In this collection of sexy novellas, three women take a road trip to Napa Valley—and where there's wine and women, there's always seduction.

I enjoyed reading about how each girl found love. My favorite story of the three was Rose and Jack. Overall a pretty good read. Who doesn't love a good love story with a happy ending. It just goes to show that sometimes love can happen in a matter of a weekend

### **Trina says**

This is actually a trio of stories (three best girlfriends) and their love adventures over the course of a get-away vacation. I thought each story was great all by itself. The stories were quick and easy to read and easily kept me engaged.

For some stupid reason I kept putting this book off, and moving it back on my tbr list, until today. The first two stories I absolutely loved, I even kind of identified with Rose. Vanessa's story was so different it seemed from another book, but I couldn't help but fall in love with Sam eventually. Really hot with some fun, another winner by Bella Andre.

### **Jessica Alcazar says**

This was absolutely a great little book. All three stories just made your heart sing! The ONLY thing I think that would have made this book perfect was if all 3 stories were told at the same time. The three friends travel to the wine country for a girls weekend and each find their HEA in separate stories but yet it happens at the same time ... i think just going back and forth from Carrie and Rose and Vanessa within just one story would have made it more interesting....

This one was rather good. Its three Novellas all written by Bella Andre. The stories actually take place simultaneously when three friends head for the Wine Country in California and find love and their happily ever after where they least expect it and of course when they aren't looking. I unfortunately can't recall the names of the characters at this time.

Tempt Me = The girl has just broken up with her boyfriend who after he proposed realized that he was not the perfect catch after all. After arriving at the hotel she takes a walk and after getting lost in a vineyard is found by a man who turns out to be perfect for her. After dealing with issues he has from a past relationship and dealing with the same for her which includes the ex actually showing up having not gotten id est not

accepted the answer she gave to his proposal the new couple get their happy ending.

**Taste Me** = The girl has dealt with her weight for as long as she can recall and yet again a guy has broken up with her and suggested she lose some weight. She's really not that large but is planning to diet in the trip but when she arrives she learns that in a random drawing or something she has won cooking lessons from a really hot chef. She plans to meet him say no thanks and leave. He's not real happy about the idea of teaching someone to cook as a promo event but is going along with it. He figures it'll be some skinny woman who either doesn't eat or eats like a bird. Chef's want women that will enjoy what they cook (at least this one does and so do all the other hot romance novel chefs I've read about in books) but seem to date what appear to be toothpicks to average girls so they don't feel they have a chance. Anyway, after seeing her he's actually looking forward to the cooking lessons since he likes what he sees and thus begins an another awesome weekend headed for a happy ending.

**Touch Me** = The final girl who appears to have all the looks and everything guys want is not looking for a guy this weekend but she finds one when she meets an artist who wants to paint her. Although she's not looking for it and not even planning a one night stand the final girl does the same as the other two and she too has a happy ending.

Three friends are heading for the Wine Country in California to spend the weekend. They are all dealing with some issues in their lives and never expected to find true love on this journey.

#### **Tempt me**

Carrie just broken up with her boyfriend after he proposed to her during a wonderful dinner. It appears he wasn't Mr. Right for her after all, so this weekend with her two best friends is just what she needs. After their arrival at the hotel she decides to take a walk and gets lost in this huge vineyard. So when this stranger Tyson Green appears to "save" her and is immediately attracted to him, so she decides to take a walk on the wild side.

#### **Taste me**

Rose is the second friend who just broken up with her boyfriend after this scumbag suggested she lose some weight. Rose knows that she isn't big, but decides to lose some weight starting this weekend. But at arrival she finds out that she is the lucky one that was randomly drawn to take some cooking lessons from hot top chef Jack Gerard. When she learns that Jack loves full-figured women and finds her attractive, she dumps her diet and let him lead her on this bumpy road full of food and pleasure.

#### **Touch me**

Vanessa is the last friend on this road trip and the bold one. She enjoys life and all the men within, but this weekend she is all about relaxing and taking care of herself for once. During her walk through the town, she discovers this art shop and wants the painting in the window. But the artist Sam Marshall has other plans for Vanessa, he wants to paint her nude and he won't take "no" as an answer.

Tempt me, Taste me, Touch me by Bella Andre is a great book with three novellas, where three friends finding Mr. Right when they at least expect it.

Carrie and Rose both just broke up with their boyfriends and need some time to heal, when Vanessa just want to take a break from all the male attention in her life. Never in their life would they imagine finding Mr. Right on this short trip to Wine Country in California.

What I love about Bella Andre is that she uses women in her books that a lot of women can relate to. I've read some of her other books too and love the fact that she isn't afraid to write about women who aren't the skinny model type.

I cannot say that I liked one story better than the others, because all three were fabulous. Great characters, steamy scenes and lots of sparkles flying around between the couples. I'm definitely going to check out more of her stuff.

### **Krissy says**

I really enjoyed these stories. I liked that they were quick reads, but at the same time, I wanted more of each couple. I wish that there could have been some sort of epilogue so that we could get one more scene of the three friends together again in Napa after their stories ended.

As always, Bella Andre didn't disappoint, but left me wanting more. I'm becoming more of a fan the more I read of her stories.

### **Cara says**

3 steamy, quick to read novellas by an author who always writes engaging, quality stories with genuine characters. Some insta-love here is rather unbelievable, but such is the stuff of romance novellas. a fun summer read.

????????????????????read in Japanese. 1. ??????? Tempt Me?2. ??????? Taste Me?3. ?????????????

## Touch Me 3 novellas

Light short stories. Hot scenes were not as hot as being listed on some of the hot lists.

1. ????????? Carrie, landscaping designer who was just proposed by a rich boyfriend who doesn't listen to her and Tyson, winery owner. Had a great weekend together when Carrie got lost in grape yard, but she told him that she was single while still carrying the engagement ring in her pocket. Tyson was at the end of his divorce after his wife slept with his worker. Mild warmness

2. ??????????

Rose (30), an accountant and Jack (36), a chef. Rose is deep in low self esteem about her body and her personality. She had a hard time believing Jack who thought she was a bomb. They spent the weekend together after Rose won the free cooking lesson from the famous chef. Instead of giving her a real lesson, he took her to his home.

3. ????????

?????????????????????????????

????????????????????? Didn't care much about heroine or hero.

Trio of stories (three best girlfriends) and their love adventures over the course of a get-away vacation.

I thought each story was great all by itself.

The stories were quick and easy to read and easily kept me engaged.

Would've been nice to have had an epilogue of all 3 friends with their new hotties together and what they are up to.

I've concluded throughout the 3 stories that the three men knows/knows of each other, so it would've been great to see them interact with each other.

Compliments to the author!

Tempt Me, Taste Me, Touch Me by Bella Andre is another one of her outstanding books. If you like romantic stories you'll love this book. It's three different stories about how three friends each find true love. I recommend this book.

All in all I really enjoyed this anthology and I'm so happy I found it on sale on Amazon for only 2.99\$ since I really wanted to read it but it was just too expensive for me until now.
