A Special Obsession

A.M. Hargrove

A Special Obsession A.M. Hargrove

From the **USA Today** bestselling author of **For The Love of English** and **Cruel and Beautiful** comes a new Stand Alone Contemporary Romance.

Rule Number One: Never let anyone get too close...

Weston Wyndham has more money on his tattooed wrist than I'll ever have in my bank account.

Drunk, he was gorgeous, wicked, sexy, an inked god.

Sober, he is the most arrogant man ever.

Will I let him order me around like one of his servants? Hell no. He's out of his mind if he thinks I'll ever go out with him. I don't care how rich he is, or that he drives that Ferrari or a fancy truck.

My walls are there for a reason ... and they were built to last.

But he's relentless, hot, and it turns out he likes his girls a little feisty.

Giving in doesn't have to mean disaster—unless I break my number one rule.

Special O'Malley is a handful. With a name like that, she ought to be. Sassy as hell, bossing me around, but damn if I don't deserve it.

My money usually attracts women ... let's me have my way with them. Not Special. She doesn't give a damn about it ... or me.

But there's more than one stubborn player in this game. I'm not giving up any time soon ... at least not until I'm between her thighs, making her moan. And those concrete walls of hers ... I have news for her. Concrete crumbles when you strike at the right place.

Ann Lou says

After pondering the whole morning on how to rate this book. I've finally decided to give it 3 stars. Nothing wrong with the book. In fact, it has the following:

- strong heroine
- an H who chased the h
- a cute kid (Cody)
- a little action towards the end
- a sweet and cute epilogue

Basically, all the right ingredients BUT what seems to be the problem? Me and my moods :)

Rule Number One: Never let anyone get too close...

Weston Wyndham has more money on his tattooed wrist than I'll ever have in my bank account.

Drunk, he was gorgeous, wicked, sexy... an inked god. Sober, he is the most arrogant man ever.

If he thinks I'm going to let him order me around like one of his servants, he's wrong. If he wants me to date him after all this, he's out of his mind. I don't care how rich he is, or that he drives a Ferrari and a fancy truck. Those walls I put up are there for a reason ... and they were built to last.

But he's relentless, and hot, and it turns out he likes his girls a little fiery. Giving in doesn't have to mean disaster—unless I break my number one rule.

Special O'Malley is a handful. With a name like that, she ought to be. Sassy as hell, bossing me around, but damn if I don't deserve it.

I'm used to getting my way, dealing with difficult people, only she's not buying any of it. Usually my money attracts women. Not Special. She doesn't give a damn about it ... or me.

There's more than one stubborn player in this game. I have a few tricks up my sleeve and I'm not planning on giving up any time soon ... at least not until I'm between her thighs, making her moan. And those concrete walls she has ... I have news for her. Concrete crumbles if you strike at the right place.

Heather andrews says

Weston has some serious jealousy issues going, "jealousy rears its head. Why in the hell do I feel like this all of a sudden? The thought of another man's hands on her *** fills me with rage. "I can't believe you allow those men to put their hands on you!" Weston likes to make sure his girl is well acquainted with his man parts, "let me un-weird it for you. Special, this is my ***k. ***k , this is Special. You two are going to become very comfortable with each other. ..." I really enjoyed this book, Weston needed someone to show him tht there could be a different path in his life and that person was Special.

Mandy says

I might come back to this one some other time but for right now I'm going to dnf - I can't connect with the characters and really don't like either of them.

aNneMarLi - Chatterbooks Book Blog says

I always associate A.M Hargrove on hot-AF and AH single dad ever since I read her book entitled For The Love of English. Since then, I was a sucker for her books that's why I cannot let A Special Obsession passed without me digging it. I have a penchant for tattooed heroes, bring in the heroine in the tattoo department and I am all in. But don't let those tattoos fool you, yes they are as kick ass as you want them to be, but behind that lies a story that will move you. And what's more reason to read the book? It's not just a romance, much more like a family romance coupled with sexy amd hilarious scenes rolled into one.

A Special Obsession really is special. Aside from the fact that the heroine's name is Special, which by the way is a unique name and really caught my interest, the book itself is so special in so many ways. The characters for instance are unique and to be honest, I adore both of them. They're both kick ass and when you meet them, I'm sure you'll love them as much as I did. GAWD! These two had me cracking up and laughing out loud I had so much fun reading the book. They are my person. They have this chemistry that I adore so much. They are what you call "opposites attract", what with different back grounds but they clicked and made this story so much fun and enjoyable to read. I'm not just talking about the hilarious moments but GAWD I am talking also about those scorching scenes that will really leave your knickers wet. That by the way, is one of Annie's talent, she could write a kick ass sex scenes. Not the OTT one but the one you will fantasize and live for the moment.

And what's more? Did I say family romance? Hell yes!! In as much as I want another single dad, I love how family is valued in this book. I was touched over caring and loving someone not related but hated and wanted to throat punch Weston's family. But you know what? with these drama, I appreciated that the characters were portrayed strong and resilient. My heart warmed over the love that surrounds with the book even with the negative vibes from Weston's family and I adore how little Cody was given scenes so

touching. Gawd! This boy cracked me up. And the back story? Ahhh..it gripped my heart that's why I was so glad I was given a perfect ending.

Overall, A Special Obsession is a great read. It was brilliantly written and really touched my heart. I admit I laugh more than I cried over this book. But then, yes I cried. The back story got me and the love portrayed in this book won me over. It was sexy as hell yes, but this is a good feels book. It was refreshing even with the drama. I love and adored the characters. And for all of those holy Annie!!! How did I miss that turn of events??Seriously?? Oh girly, I did not expect that. Yes I know from that Prologue alone something is off, I was curious over it and I was picking up the pieces to solve the puzzle, but oh well you had me with your brilliant writing and perfect character's that mad me miss that twist. But then, great job! You delivered it well! And as always, I am in awe of your talent. I love this book so much! I am touched and again, you leave me with a warm heart, it was so full of love I feel like it's gonna burst. And that ending?It was sooo beautiful.

Romance Readers Retreat says

A Special Obsession by A.M. Hargrove is a sweet, charming, humorous, instant love story between two strangers who had a very interesting special first encounter with one another. This was different from any other book I've read so far by this author and I'm not so sure that's a good thing yet. I'm not much into the whole insta love genre which this one seemed to be (maybe not insta-love, but definitely insta-obsession) and I didn't really feel a connection between Special and Weston until more than half way through the book.

Special O'Malley is not your typical girl next door heroine; she is feisty and independent and doesn't take BS from anyone so when she first meets Weston she doesn't immediately fall for his charm, like any other sane girl would. She meets Weston when he stumbles into her bar one night and proceeds to pass out in one of her booths. Her first impressions of him are of an arrogant, spoiled, cocky rich boy which isn't the best. It takes Weston several tries to finally break through her tough exterior and get her to finally agree to go on a date with him. What starts off as a bit of flirtatious friendship turns into the tattooed spitfire that Special is falling for the rich boy born with the silver spoon. These two couldn't be more different from one another and from

different backgrounds but I think that makes them perfect for one another. Weston may come from money but he doesn't really fit in with those kinds of people. I hated Weston's family and how cold hearted they were. They had absolutely no love for their son and were self centered and I just wanted to strangle the lot of them every time they popped up in the book.

A Special Obsession is definitely your feel good family romance that proves to you that family doesn't always mean blood. It's sweet, sassy, angsty, and sexy in every way possible. Weston and Special show you that once you find that special kind of once in a lifetime love, never let it go. Now are you ready to fall for Special and Weston like I did?

Ammie *Ammie's Book Obsession* says

Sweet, hot and full of mushiness. Special obsession is the type of book that leaves the readers with all the lovey dovey feelings and makes them believe that love can be found in the most unpredictable situations.

This book made me laugh so hard that I even fell from my couch while reading it *I am not joking*. The beginning? was damn hilarious and I was laughing my ass out. Throughout the read I had a big smile plastered on my face. The story got a bit intense in the middle but overall it was a amazing.

A Special Obsession introduces the readers to weston and special. Weston belongs to an upper class family and is stinking rich but he feels out of his element with his family. He feels like an outcaste with his sophisticated family. His parents are full of shit. They are too judgmental for their own good. Special on the other hand had a loving grandma and an adopted son named Cody and he so so adorable. Spoiler ahead click on the button to see!! (view spoiler)

So the story starts with an extremely drunk passed out Weston,in special's bar. To avoid any further problems special takes him to her house and let him spend the night on her couch. Their first descent meeting the next morning didn't go well and resulted in a fight ultimately leading Weston to kiss the fight out of special.*the kiss was scorching hot*. As the story picks up pace, they both develop a deep friendship but oh boy! The sexual tension was so strong to be ignored. Special had a messed up past with boys so she didn't trust easily and turned down Weston's advances at every point.

There came a point when special irritated the hell out of me with her 'we are different' speech and I really wanted to shake some sense into her. So will Weston be able to break down the Walls around her heart and will special be able to give Weston the love, he so strongly years for? Want these answers, go and read the book, I am not here to tell you the entire story, that's what the book is meant for just read it and find your answers.

I loved nature of their relationship,it bloomed Beautifully from friendship to love. I am glad there was no love at first sight. Lust at first sight? Yes but love at first sight? Definitely no.

All in all this was an awesome read. The characters were relatable with well constructed plot. The beginning and ending was great but somewhere in the middle the story lost its touch. It seemed like the author was trying to drag and stretch the story as much as she can. But nevertheless I enjoyed this book and it was a fair read and that's all that matters right? So yeah I recommend this book. If you want to read a sweet and cute romance with a bunch of hilarious scenes and a pinch of dark past, then this book is definitely for you, go ahead and read it!!

Rejane says

Just reading Dilek's review I could feel her struggle as my own. And the boredom

<https://www.goodreads.com/review/show...>

Dilek VT says

Something between 2 and 2,5 stars

Our heroine is named Special O'Malley. I don't know why, but Ms Hargrove sure has an obsession with weird names. The name "English" (in the novel "For the Love of English") was also weird but this name, Special, is both weird and funny. All her friends made fun of her at school and now in her adult life, she is still struggling with people's awful jokes about her name. I didn't understand why she didn't change her

ridiculous name. She said she wanted to then she gave up on the idea.

Special has her grandmother and Cody (her dead best friend's son) in her life – plus her work. She doesn't have much time for other things such as fun and dating. Cody lives with Special's grandmother and she visits them every weekend. Special is also obsessed with the safety of Cody, and she takes ultra-dramatic measures for it.

Our hero, Weston Wyndham, is an uber rich guy. One day he ends up drunk in Special's restaurant/bar, which is named "A Special Place". When he passes out in her bar, Special carries him to her house with the help of Jen, a guy from her staff, and she lets this stranger sleep it off in her house.

I had a hard time understanding why anyone would let a stranger into her house, let alone a girl like her who is obsessed with security.

When Weston wakes up, Special realizes that despite being gorgeous and hot, he is also the most arrogant man ever. He orders her around as if she is one of his servants. She doesn't take any crap from him and the feistier she gets, the more attractive she seems to him.

Special is a strong heroine but I didn't like her that much. She was too dramatic. She even shot him with a gun when she thought someone else was trespassing her property. Come on, wouldn't you wait to see his face, at least? Then, she is not even sorry enough or doesn't apologize enough. And he doesn't make it a problem.

He says he wants to date her and pursues her but even though she is attracted to him, she resists for too long, repeating the same reason over and over until I wanted to throw my kindle on the wall!

Her reasoning is that they are people from two different worlds, that she is a simple girl whereas he is important, famous and rich, which is true; however, her repeating the same reasoning for more than half the book got on my nerves.

"You and I are different, Weston. You saw the house I grew up in. You saw the things I had. I'm not fancy. You had the best and finest things money could buy. To be honest, it makes me uncomfortable. We don't mix. I belong in my world, and you belong in yours."

Well, paraphrase the above paragraph and repeat it every few chapters... It gets more and more annoying every time she repeats it.

Whatever... The bigger problem is even though they were said to be attracted to each other, I felt no chemistry between them. None whatsoever...

Weston is not the ideal guy, either. Because he is dependent upon his family for financial reasons, he lets his parents treat him like shit. He has other dreams in the world but he works like a slave in his father's company where he treats him like sh*t, fearing his father wouldn't let him use his trust fund if he pisses him off. His being too slow in getting his own life into his own hands was also annoying.

There are a great many side characters, a lot of secrets and drama outweighing the little romance and connection between them.

Work-related problems, family-related problems, problems coming from their past were all too much for me.

Because it was TOO SLOW, TOO DRAGGING & TOO BORING, I couldn't make myself continue reading it. After a certain point, I just skimmed & scanned to see how it ends but even the epilogue was boring.

Having tried to read "For the Love of English" and failing to do so as I hated that book and now, failing to keep my interest in this book, I think, maybe Ms. Hargrove is not my ideal author. Surely, I won't try to read from her again.

? Jeri's Book Attic ? the Romance Bibliophile ? says

This book was a nice surprise.. no let me rephrase that – it was a great surprise. I was debating a long time if I should read this book. The plot sounded so good but I read a previous book by this author and I was only able to rate it with 2 stars and in such cases I am always careful when I come across the same author again.

I did not want to check on the reasons of giving that previous book that rating as I did not want to affect my opinion with it. But when I finally started reading this book I could not avoid having this lingering "thing" in the back of my mind wondering.

But those thoughts and worries all disappeared into thin air after the first obligatory 3 chapters I always give each book to make up my mind.

Whatever was wrong in my opinion with that previous book is nowhere to be found in this one. It is well written, funny at times and always deep.

There really was nothing negative I could say about this book.

Its more the opposite – on first glance the plotline seems to have been written already by other authors over the time. And in parts this might be true.

But the combination of leads, their environment, the background & secondary characters is so unique that the setting is a complete new one that is worth reading to anybody who loves books of that genre

So if you read the Blurb and think it might be interesting – I am pretty sure you will like this book.

Michelle says

ARC provided by author in exchange for an honest review

A Special Obsession by A.M. Hargrove is a very sweet, charming, and instant love story of two strangers who had an interesting *special* meeting. So what makes this book extra special? Well, the heroine for one is named Special O'Malley. Special is not your typical girl next door. She is sassy, independent, and feisty. She doesn't take BS and so when she meets Weston Wyndham, she doesn't fall for his charm at all.

Her first impression of Weston wasn't the best since he came off as an arrogant cocky rich boy. So it takes Weston several tries to finally break through Special's hard exterior. What started off as a bit of flirtatious friendship soon leads the girl from the wrong side of the tracks falling for the rich boy with a silver spoon. So what happens when Weston shows Special the kind of love that she needs... the special kind?

A Special Obsession is definitely your feel good family romance. It's sweet, touching, and sexy in it's own way. Hargrove beautiful blends the aspects that family doesn't always mean blood and once you find that special kind of love to never let it go. And for Special O'Malley her story of finding that special love began when a drunk arrogant man stumbled and passed out in her bar. So are you ready to fall for Special?

A.M. Hargrove

A.M. Hargrove says

Coming March 23 ... Meet sexy Weston and Special!

Sherly says

So our Hero.. what his name again? sorry I'm still swooning over here how he sweetly treated our heroine that I forgot his name.

After she helps his poor drunken ass in her couch, who knew when he wakes up that he turned out to be such a sweetheart acting like he owns the place, treating the h like she is his personal help.

But of course lets give him some slack the poor man is having a rough hangover obviously and probably having a family drama you know my super duper rich family is an asshole to me trope.

Aww our poor Hero :(

So what our heroine do with this such heart melting behavior, of course she drools over the hotness of our hero, getting weak kneed just the sight of his madafucking abs (the girl needs to have her bone check its alarming really).

I'm in the "mood" so, sorry but idgaf what the H's deal was.
