Charles Castell says

This is my first adventure with Mr. Donald L. Robertson, but it assuredly is only the beginning of a long lasting relationship between he and I. The story is unbelievably fulfilling and the adventures never ceases to amaze me. Too, the author appears to live the parts of his very explicitly detailed group of characters.

Certainly worthy of the five stars awarded this outstanding western adventure and the characters were perfectly selected throughout the entire story. Very descriptive, and detailed, adventures from beginning to end. I most definitely, will be following this newfound author, whose impressive storytelling is definitely headed for excellence.

I love exciting detailed episodes of our old western folklore and this author creates a magnificent rendition of such successfully endeavors!

Most definitely recommend this book to all readers seeking excitement, which will definitely be found in this dramatic representation of our real old western adventures. Try it - you will love it!

Western

This book is a traditional western. With the good guys, the bad guys, a ranch, pretty woman, and a crime. Typical white hat/black hat kind of thing. A quick read and enjoyable western.

Michael Mcfarren says

Best action!

Robertson can write! Action in every page yet descriptions that have you seeing the land and smelling the campfire smoke. This is the fifth story/book of his I've read. Each solid stories that have burned themselves in my memory. Few authors have his grasp of the time period and feel of the characters. I highly recommend for all readers.

THE LONELY DRIFTER

Bad men who don't want to work and make a living but try to scam upstanding do the right thing men out of their assets. Lots of action and insight into how the men and women lived their lives.

Casey says**Very well done**

It is a great pleasure to read a well thought out and well written western tale. As n editor I very much enjoyed the lack of grammatical and punctuation errors! Smooth reading is so much nicer.

Kathie Zingler says**Didn't down load**

The story was a good plot, fast paced. Unfortunately, every two pages there were two blank pages. Was very irritating.

Jill says

Didn't really enjoy this. It was boring.

D. E. says**Cattle Rustling/Rustlers /Hanging/Gunfights/A Woman and a Ranch**

DLR has penned a short story about an ex marshal that has been traveling until he came across rustled branding cattle. He hired around them and proceeds to the ranch and advised the female of the rustling. The last and the man proceed toward the rustlers, with riders from the ranch and stops the rustling. This is an excellent short story for the genre.....DEHS

JoAnne says

Fast paced historical novel set in the west with lots of action and adventure with cattle rustlers, ranches, ranch hands and lots of travel by horseback. Very descriptive details of the mountains, the ruggedness of the area and the fighting and deaths that were part of the period.

Some depth to the characters but most were what you see is what you get. Story ended abruptly with a happily-ever-after but not as I expected.

A new to me author and I look forward to reading more of his books but hope for longer lengths to the stories.

Bryan Boswell says**Really good book!**

I really enjoyed this book. I would like to read more books by this author. Great writing and the story line is great. Need a series of this main character.

Richard says**Very good**

Smooth writing. Story was easy to read & the flow was good. It was like being there. Seeing what was going on it that time in history.

Elizabeth West says**Rustlers**
