Destiny's Denial

Sky Purington

Destiny's Denial Sky Purington

Caitlin Seavey relives the same nightmare every night for three years. Then one day, the dream seeps into reality when an ethereal Scotsman visits. Horrified, she confides in her grandmother who then gives her a two hundred year old novel titled Fate's Monolith. It tells the tale of her distant relative's journey to medieval Scotland and can only be a myth. When Caitlin discovers a family heirloom in the attic she soon learns the book is based on truth.

Chieftain Ferchar MacLomain found what he was looking for. Caitlin. He should have left her alone. For to bring her to Cowal will spell disaster-a foreseen threat to himself, his clan, and Caitlin. As a visionary, it's his obligation to protect her. As a man, he's determined to ignore his heart. Can he thwart his destiny? Or will he forever be a slave to the gods of old.

This novel contains strong sexual content and is recommended for a mature audience.

"If you like romance AND time travel you will love this book!... The sexual tension snaps and vibrates through the entire story. Caitlin manipulates her 21st century womanhood in such a way that at one time she has three Scottish chieftains after her! I loved the language, I loved the men, I loved the descriptions of a Scotland that I have never seen...Did I mention I read this story twice?" ~LASR

The King's Druidess is the lead-in tale to The MacLomain Series. While The King's Druidess is a short Celtic story, Fate's Monolith (The MacLomain Series- Book 1), Destiny's Denial (The MacLomain Series- Book 2) and Sylvan Mist (The MacLomain Series- Book 3) are full length novels. In memory of Sky's beloved father, marketing manager and best friend, all will continue to remain at a reasonable price. He would have expected nothing less.

"There is so much packed into Destiny's Denial the story is gripping. I couldn't put it down until I finished the last page but don't take my word for it, you really need to read these books. If you have the slightest interest in time travel, Scotland or magic you will be pulled into this story hook, line and sinker."

~Simply Romance Reviews

"Beautifully put together, the images that Sky Purington leaves you with will have you wishing that you were of the Broun clan and that your own MacLomain would pull you back through time to be with him yourself. Take some time during this hot summer to cool down in beautiful Scotland and see just what will have you wishing you could find such a destiny of your own."

Dianna ~NOR

Please NOTE: This is a re-launch of titles published years ago. The stories have been revised and tightened. And as aforementioned, the sensual heat level for all four has been turned way up.

JUST RELEASED! Highland Defiance and Highland Persuasion, the first of many tales from The MacLomain Series- Early Years.

Available NOW. Follow some of the characters from The MacLomain Series in the new Calum's Curse Series. Book One- The Victorian Lure, Book Two- The Georgian Embrace, Book Three- The Tudor Revival.

Nancy says

Having found the prologue to the series, and Book 1, a bit confusing I'm glad to say I enjoyed this second of the series much more. Now more used to Sky Purington's style of writing, and to the whole concept of the time travel of the trilogy, I launched into this one and didn't want to put it down. I really had to find out what the hero, Ferchar, was going to do next. For me he's a love him or hate him sort of guy. Caitlin is a very determined young lady-again you really like her or you find her too demanding. There are secrets still to be discovered in Book 3 and I can't wait to read the last one now. (Adlin, the wizard, is gelling more for me now and I do wonder how he will feature next!)

Tina says

So good. Totally enjoyed this one and it's probably my favorite of the series. The last few chapters really got me in the feels. Caitlin and Ferchar were my favorite couple so far. Ferchar was most definitely book-boyfriend material. I got a little choked up with Adlin and Mildred. Anyway, I think I'll jump right into the next book in the series, because I can appreciate the stories more when I read them back to back.

jD says

I will admit when I am wrong. I started this book and lost interest about 20% in. Why? I thought it was not going to deliver the brogue, kilts, and magic. The previous book was short on both. Not the case here. I loved everything about this one. I picked it up a few days ago and was hooked.

The hero and heroine were perfect for one another. Their love story was not simple and it was not assured to end happily. I felt the magic was better clarified so the time travel made more sense. I also liked the fact that this heroine was not snatched from the 1800s but from current day. She was no wilting flower even when faced with more than she could mentally process. The story had very good pacing as well.

Ms. Purington did a splendid job with the sex. There was not too much to make this erotica and it didn't overwhelm the story. The lustful thoughts of the h/h fit with their personalities. The two did not go the standard "I had sex with you so I love you" template. The love was a separate matter and it was solidly built. The conflicts the heroine faced felt very real. There weren't many hard twist and turns to the plot but more a slow binding of many threads. I normally don't like this approach but it worked in this story. The parts of the story that ended up being filler were difficult to set outside the overall novel once it was complete as they were well written. To be honest, I am not sure which parts were filler as they were as good as the meat of it.

I plan to continue the series for certain. I am giving 4 stars only because I didn't get into the first part of the book and was able to put it down for months.

Erin Kyle says

I disliked almost this entire book. The relationship between H & h was not compelling at all. They were either angry at each other, pointedly 'ignoring' one another or having sex. There was nothing there that made me care about them.

And once again - as with book #1 - the magic stuff was kind of hurled around Helter skelter with no real anchor to hold onto. It felt out of my reach the entire time so I lost interest in it.

Also, the way information is doled out in miserly, tiny, painful pieces makes sure that readers really have no idea what is happening or WHY. Or HOW. Extremely irritating.

I DNF at 81%. I simply didn't care anymore when I'd rather stare at the wall than read, it's time to move on. And I will not be looking for any more books by this author. Bummer.

Tracy says

Great series

Rhonda says

This was the second in the series and again, it wasn't a bad book. My biggest complaint is the climax is great and then the resolution of the story seems to take forever.

Pamela says

This is the story of Caitlin, and Ferchar . He is the Chief of the Mac Lomain clan, and she is from the future.I loved this one. It had mystery, and romance, heartache, and touch of magic used to go back ,and forth between time. She arrives in his time period in Scotland before the Bruce is born with her brother, and a boy working on her lawn. She has been having nightmares for three years about a lady looking her child, and a handsome highlander trying to find him ,with no luck. It seems this is all,destined to happen and much more. Their lives are woven in Destiny, and controlled by visions, and fate. It made me angry, and worried, and I laughed, and cried. The highlanders are not bad either to gaze on. I really liked Caitlin. She was strong willed, with a sweet spirit for others welfare, and an open heart.The romance can be a bit steamy, but it is not overdone. There is violence of coarse, battles, and swords, but then I like swords. I love the way they speak, no wonder Sean Conery has always been so loved as an actor. His voice, and accent comes to mind each time Ferchar speaks. I am on to book three. I have not read this whole series in order. I began with the most modern, and have backtracked, so a lot of there characters are more than familiar to me. It is still wonderful to learn their stories, and how the ring always unites true love.

Jill says

3.5 stars

Vanessa Lucido says

Another great book!

S. J Barthel says

Very good series. I have read the entire series, more than once.

L.W. says

This is my first exposure to Sky Purington and I was curious about this book based on the reviews I read. I have to say I was interested right from the start. It drew me in and I wanted to know what happened, so it was a hard book to put down.

Lot's of things occurred in this book that you wouldn't find elsewhere. It was a little surprising, yet very refreshing. It took the predictability out of the read and added more of a mystery, and to me, that translates as enjoyment.

Overall, I liked the book very much. However, I felt that it was about 50 pages too long. By the time I got close to the end...it just dragged. I did force myself to find that happy ending...but I'll say she made me work for it.

I didn't know this was the second in a series...I will more than likely keep an eye out for the first book...I do like they way she writes.

Rosemary Hughes says

I loved this book, it's two main characters and the personality conflict that works so well! Dreaming of the same incident night after night, can be heart rendering, however meeting the man in your dreams may be very different to what you imagine.
I read this as part of : The MacLomain Series 1-4.
