## **Safe Harbor** AnnaLisa Grant

Layla Weston was supposed to be planning her wedding, not waiting for her fiancé's father to die.

As Luke prepares to defend Holly for the shooting of Gregory Meyer, Layla and her family weigh the possibility of being able to return home to North Carolina. Only Layla isn't quite sure that's what she wants.

Will and Layla are faced with a new set of challenges for their future - including the status of their upcoming wedding. And when new revelations about his father come to light, Will finds himself questioning his own destiny as a man. With Layla's help, he must learn that his identity is not determined by his DNA.

Now that they are on the brink of their happily-ever-after, will Layla and Will get everything they dreamed of? Or will their happiness continue to be just out of reach?

## **From Reader Review Safe Harbor for online ebook**

### **Abby Kavalow says**

I really struggled to finish this book. The first two in the series were good and got me invested in Layla and Will's story, but this last book was pretty boring. Focused way too much on the lovey dovey of their story. Wish there would've been more to Holly's trial and other parts of the story. This trilogy could easily be condensed into a Lifetime movie and it could include almost nothing from this book. One last thing, there are TONS of typos. Almost seemed like they were rushing to meet the publishing deadline.

---

### **Allie says**

Perfect ending to an amazing trilogy of books!

---

### **Michelle says**

#### **Same old, same old**

After reading the first two in the series, my expectations of this book were pretty rigid in my mind and unfortunately I was not mistaken. The author continued with book 3 in the same fashion as 1 and 2. The same dialogue; "I don't deserve to be happy". " I do deserve to be happy". The same back story over and over about Layla's grandma, death of her parents. The same back and forth conflicts between Will and Layla. One minute they are the super couple ready to handle everything together and the next minute, one of them runs away from the other because they are scared of who they are or who they may become. I will say that in this book, the never ending conflicts and villains showing up was much lessened and didn't play out so much like a soap opera. But the conflicts and the characters for me were unbelievable and the resolutions too easy. I would have loved to have fallen in love with Will and Layla but instead found myself at the end of this trilogy more annoyed with them than anything. Was it worth the three reads? I guess so if you had the time to spare and didn't mind a mediocre storyline. Lastly, the author does need to get a new editor. When "dear" is used to describe a 4 legged animal with antlers, among other mistakes that were blatantly obvious, time to get someone who doesn't just use autocorrect.

---

### **Pauline Hughes says**

#### **Like crying**

Layla was such a cry baby. It was so hard to finish this book. . The samethings were explained over and over

---

### **Lynn (Ellesea Loves Reading) says**

Enjoyed the whole of The Lake Trilogy, even though not my usual genre. The only thing I found unbelievable appeared towards the end of the story....The honeymoon NYC, Ireland and Bali in just 2 weeks? 3 days must have been taken up with sitting on a plane ;-)

---

### **Jolene Starring says**

#### **Too predictable and grammatically distracting.**

By the time you get to the third book Will and Layla along with their string of horrible circumstances have become extremely predictable. It was a struggle for me to finish. I think the editor must have felt the same way because the grammatical errors became more and more distracting as the book wore on. I did enjoy the first two books in this series and thought they made a nice feel-good read but that is where the saga of Will and Kayla should have ended.

---

### **Cheryl Amazeen says**

#### **I NEVER read books like these!**

BUT after reading The Lake I decided to read the series. And I decided not to review until I had read all three. It's a great story, very refreshing and with enough twists turns and supprises to keep me interested and turning the pages.. I hope this story appeals to young people, gives them hope, that even a rough start in life isn't a precursor of what will always be, and that personal ethics aren't old fashioned or a waste of time. Because when you get older, It's really important to be able to look in the mirror and be proud of the person looking back at you. That's probably the most important Gift you can give to yourself and to those you love.

---

### **LeAnn says**

This series was decent. The plot was engaging and the characters were likable (except for Layla on a few occasions) but I felt like the story could've been condensed to two books. It was very repetitive and some parts dragged and were unnecessary.

Then the dialogue felt stiff and not realistic at times. Also the mushy factor was a bit much. There was so much love and family bonding going on that sometimes it felt like I was reading the script for a cheesy sitcom.

There was also some spelling and grammatical errors throughout the books that should've easily been fixed with an editor or simply by proof reading.

Overall, this series kept me interested and engaged enough to where I had to know how Layla and Will's story would end and I'm pretty satisfied with how everything was resolved.

---

## **Angelnet says**

Taking the three books as a set I enjoyed the story but thought that with a bit of judicious editing it could have been one very good book rather than three slightly repetitive rambling books.

When I'm paying for a book it also annoys me when there are glaring errors in spelling and/or punctuation. Little things like "site" when it should be "sight" and "bare" when it should be "bear". The third book seems to suffer more than the other two and there are a lot of grammatical and punctuation errors that any half decent beta reader (let alone paid editor) should have taken care of. Over all it distracts from the story and lost it a whole star point.

## **Tara says**

I was so excited when I found out I'd won an eARC of SAFE HARBOR! And I so enjoyed reading it!

AnnaLisa did it again!

I was drawn right back into Layla and Will's story, right from the 1st page.

As with THE LAKE and TROUBLED WATERS before it, SAFE HARBOR was full of sweet romance, mystery, twists and turns, laughs, heart stoppers and tear jerkers.

"Her parents do." .... I sobbed like a baby!

I am so pleased with the outcome of Layla and Will's story.

The epilogue was just awesome. I smiled big the whole way through.  
Perfect ending!

SAFE HARBOR was definitely a 5\* read for me.

I smiled, I laughed, I cried.

A fabulous ending, to a fabulous trilogy!

---

## **Krista Fee says**

I absolutely love this author, and would love to get some ARC's. -hint hint- lol but no really I have adored this trilogy from the start, I love that will and Layla's story is incorporated with strong family values. You do not see that in many books anymore. This book took me a little longer to read solely because it was a detail oriented book. The beginning started off strong and the ending left me on the edge of my seat and yelling NO NO NO what are you doing! The middle was all mushy details about the wedding and such leaving me in tears. And lastly, I really enjoyed the epilogue, nothing is more irritating than an author who writes this amazing book and doesn't tie up the loose ends for you, letting the characters wonder carelessly in your head. Annalisa did a wonderful job with the epilogue. Over all- Bravo. I will be recommending this book to the

rest of my club. Sorry for the huge paragraph good reads is not formatting my spacing for some reason and jacking up the format! Thank you for a great story.

---

### **Alejandrina Ley says**

#### **Very repetitive**

The book dragged had to skip a few pages I just wanted to be done with it to know how it ends.

---

### **JoAnn says**

I enjoyed the final book "Safe Harbor" of The Lake Trilogy, but not as much as the first two. Layla's inner dialogue droned on a bit much after awhile. More discoveries were made of how awful Will's dad was, but with nice surprises for Will. As a whole, it was an enjoyable series from AnnaLisa Grant.

---

### **Paige says**

#### **Trilogy of events**

This book has definitely kept my attention. I thoroughly enjoyed getting to know Will and Layla. Their story was intriguing to say the least. I am always a sucker for high school romance novels, and this one was no exception. I did notice some odd spelling errors. But other than that the linguistics of the book met my expectations and I was pleased to see... err read, how the story lines would turn out. I'm glad the epilogue was included at the end. Sometimes you have to imagine the ending, but this as exactly what was needed. If you're interested in a trilogy on romance and exciting events, this is a great read!

---

### **Megan Burnett says**

#### **Great story**

I really enjoyed this story. Unfortunately there were several errors throughout the book. It was frustrating to get into the plot and be thrown off by the wrong word choice or the omission of a word. It appeared that no one emitted these books.
