Sold to the Highest Bidder Teresa Richenberger

From using drugs at a very young age and becoming a runaway at the age of 16, Teresa had no way to take care of herself. She literally felt forced to sell her body for a place to stay. Thinking this was the path to take to support herself, she answered a "Dancers Wanted" ad in the local newspaper and became an exotic dancer at the age of 17. In her mind, there was no turning back now. But, by the age of 28, Teresa had reached her breaking point. She knew something had to change because she could not go on like this; she was dying. After being trapped for almost 12 years in strip clubs and prostitution, she had lost herself. One day while looking in another newspaper, she answered a completely different kind of ad -- a church ad to come visit. Teresa went to church that night and that was where her healing process began! She now lives her life for Christ and helps others to overcome their painful past. Teresa discovered the freedom to live victoriously by applying God's Word to her life. From her battle with learning to trust and love again AND the struggles of everyday life, she desires to help others do the same. She is now an advocate for hurting women and girls in the sex trade. She wants to help them discover their true value and self worth. She does know the way out of hell because she used to live there! God has provided Teresa with many opportunities to share her testimony with this life-changing message of the Gospel. She has a real life example with an incredible testimony of the dynamic, redeeming work of Jesus Christ! Featured on The 700 Club and SEEDS TV.

Review: SOLD to the Highest Bidder

I have to be honest. It took me a couple of days to pull myself together to be able to write this review for Teresa Richenberger's book, 'SOLD to the Highest Bidder'. It took me that long to gather my emotions. She somehow manages to fill the pages with her gripping life story of pain, fear, redemption, and salvation.

Teresa's heart was held captive by a life of addiction, exotic dancing, and prostitution all leaving her in a state of hopelessness and desperation. This went on for twelve long years; that is until God used a tiny little church with a heart for His people to draw her near.

SOLD to the Highest Bidder is raw, open and honest. Teresa made the choice to share her love story with Jesus and that's just what she did, no holds barred. I found that I spent much of the time needing to put down the book for a time of reflection. My heart went through a complete overhaul. I'm fairly sure this was part of her plan. But I am absolutely positive it was part of God's.

Teresa does an amazing job throughout the book revealing the way God was weaving His purpose for her life all along.

I am giving SOLD to the Highest Bidder five stars, only because it doesn't allow me to rate any higher. I can't wait to see what Teresa does next!

I personally know and have good relationship with this amazing woman! This book will inspire you weather you share her background or not! My 12 year old has read it 3 times and now owns her own copy! You want more than one so you can give them as gifts! It's that good! Short easy read. Had it done in a day and I'm VERY busy so total about 2-3 hrs.

Sold to the Highest Bidder is an increible and over powering testimony of Teresa, a book you can not put down, I love it! Teresa's a woman strong in power, giving glory to GOD, also living fully in the will of God. Teresa it is a privilege to have you as a friend. I know that your book will touch so many women's and men's life! The Lord alway's encouraging us, we have encouragement for others. The Lord can use every experience we go through, whether negative or positive to help those who are facing similar situations. Your book is your testimony, it inspires faith and brings hope that would bless anyone!

Wow, my first win in the First Reads program. Looking forward to receiving the book and reading it. So what do I think now that I've read it?

I applaud Teresa for sharing her story with us. I think it's so important to understand that change is possible, for all of us. Teresa went through a lot before finding Christ as her path to salvation. It was heartening to read about the helpers who did show up along the way, at the right time. Happy endings are not just for fairy tales.

I met Teresa at a University event that I was helping put on. I knew nothing but the bare minimum about her story and that she had been enthusiastic about our request to come speak. After meeting her and spending time with her I knew my life had just been given a new gem to treasure and that I would never forget my time with her. This book is her testimony that reads exactly as if she were speaking it to you in person. I couldn't put it down once I started and I cried and felt joy alike through out the read. If you have ever been in a dark place in your life, or if you are there now... Give this book a few minutes of your time and you will be given a new hope for yourself and for others around you. This I would guarantee!

A very compelling real-life story, exceptionally written, portraying the reality of darkness and demonic activity and the mercy, grace, and love of God! An excellent read and highly recommended!

This book was a quick read (it took me one overnight shift at work.) I think the brilliant thing about this book is that the author is brutally honest about her behavior, intentions and thoughts and this only makes you care about her more.

An interesting glimpse into the life of a troubled teen who enters the world of dancing for male entertainment and her journey towards God and self-realization and life as a Christian evangelist. I know the author so it was very special to read.

I'm going to start saying that I'm not a religious person at all. But for me, putting that aside, this book shows you that no matter how bad your situation is there is always an escape. There is always someone willing to help you and never it's too late to reconduct your life.

It's a heartbreaking and tough story with a beautiful ending, that it's definitely worth a read.

I already recommended it to 2 of my friends.

I suggest that every woman that has doubts about her life read this book! It takes you on an incredible emotional journey. I had the opportunity to meet this fantastic woman at a brunch. WOW! Is all I can say. You must read this book.....every woman should read this at least one time. Did I say every woman? Because they should.

Very great book! I got to help proof this book, and it brought tears to my eyes. Wonderful story. Must share! A great story of God's transforming work in someone's life!!

As the editor of this book, I feel very personally acquainted with it. This is a gripping story -- a page-turner! Teresa's life started out at almost rock bottom. She became a dancer, a prostitute, a drug addict, while drowning her pain and heartache in drink. She says she "knows the way out of hell because she used to live there!" God pursued her because He loved her. Despite what everyone called a broken woman, God saw her potential. She is the boldest woman of faith that I have ever met. Her story is mesmerizing. Yes, I really, really, REALLY recommend you read this book!!!

Vicki says

Wow! This book is an absolutely amazing and encouraging one. When I began reading this book I didn't realize that it is a true story. It's amazing how God can lead you exactly where you need to go, and that's what this read was for me. As most people in this world, I have people in my life that I love who are hooked/stuck on bad things such as Teresa was.

Being a woman of faith, it's hard to admit that there are times that it just seems like things are hopeless, even though I know they aren't because God is the God of all things, He is the Healer. But to read Teresa's account and to be reminded that the Lord loves the people I care about far more than I ever could, and that He is faithful, gave me renewed hope.

Thank you, Teresa, for helping me to remember just who is in charge. Thank God it's not me, but instead it is a loving savior who is always there for us. Going through such difficult times in life is when a person is building his/her testimony just as you did. God bless you for sharing.

I highly recommend this book to anyone who is going through any dark period of his/her life, to people who need encouragement (whether believers in God or not), and to anyone who likes a really good, candid story of one's life that you just can't put down.

Jackie Skillern says

I really enjoyed the book. I have a teenage daughter who recently started college and is having a hard time sleeping at night. I think that she may be dealing with a spiritual battle. I have been praying for her and she is also seeking counseling which is a step in the right direction and shows me that she is seeking to resolve issues and not run from them. Your story is evidence that there is always hope and a way out if we choose God's way and not our own.

Kim Coffman says

Very easy read. God worked in her life in an amazing way. I love hearing ways that God pursues the lost.
