Follow The Sun R.J. Scott , Meredith Russell

The first in a series of books filled with romance and drama on Sapphire Cay in the Bahamas.

Lucas Madison is in the Bahamas for his sister's wedding on the beautiful and idyllic island of Sapphire Cay.

He has the weight of the world on his shoulders. With the stress of his job, the loss of his friend, and faced with his own medical crisis, Lucas arrives on the white sands of Sapphire Cay gray and exhausted. His only thought is to see his sister married and happy.

Dylan Gray is a free-spirited traveller who literally follows the sun. Never settling in one place for long, he earns his way from state to state and continent to continent. But there's something about Sapphire Cay that draws him back over and over. A feeling of home.

When these two men meet, both have decisions to make and directions to choose. And maybe together, they can make the right ones and follow not only the sun, but also their hearts.

This is the story of Lucas and Dylan, set against the stunning landscape of Sapphire Cay.

This was a sweet read, no conflict or angst, just an overworked Lucas trying to enjoy his sisters wedding, where he meets care-free happy go lucky Dylan.

Lucas knows he needs to change things in his life and I mean seriously , a hot guy,an exotic island....what's not to love?

It was light and easy and predictable, but that's ok, my only niggles were the word sad or some variation thereof was used 25 times in a relatively short story, yes I get it Lucas was sad, and the continuous mentioning of Lucas's sister Tasha needing someone to 'take care' of her.

Yes, I get she was 17 when they were orphaned and he needed to be there for her on all respects, but she's getting married, and it just felt like it was mentioned over and over again that Liam, her new husband would now take care of her, I'd like to think she can take care of herself!

But, they were minor niggles, and probably won't bother anyone else.

Trisha Harrington says

Warning, this book is as sappy as they come.

I am a huge R.J. fan and this was no exception. Follow The Sun is great for all those who, like me, enjoy a lot of sap. It was angst free and drama free as far as I was concerned. The wedding setting was really nice and helped to set the romantic mood for me. **Did I mention I was a fan of sap?**

Lucas and Dylan were sweet together. Lucas the stuffy business man with a sad look in his eyes and Dylan the free spirit. But when the two come together it's the perfect mix of sappy and romantic. I enjoyed watching them fall for one another. Their clumsiness was really endearing, and they just seemed to fit together.

Tasha, Lucas' sister was really a great secondary character. She added some fun to the story, the fact she and Lucas were the small little family they were, warmed my heart. It was great the way she was so loving and supportive of her brother.

I think the series has a lot of potential, and if all the books go in a similar direction to this I will be incredibly happy. Follow the sun was a really nice comfort read and a perfect book to read on my birthday.

Highly recommend it!

Follow the Sun left me with a huge goofy smile on my face. It's such a sweet and laid back story with loveable characters, a beautiful romance, and a gorgeous setting. When can I visit Sapphire Cay?! Sounds perfect! I just wish there was more because it was such a nice little read and I was totally in love with Dylan and Lucas. Well done, ladies!

Sapphire Cay sounds like the perfect paradise to just relax, unwind and enjoy. That is also the type of story this is, a calm and easy read. I enjoyed the story and the characters, but would have liked to know more about them and their relationship. Seemed like the getting to really know each other was done outside of the story and the reader was not involved. I realize that this book needed to set the ground work for the future books about Sapphire Cay, so I am hopeful that we will get to see more and learn more about Dylan and Lucas.

Lucas is a workaholic but has a take vacation in a resort in the Bahamas for his sister's wedding. There, he meets Dylan, the captain-bartender-photographer and in a few days, Lucas learns to relax. It didn't work for me : insta-love, low steam, no connection with the MCs. Some potential but not exploited imho.

Meggie says

This is a sweet, light romance between Lucas a workaholic and Dylan a free-spirited traveller with his own past. This story gives us a beautiful touch of rightness and at the end a reader feels satisfied. I sure did.

Reviewed on Hearts On Fire... <http://heartsonfirereviews.com/>

It's good to see another collaboration RJ Scott and Meredith Russell and the beginning of a new series. Lucas Madison has raised his younger sister, Tasha, for ten years since their parents died. He has fought his way to the top of the corporate ladder but at the cost of his health. Lucas is in the Bahamas with Tasha on a serene little island called Sapphire Cay to end his familial duty by seeing his sister married. He is doing a good job of hiding his ulcers and high blood pressure and the work that he was forced to bring along on this two week holiday from Tasha but he can't hide the sadness in his eyes from the resort's jack of all trades, Dylan Gray. Dylan has his own past health issues and is living life on the fly following the sun and seasons from job to job yet always returning to Sapphire Cay to work. Lucas is amazed by the many jobs Dylan does and Dylan is just plain amazed by Lucas. The two men begin an easy camaraderie but hide all of their baggage well but both men are at a crossroads in their lives which can make or break their slowly growing love. I had a hard time getting into this story because of all the world building that had to be put in place but once the story line was established, the calm and easy life on Sapphire Cay carried me away. The story is definitely character driven and soon had me wrapped up in the slow, laid back life on the tropical island. The story read beautifully but lacked the action usually found in Ms Scott's books which was kind of refreshing after the Sanctuary series. The health issues and the angst were the bad guys in this well written and easy read. Lucas and Dylan were likable and rather intense characters that had me often frustrated by their angst and indecision but they eventually found their HEA in an unusual way. There was not much action around the secondary characters who could have been pumped up a little more to make the story more interesting in my opinion. I recommend this story to anyone looking for a slow burn romance. Ms Scott and Ms Russell have proven that they can write a good romance as a team. I'm looking forward to book two in this easy going series.

Thought the premise of this sounded enjoyable and in its way it was but I felt something was missing. It was likeable but didn't have the wow factor. If pushed I would have to say that I thought the romance between the two MC's, that although being very romantic was lacking the sizzle and ST that most m/m romances have. Everything about this story is ' nice ' and its well written, but personally it hasn't left me feeling inspired to pick it up again or look out for any more of the series that will follow.

Nic says

Follow The Sun was a sweet and gentle story. The blurb says the series is full of romance and drama but in all honesty there wasn't too much drama. The focus is on the emotional side of the story.

Lucas heads to Sapphire Cay to host his sister's wedding at the resort. They are orphans and he has raised her since she was a teenager. Lucas has always had responsibilities, whether it be his sister or the high powered and very stressful career he has. However he is overworked, unhealthy and obviously has lost his passion for the job. The death of his boss and mentor has him questioning the direction his life is taking.

Dylan 'follows the sun'. He travels the world, finding work where he can but has returned to work at

Sapphire Cay for the last 5 years. He has had his own fair share of tragedy and disappointment in his life.

Lucas and Dylan are drawn to each other but their relationship develops fairly gently, both afraid of moving too fast. A lot of the focus is on Dylan trying to draw out Lucas, to put a smile on his face. Lucas' sadness and worries play a significant role.

Dylan has some decisions he also needs to make, decisions that would impact his roving ways. I do think there was a lost opportunity or potential plot twist related to the brief visit of Dylan's ex-lover. Knowing about the relationship Dylan had with him helps to understand Dylan better but why did his personal visit not result in any big drama or misunderstanding? I was waiting for something climatic to happen but it didn't eventuate.

Add a sweet sister, wedding shenanigans and a happy ending and it all sums up to an enjoyable story.

I loved this book, reading it was like laying on a hammock on a warm summer afternoon, it left me feeling happy, sated with a smile on my face. I so want more.

Lucas is a stressed corporate workaholic with high blood pressure and ulcers, recently diagnosed, on medication, he knows he needs to slow down and change his life, he just wants to see his sister safely married first. The wedding is at Sapphire Cay, an beautiful tropical island in the Bahamas, there he meets Dylan, a free spirited jack of all trades, bartender, photographer, and boat captain. Dylan is also running from his past but its that past which is about to give him the means to settle his future. The two men fall in love and Dylan's future gives Lucas the strength to finally go for what he wants, change the direction of his life. I don't like to give away plots in my reviews so to learn more you'll need to read it, but this book is seriously good, it's the first in what will hopefully be a set of books by Rj Scott and Meredith Russell all centred around Sapphire Cay and I'll be first in line to read them, it's a wonderful read and worth more than 5 stars.

Becky Condit says

I've found a new series that made me fall in love with the characters, the charm of the location, and the the sweet plotline that brings love and happiness to everyone. Meredith Russell and R.J. Scott can write a romance that fills your heart with satisfaction and this is a perfect example of their duo writing style. Lucas is a hard driving businessman who has been mother and father to his sister since she was a teenager.

Their parents died leaving Lucas to raise his teen-aged sister and Lucas pushed himself to his limits to ensure her a happy life. In doing so, he endangered his own life by being a workaholic with high blood pressure, ulcers, and who knows what other ailments. When his sister met her true love and asked Lucas to host her wedding on a Bahamian island, Lucas did everything he could to make it perfect. In doing so, he met a man who might be his own one and only.

Dylan works during the season on Sapphire Cay, as a do-it-all handyman for the owners. He is a wedding photographer, water taxi driver, bartender, and whatever else is needed. Dylan has a tragic background himself, having lost his mother at birth, suffered cancer as a child, and been pretty much ignored by his father who thought money would be all Dylan needed to make up for other losses. At 25 he is secretly quite wealthy but never touches his money as he continues his carefree lifestyle. Then he meets Lucas and at the same time has the opportunity of a lifetime drop into his lap.

This story sets up a series that will be sweet and charming as the two men get to plan a lifetime together. I loved this story, especially the HFN that surely will become an HEA, and I can hardly wait for the next stories to come. Brava to the authors!

Elspeth says

I liked this a lot more than expected. I picked this up because book two interested me, and I wanted the back story. I am glad I did because this was a happy story, perfect for a rainy day.
