## Mallory says

Story One \*\*- This story I feel didn't give enough background, it kept referencing "last year" and battles and people that never appeared in the story. I DO want to read the previous book or story that has all the people and battles in it... but I am not in a hurry.

Story two \*\*\*\*- When this story was over I wanted to yell "NOOOOOO". I will have to find a copy of this book somewhere I love how, even though you don't know what the heck is going on at first, the story slowly builds, adds more details and fills out as it goes along. Like I am sure Beatrice's world is filling out and expanding. I like the concept of the book, the ideology of a Utopian society, or striving towards one. And I like that the story leaves you on the precipice of what I sense is going to be a chaotic upheaval to both Beatrice's life and everyone's with the brewing tensions between the factions.

story three \*\*\*\*- Story was slow going at first, but the mystery of the guys and the nighttime sword fight kept me reading. Wish I could keep reading it was just getting good.

story four \*\*\*\*- liked the concept, liked that you could understand what was going on easily. will want to read this book in its entirety.

story five \*\*\*\*- I love this story, wish I had the entire book.

story six \*\*\*- liked this story. wanted to keep reading.

story seven \*- just not my cup of tea

### OVERALL:

#### Illusions by Aprilynne Pike

#### Divergent by Veronica Roth - 5 stars

Evil seeps into the best intentions as Tris finds out when she turns sixteen. She has to choose which faction she wants to be a part of but will that choice really matter that much in the end as war is on the horizon.

I was a little worried that I wouldn't like this book as much as I wanted to because I have been listening to all the hype about it for just about forever. Not to worry though I LOVED this book!!! Even though it tended to start out a little slow I was captured by the magic of it all right away. Tris and four worked beautifully together and I loved the chemistry they had, it wasn't a mushy insta love type of thing but something that was real and expected for the situation they were in. I was a little sad for the turn of events of some of the characters but I am excited to see what the next book has to offer.

#### Die for Me by Amy Plum - 4 stars

When Kate's parents died and she had to move to Paris with her sister she thought nothing in her life was ever going to be right again. That is until she met Vincent. Although Vincent isn't a normal guy, he is reverent. He saves people's lives and now Kate can save him.

I really enjoyed reading this book even though I am not a big fan of the insta-love quality. I have to admit that Vincent's attitude was pretty cute and I loved how he interacted with Kate. She took the whole reverent thing a lot better than I would!

The reverent idea and concept was one that I had not heard before and I found the storyline quite refreshing.

It's not really a zombie type of book; I would say this is more for people that like ghost type stories.

I'm excited for the next book!

### **Something Deadly This Way Comes by Kim Harrison**

#### **Starcrossed by Josephine Angelini - 4 stars**

Helen isn't a normal high school girl, she is a demigod. She doesn't realize this until the Delos family arrives in Nantucket and changes her life for ever. Now there is a centuries old family feud and a star crossed relationship with Lucas to deal with. Making it through that year of high school isn't going to be as easy as she was hoping.

This book was a fantastic take of Greek mythology! The characters were amazing and well rounded. Helen did get a little whiny at times but I have found that the main heroine sometimes has a right to whine every now and then. Lucas was a teenage heartthrob and up for the tantalizing hero challenge. Overall I would recommend this book to people that have a fascination with Greek mythology and would like a different take on the tales.

#### **Hereafter by Tara Hudson - 3 stars**

As Amelia is drifting through the world nothing seems to change. No one can see her because she is a ghost. After a near death mishap by Joshua in which Amelia attempts to save him everything about her dull existence is finally turned around. Joshua can now see and talk to her and just like she helped to save him Joshua wants to help uncover the mystery surrounding Amelia's death.

I was in a ghost story kind of mood but the book did not really pick up for me. The pacing of the story was weird. I liked the character of Amelia, although her overall personality was kind of cheesy. Joshua was just a love drunk character obsessing over a ghost; I never really liked him that much. The ending picks up the story somewhat and I liked the author's explanation for what had happened.

### **Cryptic Cravings by Ellen Schreiber**

I ended up skipping through all the stories except Divergent. Just not my cup of teen angst.
