I really like this author. I like her style of writing. Its after the civil war and its in the south were people are trying to rebuild. In this story I meet reverend Samuel Montgomery who is trying to start over in a new town of Natchez, Mississippi. He comes to the new church were he is told he has to marry or he can't stay. Then we meet Clarrisa Adams who has been told she has to marry to keep her heritage. So the 2 agree to marry to meet the stipulations that they need to meet. Samuel has a daughter named Emma who is 14. There agreement changes as time goes by and they fall in love. Its a great book that will have you turning the pages to see what is happening next. Its a great book and I think you will enjoy it. J

An Inconvenient Marriage by Christina Miller. It took me a while to get into this book but when I did I liked it. Widowed Reverend Samuel Montgomery was looking forward to starting at a new church. When he got there he found out he had to be married. Heiress Clarissa Adams needs a husband to win her inheritance. Samuel didn't want to leave this town so he asked Clarissa to marry him. After a while she says yes. It starts out as a marriage in name only. Then They fell in love. A good romantic book.

An enjoyable read but it didn't quite wow me.
