## Dark Embrace Elle Boon

A DARK LEGACY where only the strong survive and those who are Goddess touched can complete the warriors who fight to protect the world from the creatures that go bump in the night.

### DARK EMBRACE

Jennaveve, the Fey chosen by the Goddess to be the queen of her people for the past few millennium, is tired and wishes for a break, but hadn't counted on being reduced to almost mortal thanks to a dark stranger. They say you should be careful what you wish for. The last time she'd taken a break, her Fey had left their realm, resulting in shifters on Earth known as the Mystic and Iron Wolves and even more she was still searching for.

Damien and Lucas Cordell knew they'd share a Hearts Love when the time came. As the twin sons of the Vampire King who'd mated a shifter, they were the first of their kind. When they'd thought their mate was finally within their reach and was a shifter like their mother only to realize she wasn't theirs, they'd almost lost their lives to the alpha of the Iron Wolves, Kellen Styles. Instead, the error led them to the being that was...the Fey Queen Jennaveve. Only she was even more elusive than the wind.

Time and patience was something Damien and Lucas had in spades, until the female they'd already laid claim to, even if she hadn't accepted them yet, was taken by an enemy. Saving Jenna became their one and only focus. As time and realms slip between them, their fear for her had them forgetting about patience and made claiming Jenna as their Hearts Love, hoping she accepted their Dark Embrace.

Will the Cordell Twins be able to rescue Jenna from the evil who has taken her? Will Jenna get her powers back? Who is the dark presence and how will they defeat a being who is strong enough to bring the Fey Queen down to her knees?

### Guilty Pleasures Book Reviews says

Readers of Elle Boon have been highly anticipating Jennaveve's story. And, Elle Boon did nothing but make me smile as the Cordell twins finally claim the woman that they have been waiting for. Then she added new characters that will certainly play big parts in the upcoming Dark Legacy Series.

Like usual, Elle brought a little bit of laughter, a whole lot of drama and, finally the mating. You knew that Jenna, no matter the situation, would make light of everything around her ... I don't think she has it in her to be serious. As for the drama ... you can't get any more dramatic than Jenna's kidnapping; Kahn; the Jagertroppen; Creed and Liv; a fight to the finish with a woman who has a pact with Satan himself but was doing nothing but double-crossing him. I'm not sure but, to me, that's a whole lot of action and drama. And, the mating ... it was beautiful and more than I expected it to be. Of course, they kept getting interrupted by dragons, Damikan and, of course, bestie Kellan.

As Jenna becomes "more" and Damien and Lucas know the pleasure and completeness of finally having their Hearts Love, the Goddess makes herself known and bestows her blessing on them but warns of things to come. And come they did ...

Elle did a wonderful job of finally giving us the story that we were all waiting for. As always, the story flowed from one scene to another without you feeling like there was something missing. Her dialogue is always interesting and fun – no matter the situation. Her characters are marvelously written. And, the surprise ending ... good luck with topping that one!

Bring on the Dark Legacy series!

I received this as an ARC for my honest review. Well darlings let me tell you this book is off the charts good. I mean I absolutely loved this book. It's freaking spectacular. Heart stopping, spellbinding, hold on to the edge of your seat good. This is Jenna and the Cordell brothers story. (AKA) the wolfpires. After the last battle Jenna finds herself in the clutches of her soon to be mates right where she wants to be. When she is taken right out from under the twins noses. Another enemy has emerged and this one has a personal vendetta against Lucas and Damien and is planning on using Jenna to do it. When the truth comes out and the air is cleared there will be one evil crone to battle. Can Jenna and her mates come together to destroy the evil that

wants to tear this family apart? They will have to call on old friends to help them. When it comes down to it will Lucas and Damien be able to save their hearts love? Or will it be Jenna saving her mates? Omg y'all I can't tell you how good this book was. I love the world that this author has created I can't wait to see the next in this series.

I've read a few Elle Boon books, and it seems to me I favour her contemporary work over her paranormal. It's not often such a thing happens, as paranormal romance was my gateway drug into the romance genre, yet it has happened with a few authors. Based upon my feelings towards the Elle Boon paranormal romance books I have read, I think it is safe to say such is the case here.

It's not that I dislike Elle Boon's paranormal romance, I simply have not enjoyed them as much as I have enjoyed her contemporary romance. Although the storylines in both Elle Boon's paranormal and contemporary reads are gripping, I find them to be more so in her contemporary work. Although the characters are great in both her paranormal and contemporary work, I find myself favouring the characters in her contemporary work. Although we are given action in both the paranormal and contemporary books, I find myself enjoying the action in the contemporary books more. It's just a personal preference, but in my mind Elle Boon's contemporary books are her stronger books.

Of the Elle Boon books I have read, it is safe to say Dark Embrace is my least favourite read. I was not sucked into the story as much as I had hoped to be, and there were times when I wasn't interested in the story at all. There were some good moments in this book, but not enough for me to rate this book any higher than the three-stars I gave it.

Dark Embrace may be the first book in the Dark Legacy series, but quite a lot of the references will be lost if you have not read the Iron Wolves MC series. In fact, book seven, Turo's Fated Mate, is especially important if you want to understand Dark Embrace. As I have not read all of the Iron Wolves MC series, I felt somewhat lost when reading Turo's Fated Mate, and the feeling of being stranded remained when I stared to read Dark Embrace. I had some knowledge, through reading Turo's Fated Mate, but nowhere near enough. It's a spinoff series that relies heavily upon other Elle Boon books, meaning this series will appeal heavily to her long-term fans and may not be the best place for new readers.

You can dive into this series as a standalone, though, if you're brave. Not every detail will be a mystery, but enough will be. While this did contribute to some of my inability to get into this book, the bigger issue I had was with the characters. I'm sure many will enjoy the characters, but I just could not get into their story. Mostly it was their way of speaking. I couldn't wrap my head around an all-powerful supernatural creature speaking like a teenager through text. I found myself unable to connect with our female lead because of this, and through that I never felt much towards many of the characters. Some will enjoy her unique ways, but I found myself put off by it.

Overall, this was an okay read. If you're a fan of Elle Boon's prior paranormal work, then I'm sure you'll enjoy this new series. Personally, I'll probably stick to her contemporary work in the future.

A Fey queen and two wolpire (part wolf shifter and part vampire) princes coupled with a unique style of writing create quite an interesting read. While this is the first in the series (and the first Elle Boon book I've ever read), I would strongly suggest that you read the series before this book in order to fully understand all the elements of the story and enjoy some of the world building.

Waiting for Jenna's book was well worth it. Not only was the story of Jenna, Lucas and Damien wonderful and adventures, it was full of mystery and intrigue. Branching off of her Iron Wolves , Elle Boon has created a new world. With this story you are introduced to many more characters whom you will be begging for their happy endings also. I was stunned by so many twists and turns that were occurring. I loved being kept on my toes and this book most definitely did that. I was finally able to see our beloved Fey Queen and her Wolpires

unite. I found new friends and family and I revisited some of my favorite old friends and family. I laughed a lot. I worried. I got angry. In the end though as always I had a awesome ride through one of my favorite places to visit. You can't go wrong in Ms. Boon's paranormal universe. Read in one sitting.

This is the first book in this new series by Elle. This is Jenna and her wolpires book. I have been waiting for this book. As, I couldn't wait to finally read about Jenna and her fated mates coming together. This book didn't disappoint either. Damien and Lucas must have to find Jenna. She has been taken and she is at almost mortal strength. But not all is as it seems. This is personal and not just for the guys. This story has mystery and intrigue. This trio is hot, hot, hot. Characters from Elle's other books also make an appearance. I loved this book so much and if you want to find out why I think its so great you will just have to read it. I can't say enough about it or any of Elle's books. Congrats on another fantastic book Elle. I can't wait to read more books by you.

I was given this book in return for an honest review.
