## A Hockey Tutor Mary Smith

Katie Miller longs to be an independent adult. She's tired of the memories that refuse to let her go. Now, in her sophomore year in college at North Maple College, she's ready to focus on school. When she's offered a job as a tutor for the star goalie on the hockey team, her determined focus waivers.

Andrew Moore is on track to become a professional hockey goalie, but being the party loving 22 year old that he is, Andrew finds his dreams at risk when his grades fall, jeopardizing his chances at success. His dad, sick of bailing Andrew out, hires a tutor as a final chance to get his act together.

Katie's independence and Andrew's stubbornness creates a toxic learning environment. Or, are their passionate arguments the one thing that helps them both find their way?

## From Reader Review A Hockey Tutor for online ebook

### Chelsy says

Katie is as independent as they come and has been hired by Andrew's father to tutor Andrew, so that he can continue to play college hockey on his way to the NHL. Andrew's father is sick of bailing out his son, who has been embracing the party scene. What started out as a just a paycheck turns into so much more . . .

One thing I love about Mary Smith's books is her main characters. She writes such wonderfully real characters - her female characters are strong and confident; her male characters are flawed, but sweet with good hearts. I always fall for her male characters - they make great book boyfriends.

Mary's writing is sharp interwoven with sweetness of a budding relationship. She truly captures the journey of two separate individuals on their journey of finding themselves as a couple. I definitely recommend this book!

---

### Anja says

No, no, no!

OK, I admit, the book has potential and all but ...

The pace was either too quick or too slow; there was "I'm such a good photographer and I can take pictures"; there was bad-boy-wannabe; there was drama-wannabe ... Uggggggggghhhhhh I was so **frustrated** with it!! I finished it 'cause I don't like to leave books unfinished, but I was skipping through the book and ended being angry with myself for even finding it.

Sorry.

---

### beth myrick says

#### Frustrating heroine

this heroine irritated me to the point of nearly killing my kindle.

let me sum her up....confused, horny, lush, immature, and a raging bitch. I skimmed her chapters of the book so I could avoid hearing anything she thought or spoke as much as possible. seriously that is how utterly annoying she is.

the angst in this story should not even be considered angst. seriously. let go. move on. I won't reveal what causes them to be broken because seriously it is ridiculous.

I can't say I would recommend this book because it needs a new coat of paint.

---

## **LeeAnne says**

Aside from the many editing errors this was an ok book. I didn't hate it but didn't love it either. I did have a problem with the secrets both characters kept. I thought they would be something that someone would want to hide. Neither was the case. In fact Katie's secret was something to be proud of, especially after 3 years.

---

## **Erin says**

### **Typos and errors got really annoying.**

For the most part I enjoyed this book.

I've been on a sports romance kick. And I love the Hockey themed ones.

I liked Andrew.

Katie.. was okay. She got annoying with her issues. But for the most part, I didn't hate her. However, her constant "I want to get my drink on" etc was actually annoying.

I didn't really like Wes from the start.

The drama that broke them up was... well... quite thin. AMAZINGLY thin. I got annoyed by it.

It made me not like Katie.. those issues I said she got annoying with... well yeah that is where it got really annoying.

3 stars due to the thin drama, and the typos/errors that got more and more prevalent towards the end. Ended up reading it in a single day.

---

## **Lorena says**

Me gustó. No le pongo cinco estrellas porque el final me pareció un poquito forzado. Katie es una protagonista fuerte, sexy, inteligente, mucho más segura de sí misma que otros personajes, con la determinación necesaria para hacer triunfar a Andrew. Y él es un dulce, cuando se pone las pilas se vuelve el personaje ideal. Demasiado cabezas duras por momentos para su propio bien pero bien. Re linda novela. No esperaba que me gustase tanto, de hecho. Un detalle: hay algunos cambios rarísimos de narrador que me parecen errores de edición.

---

## **Andrea Heltsley says**

This isn't the first book I've read by this author. I really liked her other books and was excited to read something contemporary by her.

I really liked Katie's no-nonsense attitude. She's a strong, capable individual. Her main character flaw was only that she didn't open herself up to romance. She was very closed off and just trying to make it through life.

When she received an offer she couldn't refuse, it was only the start of her life as she knew it unraveling.

Andrew Moore was not someone Katie wanted to deal with. Thrown together into a forced working relationship, the story travels through their lives and all the choices they make.

I even liked Andrew once the author peeled back his layers. His past was unraveled with expert precision.

This book was sweet and sassy with a great storyline. I loved the twists and how everything ended. I give this book five stars for what a great read it was!

---

### **Linds says**

DNF. First page had a major spelling error and the next pages had grammatical errors. Given I'm terrible at that stuff but I didn't write and publish a book. I can get passed a few but not on the first page. I gave it two chapters but couldn't get passed the errors and didn't like the main characters from the get go. I'm disappointed that I paid for it. I May go back and check it out at a later date but not likely.

---

### **V. Kelly says**

I hate when a book has really great characters and a good story line but the book has so many errors that it's hard to get past.

A Hockey Tutor was a cute book. I thought Andrew was adorable, and that Katie was a good pairing for him.

Things I liked.

Andrew and his charismatic charm.

Katie and her take no-shit attitude

Lindsey and Franks (cause you always need a dynamic duo of friends)

Things I disliked:

Wes, he's an ass.

Katie being hypocritical over Andrew but she was keeping things herself.

The editing. When there is a blatant spelling error on the very first page it's hard not to notice all that follows.

---

Over all good book. Just can't give it more than 3 stars because of the bad/no editing.

## **Linda says**

A cute book that reads like a teen movie.

---

## **Kerry Richardson says**

This was my first book by this author. I actually really liked the story and the characters, they had a lot in common and had good interaction with each other. However, the grammatical errors and silly mistakes were plentiful and very annoying. I don't know if this was a debut book but I did feel that it could have been written better and it most certainly should have been proof read, I don't understand how an author can allow their work to be published in such a state. Having said that I did like the story and it was the strength of said story that earned the 3\* rating from me.

---

## **Emily Abernathy says**

### **Sweet, but needs better editing**

The story is sweet, but if you like sports romance, hockey is only incidental to the plot. Conflicts were resolved quickly, so if you're in the mood for a light read, this is a good choice, however, I had a hard time buying Katie's trust issues; they didn't ring true for me.

Typos and abrupt changes in voice within a paragraph abound.

Overall, not bad, but definitely not great.

---

## **Michael Burhans says**

This was a fun and easy read that I was sad to put down when it was over. More depth than you might expect from a sports themed romance, and unforgettable characters each facing their own unique challenges. I had trouble putting it down. It makes you appreciate that even people who seem like they have everything, face problems.

---

## **Carolyn Selavka says**

### **okay.... but**

This is a good book, but I don't recommend it to anyone. It needs more emotion and more realization. And less grammar errors and spelling errors. It also needs a better editor. Thanks, but I'll be sticking to my Sarah Dessen and Huntley Fitzpatrick.

---

### **Bella says**

3.5 stars

A hockey tutor is collage sport romance. What happens when you got a proposal that you wish to refuse but you force no to? You got a love story between a player and his tutor. Katie and Andrew had no choice but to work together. As the time pass they got to know each other better and fell for the other one. It is romantic story with lot of drama. But although it is a collage there is not a lot of bedroom activity. Short funny young read.

---

### **Katherine Haddock says**

Three stars for the awful grammatical errors and the most awkward make out into sex scenes ever.

---

### **MissyLynne says**

Decent story. Kept me interested. Realistic characters.

Usual troubles/secrets that leads to a temporary split.

Wasn't a fan of Wes from the beginning.

---

### **Bloo says**

Story line and characters were good enough, but found a lot of silly errors in the writing. I'd have given a lower rating, only for the fact I liked the characters relationship and how they interacted.

---

### **Johanna Montilla says**

Good story with a interesting plot but poorly developed. So many grammar mistakes, writing mistakes, mixed POV, which made me think this book wasn't edited at all. I struggled to finish the book, but I did it because Andrew, one of the main characters was well portrayed, actually the 2 stars is just for him.

---

### **Casey Bond says**

Hot Andrew and Katie. Katie was awesome, too, but hey. I'm a fangirl and Mary Smith delivered one delicious hockey stud. The banter, the chemistry, the plot--it was all amazing and it's no wonder that Mary is the queen of sports-romance. Standing ovation!
