Another good collection of short stories, this time also featuring Enterprise. Some stories feel Mary Sue like, but others are good explorations of characters and situations. The one that stands out for me was Sevens relative, and what she went through when she thought Annika was dead. A good read.

4 Stars. Another knock out Strange New Worlds anthology of short stories.

Like the previous 4 SNW, I would have pick different stories for 1st, 2nd, & 3rd place, but I did like all three of those.

And like the first 4 books, there were some I did not care for, but this time only two that I skipped, one completely & one I just stopped reading & moved on to the next one.

Looking forward to book 6.

Highly recommend.
