### **Paula Legate says**

I really enjoyed this book. It has excellent suspense, and action. I loved the romance between Maggie, Dan.

Maggie took off and ran after she witnessed her husband being murdered. She didn't know where to go, or who to trust. The person that killed her husband was wearing a Police Uniform. The person that killed her husband also wants Maggie dead. He thinks she has evidence that could send him to prison. It's hard to run, when she has two adorable twins to take care of. Her baby's stole my heart throughout the book.

Lieutenant Dan Willis has been looking for Maggie for the past year. He finds her just as she is been attacked. He gets hurt, defending her. He is not hurt bad. Knowing he got hurt trying to save her, she hopes she can trust him, and the Police department he works for. This is a story with a lot of twist, and turns.

I also love that this is a book about faith, God, and Prayer. Maggie has not trusted in God in a very long time. Lieutenant Dan is a Christian. He gives her hope. When Maggie thought she was going to die, she prayed. After that she started building a relationship with God. She, and Dan also got closer throughout the book. This was just a excellent book. Loved it!

I loved this book from page one. Maggie had lived in fear all through her pregnancy and now she had adorable twins to protect. Police officer Dan Willis finds her and the action begins. While trying to keep Maggie safe, Dan also has to figure out who is after her. The suspense keeps you reading and the burgeoning love keeps you smiling. In the middle of all this, Maggie rediscovers her faith and learns to forgive. I was given a copy of this book in exchange for an honest review and I am so happy I was. I plan to look for more books by this author!

This is my first Love Inspired Suspense story...I think. It's not a line I usually read as I'm more a cosy girl than a thriller fan.

This is the story of Maggie Slade who has been on the run for eighteen months after seeing her new husband murdered by a cop. During that time, she gave birth to twins.

Dan Willis is the cop who has been looking for missing person Maggie all that time. Expecting her to turn up dead, he did not expect her to turn up with twins.

Unfortunately, the moment he finds her, someone else does, and their agenda is a lot more dangerous.

I had a slow start with this story but once the action kicks in, it's pretty much a roller coaster ride and kept me engaged right to the end. Maggie and Dan both had pasts that impacted on them and made it hard for

them to see a future. The inspirational element was strong without being annoying but it was definitely there.

Overall it was a good read with plenty of action and a believable mystery and sweet romance. This is the second book by this author and is loosely linked to the first by common characters. I will have to go back and read the first as I'd got the order wrong.

### **Jenee Rager says**

I won this book from goodreads in exchange for an honest review. After starting the story I realized that it was actually the second book in a series, but I felt that for the most part it stood on its own, and the references to the previous books events were enough to keep me going.

Maggie witnesses her husband's murder and goes on the run. Unbeknownst to everyone she is pregnant with twins. When she is discovered about two years later with the twins, Dan, the detective who assumed she had been killed will do anything to protect her and her children as they face increasingly violent attacks.

Overall this was a good, fun story and I would read more by this author again.

#### **Wonderful**

I read Seth and Jessica's story first. I enjoyed it so much figured I would read Maggie and Dan's story. Loved the twins. Want to say this before I forget, hope there is a story about Paul and I hope Irene find love again. Dan is struggling with his time in Afghanistan and trying to be a cop, Maggie and her twins are running for their lives. The man she married is not who she thought he was, she is angry at God, her mother and the man that is her father. With Dan by her side she learns to pray again and forgive. No matter what happens in life we should never turn away from God cause he never turns away from us. This story has secrets, reunited siblings, attempted murder, people appear to be one way but are totally opposite. The book was full of action and suspense.

### **Rachel says**

The premise of the story on the back of the book sucked me in. I had to start reading that night. A police officer, a mother of twins, a deception that cost a life - it's a great hook.

The details in this story are captivating. Little everyday life things, whether it's about a table in a cafe, traffic on the road, or the sound of a shoe in a hallway. They help put it together, make it seem so real you are rooting for the character to hurry up and finish it already. The emotions between the characters are on a fast track, but are developed in a realistic way. The back and forth of the characters, the little verbal darts or comforting words, are woven together to create bonds that hold everything together.

The author has a way of setting up a scene that makes it seem like another character - but isn't too wordy. I really enjoyed this author's style of writing. Overall, her characters are believable, the dialogue is fast paced

and witty, and the story has enough suspense to keep you reading til late at night.

I would highly recommend this book for fans of suspense, mystery, or romance. I received a complimentary copy of this book in exchange for my honest review.

Interrupted Lullaby by Dana R. Lynn is a great book full of suspense and intrigue. It will definitely keep you wondering what is going to happen next. A very nice love story of a couple introduced in the first book by this talented author, Presumed Guilty which is set in LaMar Pond. Dana brings her characters to life and you can see them being your next door neighbor. Can't wait for her next book. I was given a complimentary copy of this book for an honest review.

### **Susan says**

Very good book with enough action and suspense to keep me hooked to the end. Maggie has been living under an assumed name to keep herself and twin children safe, unable to trust anyone, especially the police. Her husband had been shot and killed by a policeman. For eighteen months she has managed to keep hidden, until the day she came home to find an attacker waiting for her.

Dan has spent months looking for Maggie. As one of the jurors in a case where they were being murdered (see Presumed Guilty), he has been concerned for her safety. When he checks out a tip about where she is, he arrives just in time to save her from the attacker. Taking her and her kids back to LaMar Pond is the only way to find out who is after her and why.

The suspense of the story builds in intensity as Maggie, Dan, and the others get closer to finding out who is behind the attacks. Things get really interesting when a secret about her husband is revealed. Though devastated by what she learned, Maggie is determined to do whatever is necessary to put an end to the threat. The final confrontation had me on the edge of my seat as Maggie struggled to survive and Dan raced to the rescue.

I really enjoyed the growing relationship between Dan and Maggie. After being on the run for so long, it is difficult for Maggie to learn to trust again. I liked the way that Dan understood that and was patient with her fears. Dan is a man that is haunted by things that happened in his past as a soldier. His guilt over one particular event has an effect on the protectiveness he feels toward Maggie and her children. I loved seeing how sweet he was with the kids, and how much he wanted to become part of their lives. There are things that happen that have him convinced that it is impossible. I loved Maggie's support and understanding as she learns of his fears. The realism of the ending, as Dan decides what he has to do to make a future with Maggie possible, was fantastic. The epilogue was really sweet.

The secondary characters were great. I loved seeing Jace and Melanie from the first book. Maggie's newly found half brother Seth was pretty adorable in his excitement in having a sister and a niece and nephew. I am very intrigued by Dan's boss and friend Paul. I hope that he gets his own story, as I suspect it would be a good one, given the hints that were dropped during this book.

On the run with her two children, following the brutal murder of her husband, Maggie Slade is reticent to trust the LaMor Pond police officer who eventually uncovers her new location. Convinced that her husband left evidence which a murderer desperately wants to destroy, she fears that coming forward will place her in an even more vulnerable position.

Former soldier and now police Lieutenant Dan Willis is instantly drawn to the lovely widow with the haunting eyes and beautiful twin toddlers. Pushing attraction aside, he vows to solve her case quickly so that she can return to a normal relationship with her children. Frantically escaping one death threat after another, Dan and Maggie discover that her interrupted lifestyle might be more lengthy than they initially imagined; unnerved by the fact that her enemies always seem to be one step ahead of them.

Enjoy this fast-paced suspense, with speeding danger around every corner, and tantalizing romance dangling between these two intriguing characters.

INTERRUPTED LULLABY is written by talented newcomer, Dana R. Lynn. This is her second book with Love inspired Suspense and she definitely has the formula and story down. Police officers have been hunting for Maggie Slade who went missing after a stint with jury duty. Other jurors were found dead, but Maggie fell off the radar. But the police find her at the same time as the villain so immediately the police and Maggie (and her twins) are in danger. I've said this before and I will say it again, I would never survive as a heroine in one of these romantic suspense stories. The bad guys would make one attempt at my life, succeed and end of story. It does make for edge of the seat reading though! What will they do next? How will the heroine survive? Why is trying to kill her and why? You have to keep reading to find out the answers to these questions and more. This is the first one I can remember where the heroine is running with two infants--and in the first two chapters not just one, but two police officers are injured in the line of duty. Talk about fast-paced! 4.5 stars

### **Hannah says**

I really enjoyed this fast-paced thriller, even more than the first LaMar Pond book, Presumed Guilty. It builds on the acquaintances already made in the other book, and this book is about two of those side characters, Maggie and Dan. I really enjoyed the relationship between these two! And the babies were precious. I also really appreciated the Christian message of Maggie learning to trust God again after pushing Him out of her life years before.

I liked to see some signs of manhood in Seth and will be glad to read his story next month...I'm also hoping

for an Irene story at some point!

Content: attraction, one kiss

Language: squeaky clean

### **Erica Hearns says**

The return to LaMar Pond in *Interrupted Lullaby* is well worth the trip! Feisty widow and mother of twins Maggie Slade has been in hiding since the death of her husband. She's worked hard to hide her identity and keep her children safe. But someone has found her.

Lieutenant Dan Willis has been looking for Maggie since she disappeared. He arrives in the nick of time to thwart Maggie's attacker--for now. If he wants to keep her safe, he'll have to keep her and her children close. As danger mounts and the threat to Maggie grows, so do their feelings for each other. Can they discover who's after Maggie and neutralize the threat before it's too late to save their lives...and their hearts?

This was a quick read that gripped me from beginning to end. The suspense and high stakes scenes kept their intensity and ramped up each time, keeping me turning the pages. But it was Maggie and Dan, and Maggie's adorable twins, that really made the story. Maggie's strength and fierce love for her babies perfectly complemented Dan's strong but tormented character. I would recommend this one to anyone looking for a short, suspense packed romance with strong main characters and two adorable and amusing babies.

### **Marilyn says**

Maggie Slade and Lieutenant Dan Willis story is action packed and filled with tension, lives being endangered and even lives lost that kept the pages turning. Dana R. Lynn sure knows the ins and outs of a great romantic suspense story. *Interrupted Lullaby* is set in Lamar Pond where Maggie did not want to return with her distrust of officers after losing her husband by someone at least impersonating an officer. Maggie had a lot at risk in trying to keep hidden with her twins since that's all she had in life. The complicated ring of all her alias named husband had seen or been involved in gave insight with Lynn's research of a thorough deep murder investigation by officer working the case. Readers of suspense will not want to miss this story by Dana R. Lynn.

I've had this book on my bookshelf for quit some time and just now read it. No review was expected since it was not an original purchased copy but all thoughts expressed are my own.

This is the first book I have read by this author, but I certainly will be reading more by her. I really enjoyed this one. It is an edge of the seat suspense combined with faith and romance that had me pulled into the story from the first pages and kept me reading because I didn't want to put it down. It is also a beautiful story showing how through God's love and mercy there are second chances at life and love. I was given a copy of this book in return for an honest review, and this is one that I definitely recommend.
