**Yesterday Once More** Debbie Macomber

JUST LIKE BEFORE ...

Three years ago, Julie Houser had fled from Wichita, Kansas, before her wedding. Young and shy, Julie had felt incapable of entering handsome Daniel Van Deen's society world--and incapable of impressing his society dragon of a mother.

But Julie had been unable to forget the love she'd shared with Daniel. Resolutely, she decided to return and convince him that true love was too precious to leave behind.

The most difficult decision Julie had ever made was to leave Kansas. The second hardest was to go back. But love demanded that she set things right and fight for a bright new tomorrow.

NO ME ABANDONES

Yesterday once more

Tres años atrás, Julie Houser abandonó Wichita, Kansas, cuando estaba a punto de casarse. La joven y tímida Julie había sido incapaz de adentrarse en el mundo del atractivo y rico Daniel Van Deen, y de su madre... Pero Julie no había podido olvidar a Daniel y decidió regresar para convencerlo de que un amor verdadero era algo demasiado valioso como para dejarlo atrás.

## **Bookish Enchantment (Katherine Quirke) says**

Well this will not go down as one of my favourite Macomber books. I simply found the whole story annoying. Ok so I stuck with it but I suppose that is because it was easy reading that filled in gaps. In relation to the characters though I found Daniel a totally self centred Mummies boy but Julie a good character showing growth.

Maybe the story was a bit rushed?

---

## **Amanda says**

I read this book in one day. I just could not put it down! I recommend this book highly

---

## **Rosemary Yakubowski says**

Another good romance by Debbie Macomber

---

## **Georgette Belisle says**

Julie is a middle class woman engaged to a wealthy man whose mother disapproves. A week before the wedding she flees. Three years later Daniel has become a very stubborn, hurt man and both women have changed. Will Julie and Dan be able to get back to love?

---

## **Hortensia says**

Una historia cortita, predecible pero encantadora y entretenida.

Perfecta para una tarde-noche fría con un poco tiempo libre.

---

## **Marianne says**

Yesterday Once More is the twenty-first stand-alone novel by popular American author, Debbie Macomber. Having left her wealthy fiancé Daniel Van Deen just before the wedding, some three years earlier, Julie Houser is back in town to face up to things. Back then Julie couldn't cope with the way her prospective mother-in-law took over, insisting everything be done the right way (her way), and Daniel went along with it all. Now she's ready to apologise and make amends, but it seems Daniel is still angry at her desertion. However, Clara Van Deen has done an about-face, with interesting results. Sweet romance. 3.5★s

---

## **Di Schlenk says**

Jilted at the altar by fiancée Julie just five days before their wedding Daniel has not trusted love since.

Three years later Julie reappears in his life to explain and repair the hurt.

---

## **Claire says**

I admire the heroine here for returning back to the scene of the crime. Three years ago, she walked away from an engagement for fear of not measuring up to her future husband and mother-in-law. And now she's back after realizing that her true love remains the man she left behind.

The man takes her back and even marries her but everything has changed for him. He's more possessive and controlling for fear that she would leave again. Abetted by a friend/co-worker, she teaches him that he need not bind her to him physically to be sure of her love.

Old-fashioned but okay read.

## **Dawn Livingston says**

I read an occasional romance novel but I don't consider myself a fan of the genre. Too easy to be sappy, predictable, annoying and even stupid. Debbie Macomber has lots of books but I've always ignored them because they sounded like the stereotypical romance but I decided to read one just to see what the big deal was about. I decided on this one. The idea of a woman who leaves her husband before the wedding, and then goes back to try to make amends because she knows she made a mistake appealed to me. I like second chances. The book was not a challenging read in any sense of the word, and that's okay, it's not what I wanted. I guess I've been watching the news channel too much and the news of shootings, and sexual harassment, etc. have gotten me down. I wanted a simple, pleasant, easy read with a happy ending and that's what I got. Just what I wanted. It's a book I would want to read again when I need something soothing to read. I recommend it. I might read another Macomber novel.

I have the large print version and it seems like it may be a condensed version, lacking a bit of detail.

## **Jackie says**

Nice little story about a girl who leaves her rich fiance behind because she feels pressured by her soon-to-be-mother-in-law and being made into a society girl. She returns two years later still in love with her fiance who, of course, wants nothing to do with her at first. Was ready for an easy read.

## **Julie Barrett says**

Yesterday Once More by Debbie Macomber

Julie was being controlled by his mother. Everything from telling her what to wear before work and how to furnish her apartment.

Daniel is a spoiled guy who lives by what his mother says.

Just days before the wedding she has had enough and leaves it all behind to go live with an aunt on the west coast. Her career continues til she's learned she really does love him and goes back to town.

She confronts him but he wants nothing to do with her. She then goes to his mother and tells her she still loves him. She is the one to call 911 as they rush the mother, Clara to the hospital.

They are so hopeful with Clara's recovery that they agree to her proposal, get married and give her grandchildren.

They do get married, live together and strain through everyday life with one another.

Clara gets stronger and can now go through with heart surgery.

Julie meets his other girlfriends and he reminds her she's the one that left 3 years ago.

---

## **Kristen says**

Another light easy read. One of her older books.

---

## **Chloe says**

4 star (for a quick romance)

Debbie Macomber has a way of taking predictable and mediocre plots and making them into something really enjoyable.

This one is about a girl who just recently moved back to Wichita from California in an attempt to make peace with the man she jilted. She left just before the wedding because his mother had taken over controlling their lives and it was more than she could take so she fled. However, she never expected that she'd miss Daniel so bad and that he actually was with fighting for.

When she starts work back in Wichita, she's shocked to find out that her office is in the same building as Daniels law firm (which is named after himself so it seems a little unbelievable that she wouldn't have known, but I'll suspend my disbelief here). What follows is a hate to love story.

The girl goes to see his mom and make amends since Daniel is so not open to it and she's shocked to find her frail and very sick. She's not the controlling tyrant she was years ago. She's remorseful for coming between her and Daniel and her dying wish is that the 2 of them get married. So they do with the understanding that they'll put up a front for the mom then divorce when she dies.

Things don't go to plan and the mom makes a full recovery (spurred on by the joy of seeing them married) and they actually fall in love again! In the end, she has a baby, quits her job (like Daniel wanted her to anyway- his way of making her depend on him) and they live happily ever after. I also loved her co worker Sherry who also ends up pregnant by her estranged husband.

This book is full of stereotypical patriarchal society and is definitely problematic in the way of diversity, but I still enjoyed it quite a bit.
