The Sound of Thunder: The Courtney Series 2 Wilbur Smith

In the same way Sean saw it coming, he recognised it as the murderous rage which before had nearly killed a man, but still he could not prepare himself. And then it was upon him and the roaring filled his head.

Some will win. And some will lose.

Sean Courtney returns from the African wilds to find war has been declared between the British Empire and the Transvaal Republic. Not only that, but a rivalry is growing between the cruel, obsessive son who bears his name, and his elder, secret son, whom he cherishes deeply.

The Boer War will take from Sean, in both blood and gold, but the conflict and its consequences will also offer him everything a man could want. Sean must now decide: with both sons in his life, is he willing to pay the price he needs to keep them?

Good title

Following series and captivated by the complexity of the Courtney clan. Why have these never been done as to series?
