## **Till Abandon** Avril Ashton

All the power and killer instinct she possesses can't protect her from the claiming of one determined wolf.

They call her 'The woman in white,' whisper 'Death-Bringer' with their last breath, but no one knows exactly what she is. Not even Voltaire herself. The deadly magic within her is a living thing, able to crush anyone and everything with a blink. Abandoning the blood-soaked world she's used to, Voltaire seeks out the one constant in her tired life-the green-eyed wolf in her dreams. She's ignored the wolf's call for years, afraid to surrender, but danger haunts her mate. He needs her.

Wolf-shifter Blake Montez is in the middle of a war, battling the usurpers intent on taking over his territory. Unfamiliar magic hums in the air, unnoticed-it seems-by everyone but him. He finds the source already under his nose, in his home. The delicate woman in white knows things no one should know, and the heat simmering between them is unlike anything he's ever felt. His wolf recognizes her as his mate, though Blake remains unsure he can trust her.

Voltaire sets out to prove herself with time running out. Enemies are on the prowl, some foreseen, others remaining cloaked in shadow. She and Blake team up, fighting side by side, but in the end Voltaire might be the biggest threat to their love.

## **From Reader Review Till Abandon for online ebook**

### **Cathy Brockman says**

This is Book One of the Paranormal Security Council Series.

Voltaire is a Paranormal with strong powers, yet she doesn't even know what she is. She has been haunted of dreams of a werewolf and knows what it means but doesn't really want to be tied to a mate. She realizes her mate is now in trouble so she goes and finds him. Blake her mate is in the middle of a war. When she shows up he recognizes her as his mate but not knowing what she is or why she shows up at such a critical time isn't sure he can trust her. Do they get together? What is Voltaire? I am not gonna tell you! You will have to read the book. Trust me you will thank me for this one!

If you like books about werewolves, soul mates, other new types of paranormal beings, a deep mystery, and lots of action, this has the best of both worlds rolled up and threw into a mystery with lots of action. Well written and fast paced you won't want to put it down until you are finished.

I highly recommend this to anyone that likes shifter, werewolves, action, new types of paranormal and hot sex!

---

### **Coyora Dokusho says**

Decent! Personally like my books with a heavier ratio of plot versus sex, but it was hot~ Read this one because I read about the Ellora's Cave DEBACLE and wanted to support the author. Interesting characters. I have friends I'll recommend it to as it's more their cuppa tea.

---

### **Nique says**

I decided to try a m/f book by Avril Ashton after enjoying her m/m books so much, but like the first book in the sinners series, this book is flawed. Or more accurately the plot was weak, the world not really explained, and lots of sex happens. Also lots of anal play, and a dildo is involved (and it ain't used on Voltaire). But there is just something about Avril Ashton's writing I really like, and I know she's written stories I really enjoy so I'm chalking this up to an earlier work that shapes her later writing into something awesome. Also this was short (probably too short for developing this new world she's created).

---

### **Kari says**

Till Abandon takes you into a unique world of the paranormal. Voltaire, known as "Death Bringer" has known for years that Blake is her mate. She just has to prove it to him. Blake is shocked to discover that a woman other than a Wolf-shifter is his mate. It takes some convincing but once he believes, his feeling grow quickly. I did enjoy the book. I only wish there was more back story on Voltaire and Blake. I felt like I was walked into the middle of a movie and had to catch up. While the story is well written, I just wanted more.

---

### **Tory says**

I liked the story and it was well written, however, it felt too short. There wasn't enough interaction or history between Voltaire and Blake for me to buy into their relationship. The relationship hinged on the "mate" factor. Also, I would have liked to have found out more about what exactly Voltaire is and what it means for her and Blake in the end. There were several mentions of Blake having questions about Voltaire, but nothing was every really asked or answered. That being said, I did like Voltaire, she was tough and yet still willing to be vulnerable around Blake.

---

### **Tala says**

The characters and plot were well developed. The book was Steamy and held my interest all the way to the end. The Death Bringer finally goes to her mate after 5 yrs. I liked the fact that they fell together so fast, tired of all the angst between mates in a lot of pnr.

The pain that Voltaire went through to open herself up to her mate was well done and believable.

### **DaisyGirl says**

3.5 Stars

I am an Avril Ashton fan. Period. Now, onto my review ...

Well. I'm not sure why this is categorized (maybe mistakenly?) as m/m romance. Voltaire is definitely a female. I didn't like her at first but she eventually grew on me. As a testament to Avril Ashton, this book stretched the bounds of reason and yet I couldn't put it down. I read it in one sitting. It's short and fast paced. Thankfully, the "Death Bringer" doesn't totally emasculate Blake Montez. Yay! He actually manages to hold his own against Voltaire (i.e., the all-powerful, baddest bitch on the planet) and she, in turn, comes to truly care for him. Awww.

Bottom line: Although I was reminded of why I no longer read m/f, this book was nonetheless entertaining. I will definitely continue on with the series (mostly because the upcoming books are m/m) and because Voltaire f\*cking Blake with a strap-on dildo does not begin to satisfy the m/m smut lover in me. Not even close. In fact, it kinda squicks me out a little. Just sharing.

### **Nichole ~Bookaholic~ says**

[ I mean really, you go have sex with the man you have been fucking for a year(literally,with a strap on so that she could be a virgin for her mate)before you go to claim the mate you have been ignoring for 5 years...I get the instant sexual attraction but the almost immedia

---

## **Julesmarie says**

Yet another reminder of why I moved away from m/f.

Ridiculous heroine, more concerned about her hair and her shoes than anything else. Overloaded with special abilities, but still unable to get herself out of trouble, she relies on her "mate" to rescue her.

And the hero who wears sweat pants and old t-shirts, even while meeting with his pack in their bar.... And this is supposed to be sexy?

Not to mention having the book open with a pegging scene between the heroine and a random coworker might have started me off predisposed to not like where this was headed.

Ok I have to say once again Avril Ashton is off the chain good. This book kept my attention from the first page till the last. Entrancing and sexy characters who you fall in love with immediately. Action packed from page one.

Voltaire is a volatile character, but you can also sense the vulnerability in her and you want her to succeed in whatever she does. With the mouth of a sailor, ash white hair and a blue and a gold eye she casts a beautiful figure of a woman. Though what kind of being she is, isn't quite understood by her or anyone else for that matter. Her psychic abilities are nothing to sneeze at either.

Blake wow what can I say about him. He is one sexy shifter wolf male that cares deeply for those he wishes to protect and that comes to include Voltaire even though he doesn't trust her. But even with the mistrust Blake is drawn to Voltaire and cannot help himself when it comes to claiming her as his own true mate.

The plot is well developed and keeps one guessing as to what will happen next. A book with a heroine that can kick butt and in heels no less has my vote as one great read. Filled with exciting twists and turns

Voltaire and Blake both have Alpha tendencies and it makes for a on your toes exciting read as you wonder whom will give in to whom. A very believable love story. Once more proving to the naysayers that you can have erotica and romance in the same book. Would I get an Avril Ashton book again? The answer is a big sounding Yes! She never disappoints. Her stories are always sexy, gritty, dark, fun, loving and erotic all the things one wants in an erotic romance paranormal. And the urban humor in her stories make it seem down to earth and realistic. This book is steamy, sexy and filled with those moments that will have you sighing or catching your breath. Cheers to Avril Ashton, she has made me smile yet again.

Ms. Ashton has written a very sexy, steamy novel. The character descriptions were done well for a book of this length. The downside to a novella is sometimes you wish you could read a bit more about the main characters past and get to know them better. Still, Ms. Ashton seem kept me caught up on the important facts. Her words flowed smoothly and before I knew it I was at the end wishing there was more. The plot is well developed and gives you everything a good book should. The sex between Valtarie and Blake is hot and has some very erotic scenes. This novel should come with warning, 'hot erotica content' but that's in a good way. I really enjoyed the scenes where Valtarie took control and showed her dominate side. I would definitely recommend this book to anyone who enjoys paranormal romance filled with some hot erotica. I can't wait to read the second book in this series.
