yes, I found this book to be so much better than the first! But you know what they say, gotta have the bad to appreciate the good right?

**Happy Times:** Again, Lex Edward is beautiful. He is a good man, and he is not immune to heartache. His reconnections with his family was emotional to read. His ability to put Charlotte first continued to amaze me and his constant need for her was scorching! Also, the real "I do's" were perfect...well appreciated as was the progression of their family.

**Not-So-Good Times:** I could have done without the multiple POV's. Not that Eric is lol funny, but a bit over the top! I appreciated Nikki as a friend to Charlotte and a good ally to Lex. The rest were just meh'. I won't say what but holy tear-jerking moment...why was that necessary? Lex and Charlotte had enough to deal with, so that was just one more unnecessary test that almost broke them...I mean trumpy secretary and ex fiancée' – really weren't we past that?

So while I admit I skimmed, again, I did like this book a lot more than the first. I mean I love a good HEA and hot love story. So in their own crazy little way Lex and Charlotte truly were soul mates...why else would there be that much pain and pleasure, that many tears, that much sweetness when the last bitter was experienced!

**?°..°?Leigh?°..°? says**

3.5 stars

---

**Cassi says**

**Great series**

Charlie & Lex pissed me off with the book. Both of them were too stubborn. With that said I did like this book and loved the ending.

---

## Michelle says

4.5 stars. The conclusions to Charlie and Lex's story wraps up in this book but not without some drama of course because this is them, 2 people who fell in love under less than ideal circumstances and are fighting their way back to each other while they push the other away and start to doubt if they can make the relationship last because of all the obstacles. There's also more about what happened in the past and I already suspected what Charlie didn't tell Lex from the get go and when she does, it becomes apparent that Charlie nearly dug herself out of a grave during that dark time and is afraid of the same thing happening again, that she cannot survive another heartbreak from Lex. Charlie was always a strong person, Lex being her only source of weakness but she managed the last 7 years without him. Now, she is facing her old demons and moving forward and her character progression was impressive because as independent as she was to begin with, she also takes a real honest look at herself and what she wants and allows herself to take the risk that could cost her everything. During her emotional shutdowns, she closes the door on all of her friends and families so by the end of the book, it's obvious that she has found other ways to confront her problems rather than keeping people out and I admired that in her. Lex, too, is learning what it means to be in a committed relationship because although he's been married before, his everything in life begins and ends with Charlie and he's the sort of guy to fight for what he wants and to find solutions to problems. I love all of the secondary characters - Nikki, Rocky, Adriana, Elijah, Kate, Eric, Logan and Emma - these friends are so much more like family to both Charlie and Lex. The only thing that made me not love this book as much as the first (half a star difference) is what happened towards the end. Although everything was realistic and well-portrayed, I was mad at Lex because he made vows and I thought he was on his way to making sure he didn't screw up but with the unexpected tragedy (a problem he couldn't solve and needing to be supportive for someone else very important to him), he fell into a fear pattern that Charlie had already exhibited in the last book and I would have thought Lex learned from previous experience not to do that, so that bummed me out except for the fact that Charlie stepped it up even though he pushed her away. They may have been soul mates right from the very beginning, but their journey hasn't been necessarily smooth or easy and even the couples around them who didn't have as many hardships along the way still face their own personal barriers. I did appreciate the leaps and bounds they achieved together by the end, though.

**What I Loved:** Into the Light picks up right where Into the Darkness left off, with a grieving Charlie that has escaped the Hamptons back to NYC. I love that this story starts off from other people's point of view rather than Charlie or Lex's, you get to see what was going on with main characters still but from another person's side of the story.

This book is definitely actioned pack, and brings the reader on a most unexpected journey. I was able to predict a few things from book one, but even though I was right the story wasn't boring and I still was on the edge of my seat. A lot of questions are finally answered as well, and once again we get to step back into the past a little bit and see how it all went down between Charlie and Lex.

I love emotional books, I love stories that show just how strong love can be. This book definitely falls into these two characters, there were times when my heart was just completely broken and other times when I couldn't stop smiling. I was addicted from the very first word to the very last one.

**Not So Much:** The writing was definitely better in this book compared to the first one. Although I did notice some inconsistencies and the story was definitely lacking in details. When it came to things like Charlie's apartment, or Lex's place in London there was just no specific detail at all. I like it when the details are there because they just suck me more into the story, giving me a clearer picture of what is going on.

Also there were times when I could tell that the author was not American, because a lot of the word usage, and sayings were not American. I could understand that when it was from Lex's point of view, but when it's from anyone else's the colloquialisms should be American; it makes the story more genuine, giving it a stronger foundation.

---

### **Alicia Huxtable says**

So Charlie and Alex.....Lex. Seriously I still saw him as a manipulator for at least half this book. But then it all changed..... then it changed back again..... and again. It was like an emotional Rollercoaster with Lex. It's hard for me to write a review on this book. Alex is.....well Alex. Or Lex, their personalities are so different. Alex is caring where Lex is the cold businessman. But around Charlie I guess you could say they're the same.....possessive! She belongs to him and Charlie.....although she comes across as a strong independent character, she's the same towards him.....possessive. Definitely glad I got to experience this series.

### **Dena says**

Loved the story!! The ups and downs of relationships and making them work

---

### **London says**

[ .Yes. (hide spoiler)]

---

### **Robin Parrish says**

**great finish to the series.**

I loved this second book. Fun read, and just when you thought all was well, a little surprise realistic angst hit the spot. Well done.

## Review of Into the Light by Kat T. Masen

I was gifted this book for my honest opinion and review.

To say this book is great is putting it lightly! I wasn't sure how Kat was going to make this one even better than the first, but by damn she has! It was true to life, on point with reality. But staying with the romantic, love, loss, and family. It truly tugs at your heart, and I haven't been able to put it down since I started it this morning. I am one to read fast but Kat truly made this a well worth it novel that took all day to read. She keeps you wanting more to the last page and then some! I still can't stop thinking about Charlie and Lex! Their story is exhilarating, exhausting, not knowing what was going to happen, but finding myself loving each and every word as they go through the trials and tribulations of life! I cannot wait to read more from Kat! Stay true to your writing style! Thank you for letting me review this and going through their journey, feeling the emotions that they went through! If I could give this 10 ★★★★★★★★★★ I most certainly would! You can find Kat on Facebook, Twitter, goodreads, and of course Amazon! ## Romance Between The Sheets says

I read book 1 and book 2 in like two days, could not put them down. Lex and Charlie are two stubborn, passionate, sexy, funny and endearing characters. They have a bunch of friends who are so loyal it is fantastic. I love how author made Bull and Rocky the best married horn dogs ever! Thank you for writing about the fact jizz runs down your legs and wets your panties!! Great POV although I found some unnecessary as I was simply too impatient and wanted to go forward and not backward but I still loved your books!! I see there is a novella on Julian, I will read that as I need him to have a HEA.

## Ella Emerson says

5 Amazing Stars!! Job well done!! This book was very deep and moving. I loved every minute of it. I felt drawn in from the words that were so beautifully written. One part actually gave me tears, yes real tears. Alex and Charlotte have a love so deep that nothing can stand in the way of that. Although the world almost seems against them.

Kat T. Masen wow, just wow. The writing was so amazing and the story was so powerful. I am so glad I picked up this book!!

Can't wait to see what else comes from this amazing author. Fan for life.

---

## Nikki ? Navareus says

\*\*\*FOUR STARS\*\*\*

What a crazy roller coaster ride. This story put me through the entire gambit of emotions.

I spent half my time rooting for Lex and Charlie, and the other half wanting to slap the both of them upside

the head. This second half of their story was even more turbulent than the first was (for all the characters). And these two had me so freaking irritated at the both of them and their immaturity and ridiculousness.

That being said, I did enjoy this conclusion to Lex and Charlie's story, and it kept me glued until the ending, despite leaving me emotionally exhausted.

---

### **Gwen ~the Book Diva says**

**5 stars!** I couldn't put it down. I absolutely loved Into the Darkness and I knew that the wait for the sequel would be worth it! I felt the good ache and I love when that happens! Lex is mine! Yes, he made some bad choices and I don't care. I love him anyway. He is the perfect example of redemption! I loved how much her loved Charlie. I still wanted to smack her but not as much in this book!

I also really enjoyed the secondary characters and laughed out loud a lot! OMG, there was whole scene about Rocky and his tight pants. I thought I would die. There were a lot of spit-take-did-they-really-just-say-that moment. Awesome read! I am a Kat T. Masen fan!

### **Donna Beaucage says**

#### **I want a dark angel**

This story took me on a world wind of emotion ... This was like real life the good the bad and the ugly . At the end of every dark road there is light ... Thank you for making me fall in love with Charlie and Lex !!
