*Elle Brooks*

**Reveal** Elle Brooks

I used to believe in destiny.

I was six years old when I first took to the stage, and I've danced every day since. It's the biggest part of who I am. The fuel that drives me forward.

My oxygen...

My life...

My soul.

The stars were perfectly aligned, and my fairy tale had slowly begun to play out like a beautifully scripted passage from a romance novel. I was all set to live my happily ever after...

Until I wasn't.

If dancing was my heart, Daniel was the blood that kept it beating. I was content with supporting him as he worked towards his music dreams, but then he disappeared, leaving me scared, alone and suffocating under the crushing weight of his debts.

It's said that opportunity often comes disguised as misfortune.

When one door closes, another one opens. But I wasn't prepared for it to belong to Reveal, one of New York City's most exclusive Burlesque Clubs.

It feels as though the universe is conspiring against me until fate thrusts two very different men into the equation. And what they have in common, no one could have predicted.

Destiny may have delivered them both, but who stays is my choice.

## Kelly 'Perusing Princesses blog' says

When one door closes, another one opens and in Robyn's case a new start is definitely what she needs. Preferably one that pays well after being lumbered with a bad debt when her ex bailed and left her to clean up his mess.

Reveal; an high end Burlesque establishment in New York City. It has a respectable reputation and the money is good; a means to an end and a great opportunity to express her love of dance -- nipple pasties be damned.

A hot coffee debacle in Starbucks paves the way to a new friendship in a hotshot lawyer named, Cole. Sexy, refined, successful, Cole is a great ear and good company, and it is quickly apparent he would like more.

Callum may be the boss of one of the most revered Burlesque clubs in the city, but he's a renowned player. After having his heart broken by his ex girlfriend, Lisa when she cheated on him, he has vowed to never let another in.

When Robyn is attacked by a loan shark demanding the 10k debt her ex rang up she turns to her friend Lucy for advice. Having a contact within the establishment, Robyn successfully lands a new job at Reveal... just the break she was looking for, but as always, nothing is ever as straightforward as it seems.

Reveal is an addictive, sexy and unmissable read that focuses on one woman's plight to do the right thing even when a wrong has been made. Robyn is a sweet character and because of this she has two men vying for her attention, and even though her actions are genuinely honourable, she finds herself in a couple of predicaments that make you turn every page with relish.

The anticipation of where this story would lead was killing me, and that can only be attributed to the wonderful writing style and talent that is Elle Brooks. She is fast becoming one of my favourite authors and I swore after her Promises series, I will read anything this woman writes and Reveal did not disappoint. This is more edgy than her previous work and even though it hints at a love triangle, not all is as it seems. All I can say to that is this Princess is #TeamCallum ALL THE WAY!

Add this one to your TBR and READ IT! You won't be disappointed.

---

## Anne Mercier says

This book. This author. Where to begin. The feels! There are so many! I love Elle's prose. The way she tells a story sucks you in and has wishing you could read faster so you could see what happens next! I've got to say, something that happened in this one I didn't see coming AT. ALL. I was like WHOA. NFW! Strong heroine, brooding take-charge hero... it's sexy, it's sassy, it's angsty... this book is the real deal! Elle Brooks wound my reader love and loyalty around her little finger with her Promises series and with Reveal, it's grown even more to put her in my top 10 one-click author list!

---

## TheCrazyWorldOfABookLover says

Decent read. The "reveal" was glaringly obvious from the beginning and I felt it was a bit too wordy and dragged on too much for my taste.

---

## 1-Click Addict Support Group says

*Reveal* is the perfect title for this story. There were so many twists and turns that kept being revealed throughout the entire story. I was glued to my kindle and couldn't swipe the pages fast enough.

Robyn is a dancer. She has been dancing her entire life.

**"I've danced from the age of six. Ballet, tap, modern, street and anything and everything in between. It's more than a passion; it's an obsession bordering on insanity. If I couldn't dance, I would cease to exist."**

When her boyfriend up and disappears, she is left with all of his debt and a loan shark knocking down her door. She turns to a friend and ends up as a burlesque dancer at a club called Reveal.

Callum is the owner of Reveal. He takes one look at Robyn dancing and hires her instantly. He is drawn to her like he's never been drawn to someone before.

**"I'm usually much better at not blurring the lines. I guess the thing about Robyn that's bothering me the most is that I want to blur the lines with her. I want to smudge them so badly that they're not even lines anymore."**

However, Callum isn't the only man in Robyn's life. Enter Cole, a wealthy business man who is everything Robyn should want. He comes into her life at a much needed time. He is such a gentleman though and doesn't push her further than she is ready even if he wants to.

**"The thought is tormenting, and although I do want to be her friend, I can't deny this intense attraction. I think I'd sell my soul to the devil himself to have my lips pressed against hers."**

Between Robyn's crazy life, and juggling two men, I had to know what was going to happen. I loved this story and couldn't put it down. The ending especially surprised me.

If you love your books to be steamy, full of angst and drama, and to be unputdownable, look no farther. This is a must read! ~ Tiffany, 4.5 stars

~~~

I went in thinking, '*Oh no, this is going to be a love triangle that is going to go wrong*', yet I was really surprised that it definitely wasn't. Now, Ms. Brooks definitely threw in some curve balls that had me rethinking of what and how this was going to play out.

Robyn was betrayed and left to pay the consequences of her ex, Daniel. She didn't know how she was going

to do that when she was barely able to make ends meet, and if she wanted to keep living, she had to scramble and find a way to pay for his mistake and betrayal. Robyn's love for dance is the way she finds a light in the dark tunnel she is currently in and, no matter what, she's decided to do what she needs to, to continue living and surviving.

Cole has seen Robyn at the coffee shop across from his job, so he knows he has to find a way to get her attention and a way to get her to go out with him. What he does is pretty funny and smart so guys, take notes on this the next time you want a woman's attention!

Callum's way of getting over the ultimate betrayal is losing himself in any woman that allows him to, because he refuses to get attached again. His motto is "Don't sh\*t where you eat", yet he seems to have done that and now he knows he's screwed!!

Robyn knows she shouldn't get involved with either, yet one man in particular has a strong pull on her that, as hard as she tries, she knows there is no way she will be able to walk away from...

As I mentioned there are curve balls thrown in here and, let me say, for a minute there I thought to myself, *'Oh, this just cannot be!!'* Kudos, Elle Brooks, for keeping me on my toes and totally throwing me left field. Can't wait for what else you have up your sleeve! ~ Kara, 4 stars

## Erin Dennis says

**\*\*I was given an ARC in exchange for an honest review.\*\***

I know you aren't supposed to judge a book by its cover, but I knew as soon as I saw the cover of *Reveal* that I was going to fall in love with it! It is absolutely gorgeous! I was super excited to find out that the background of the story was set at a burlesque club. How fun and refreshing is that? I haven't read a book that had this particular theme, which made it a very unique book for me.

Elle creates an exquisite cast of characters all of which are fighting their own battles and demons. Robyn, the heroine of our story, has been left in dire circumstances after her boyfriend leaves her high and dry. She finds work as a dancer at an upscale burlesque club where she meets Callum, the handsome, sexy, club owner, but not before she meets Cole at a coffee shop a while before she starts working at the club. Elle writes a tangled web of love, passion, and suspense as Robyn gets caught up in a love triangle.

Watch out for plot twists and surprises, because this book has them! Throughout the story I knew that I felt uneasy about some things, but I wasn't able quite guess what was going on. I LOVE this about a book. I do not like to be able to predict things, and this book definitely kept me guessing! This book is hot, steamy, action packed and a definite page turner!

5 shooting stars!

*ARC Received from author in exchange for an honest review*

### **4.5 Stars**

What can I say about this story? It's intriguing, exciting and addicting! I loved every minute. Immediately I found myself wanting to know certain parts of the story and reading like a crazy woman. I am not the one to read ahead, but this story tempted me. Elle Brooks brings us a fascinating story and plot that has an edge and added suspense to it that I love.

---

## **Irma says**

This book was everything I expected it to be. Elle Brooks is a name you can't go wrong with! I was lucky enough to receive an ARC of *Reveal*!

Thanks God, because... there's no way I could've waited until August 30th. This story! You feel!!! I never tell about the story because I believe you need to read it and to feel it for yourself. But I had my eyes on Callum the whole time. Yes, I admit it, I was cheering for him (...and maybe I even had a crush on him). He has that bad boy thing going on. Cole on the other hand is a rock. Now, Tweet - she's having a hard time cleaning up a mess that her now ex boyfriend has left her and that's all she's focused on. But not for long! Two men, both undeniably attractive and smart, are slowly breaking down her walls. Will her ex boyfriend's messed up situation get to her and who will she pick? Well, you better read it and find out for yourself ;) I LOVED it!!!

## **Susan says**

*Reveal* by Elle Brooks

MUST READ of 2015

\*\*\*ARC given for exchange of a honest review.

These books take on a whole new direction from her 1st 2 books and she blew it out of the water.

This book is the story of Robyn. Handed a really awful fate by her long term boyfriend Daniel. She is left to pick up the pieces or fall apart and that just isn't a option.

Desperate times call for extreme measures she meets 2 sexy as sin men in different locations that become her saving grace in different ways, if she will allow them in. Funny how when you get crushed your heart closes to potential possibilities.

Callum is her boss and sexy in the bad boy kinda way. Tuff on the outside by a vulnerable kinda way when time calls for it.

Cole very put together Lawyer. Likes things neat and easy. But has an immediate connection with Robyn that he can't fight.

I can't say much more for fear of spoiling it. Believe me you do not want that cause this book is a ride and you won't know what hits. Let me tell you this book had me engrossed and pulled in with every emotion going through me.

The Twist and turns in this book blew me away I sure as heck didn't see them coming and truly made for a great read.

Thank you Elle Brooks for your genius. Your books are truly inspiring and beautiful. Congratulations on an Amazing book.

---

### **Elaxis says**

I received an ARC in exchange for an honest review from the author.

(Also purchased if that tells you how awesome this book was!!)

Elle Brooks has done it again. This book was completely on a different page than the Promises series, but was just as gripping and heartfelt.

"One more second and it would have been too late. I was pumped with adrenaline and eager to carry on and find a new target. I never spared a thought for how terrified the poor animal must have felt knowing it was being stalked. I was the predator, top of the food chain, and the upper hand was mine. Tonight I'm the prey."

Have you ever felt scared for your life? Whether in a real life situation or in a dream? One that felt so real you woke up afraid that your breathing would alert the one after you? That your heart rate could be heard across the world and not just in your own ears?

"I've danced from the age of six. Ballet, tap, modern, street and anything and everything in between. It's more than a passion ; it's an obsession bordering on insanity. If I couldn't dance, I would cease to exist. People may call it dancing -I call it living. It's raw, ardent expressionism, each movement distorting reality so radically that you have no choice but to feel every emotion it pulls from you."

I love this. The passion written so that you can feel it. The characters believe in what they love and they stick with it no matter how others may look at it.

This book touches on so many different feelings, too many to count. The storyline is great, and keeps you interested, as well as entertained.

5 Stars for Reveal !!

---

### **Anne OK says**

New to me author with a romantic suspense that grabbed my attention with the word "burlesque." Haven't

seen that in a plot so I took a chance and was well rewarded. A warning to those who hate the love triangles: This story includes one. It's pretty evident from the get-go who's in the lead and will win the race. And readers will probably share my desire to hope that this author will follow up with a story for the one who doesn't win the girl -- because he certainly isn't a loser in any way. That being said, I was always cheering very pleased for the guy who stole our dancing heroine's heart.

There was one twist that revealed itself early on to me, but there were more that this author hid just out of reach in plain sight which was a thrill for this suspense lover. Overall, this is a great read and one that kept me interested and happy with the characters, storyline and ending.

Definitely going to take a look at Elle Brooks' backlist and future releases.

---

### **Jodie Hinnen says**

I want to start off by saying that *Reveal* was the first book I've read that has been written by Elle Brooks. And it won't be my last.

*Reveal* will capture you, captivate you, and consume you until you've consumed it.

The characters in the story are witty and their banter will have you laughing. That's one way I know I'm reading a great book: if while reading, I catch myself smiling like a fool or laughing out loud. *Reveal* is one of those great books.

---

### **Elizabeth (Perusing Princesses) says**

My GOD!! Elle's brain... I just want to crawl in there and stay forever!!!  
*Reveal* is amazing... it is original, fresh, sexy, gritty, suspenseful... and HOT!!  
You are immediately sucked into the story!!  
And then you have to hang on for the ride...  
The characters are amazing..  
you just connect from the first page..  
and you live each scene out as if you were there!!  
Literally all the feels, heart stopping breathless feels!!

My review will follow publication.. but just know... You NEED to read this!!

---

### **Terri says**

This started out ok for me although I did have feeling I read it before. Turns out I didn't. Either I read the sample or it's very similar to another book I read. Unfortunately I did a lot of skimming it just didn't cut it for

me.

---

## **Donna ~ The Romance Cover says**

3.5 stars!! I enjoyed this one, a kind of romantic suspense with a hint of a love triangle, but not...now your curiosity is piqued!! The plot kept me going, I loved Cole even though he was a bit stalkerish lol, but seriously a guy that goes to that much length to get your attention, you know he is serious and I have to admit I felt for him, a lot. He was Mr Safe, Mr Lawyer and sometimes it is the nice guys that get ignored. Callum was dark and dangerous, yet he wasn't. The total opposite of Cole in all ways but he too had a heart of gold. Robyn was beautiful inside and out, yet she had the world on her shoulders and her track record at picking out men was not great. Crazy circumstances make you do crazy things and that is just the situation that she finds herself in. On one hand we have Mr Safe and on the other Mr Dark and Dangerous...just who will she choose. (full review to come)

---

## **Jennifer says**

Please please please do NOT leave this as a stand alone! I want there to be another!! Yes, I realize that is greedy as hell... NO, I do not care. Not many authors can write from three different perspectives and pull it off so fluidly. You, my dear, have achieved this feat spectacularly.

I appreciate real characters. I do not want whimsical flighty emotions. I want personalities that are relatable and life like scenarios that make you feel as though you "know" these people. Elle has developed a story that could very well happen right next door to you. It's amazing the way you feel as though you become a part of her pages.

Now, I am not easy one to pull a surprise on... But I am telling you - I had to flip back and forth between chapters to make sure what I was reading was actually happening!! I needed to make sure I hadn't missed some vital piece of information. You got me - and damn if I didn't love it!

Without "Reveal"ing anything (yes - lame, I know) you had better give that man a book of his own! You know who I am talking about!!

**\*\*NSFW\*\*** If you want a sweet demure love story that will confirm your ideal of love at first sight, turn around. Walk away and we will forget this ever happened. If you want HAWT - SEXY - ALPHA - DOMINATED bedroom scenes that leave you frustrated for another... Keep your eyes peeled for this release... **YOU DO NOT WANT TO MISS THIS!**

---
