A dangerous secret could ruin everything...

Logan blazed into my life on a Harley and stole more than my breath. I hardly knew his name when he showed up at my apartment and made me his in a way no other man has before. I'm sure he still has deep red scratches hidden under his vest.

The second he gave me that smirk and revved out of my apartment complex, I started aching for him to come back... and I haven't stopped yet. Even thinking about him gives me goosebumps despite the suffocating heat of the Arizona sun.

But I'm nervous. I think his crew is suspicious, and I don't know what to do. If I push him away, who will keep them at bay?

A betrayal that won't be dismissed...

I can't shake Cassie. Lying to my crew about her is one thing, but getting distracted by thoughts of her body wrapped around mine doesn't help either.

I can't worry about that problem though. With Surge out of commission and the club in my hands, I have to whip the men into shape for the drug deal this weekend. I hope I can mold them from scared children into the aggressive lions I need them to be. Especially with the Skeletons MC breathing down our necks.

If I can't, I could lose it all, including Cassie.

I can't let that happen, no matter what it takes.

Donna Hokanson says

The trials of a new MC President and young recruits

With Logan playing acting president (and it may become permanent) he finds how hard it is to get these young untried guy to act like the brothers they should be. And what about Cassie? He still hasn't told anyone about her but someone finds out. Can she handle Logan, can anyone? The story progresses where it left off from the first book. The plot thickens with betrayal, sex and mystery. Well written and enjoyable to read. Quick read making you just want more. I received an eBook copy from the author for purpose of an honest review and was not compensated.

Natasha says

I feel like I should be giving this a higher rating but I just can't seem to connect to the characters. Logan is this big bad biker that comes in and out of Cassie's life just to have a quickie and then leaves straight away, yet he's protecting her identity from his brothers from his MC club. There seems to be more to this two then I'm aware yet and it bothers me that I'm not quite getting in to it like I want to.

Leslee Anderson says

Received a copy from the author for an honest review. Bikers aren't usually my thing but I really like Logan. Logan's loyalty is challenged with his "relationship" with Cassie. He is trying to make men out of his crew but betrayal is surrounding the gang. Cassie is trying to survive a hateful boss and now Logan. I guess I like them both because they are both strong willed and loyal. I'm not sure where these two will end up but with every step they will have to continue to look over their shoulder. Good fast read. I'm looking forward to the next portion to this series.

Kendra says

I don't know why but I just can not get into this series, this would and should be something I would love but for some reason I just can't connect with this book. However that doesn't mean I'm going to give up on the series. I will push through and find something if anything that I can connect to. I will say thought it's hot when it needs to be.

Lenna Wright-Berry says

No Cliffhanger, this was a great story of brotherhood, betray, building romance with a touch of murder tossed in to add more suspense to this series. Sorry not spoiling it, just saying one part could and would spoil this,

but it was great.

Tina Lochbihler says

Wow again wow its keeps getting better. Love how amy writes her books. great story line and oh cassie and logan I'm hoping and cheering for them. I finished this book so fast I could not take waiting to see what happens next. A must read

Jodi Ciorciari-marinich says

This second book for this series was great. Enjoying the story of Cassie and Logan. They are really good together. The story is exciting and interesting. cant wait for the next installment and see what happens next .

Kat says

I was given an ARC in exchange for an honest review!

I loved this one and I can't wait for the next one! Logan and Cassie are still rocking my world and I think we'll see a lot more of them both in the next one. Awesome job Amy Isan!!!

Mary Mooney says

I received a copy from the author in exchange for my honest review, so here it is. Cassie is still working at the Pet Palace washing dogs but she can't stop thinking about Logan/Bomb. The sexy, tattooed biker who shows up at the accident and steals her drivers licenses. And then he shows up at her apartment. Now it looks like Surge, the MC president, is not coming back and that leaves Bomb to take over. They have a deal to get ready for but he has a group of rookies. He talks to them and hopefully they will all be OK after the deal goes down. There are more surprises at the deal than just drugs and money. The Ruin Outlaws MC will be betrayed by one of their own. And for what reason could he have for betraying his brothers? Cassie is still having trouble at work with her boss, Becky. Finally she gets tired of it when Becky hands her five hyperactive dogs to wash and the owners will be back in an hour. So Cassie quits and leaves, heading back home. When she gets home the apartment door is ajar, who is in there? Later that night the biker that has been following her is in her kitchen. What does he want? Then Logan shows up and pulls Cassie outside and they leave on his bike. What will happen next? Will Logan run with Cassie or will he make her leave alone? I need more NOW! This is hot, sexy, intriguing and will make you say WTH more than once. So if you like stories about MC then you should read Bomb (book 1) and Spark (book 2), you will love them, I sure did.

Cheryl Graham Petit says

Spark is a continuation of Bomb, Book 1 in the Ruin Outlaws MC series. I was lucky enough to receive this

book as an ARC for an honest review. The sexual chemistry between Logan and Cassie seems to heat up in this story. Spark is gripping from the start and has a good mix of tension, drama, betrayal, lust, a good plot line, and characters that you can empathize with. Can't wait for the next book in this series.

Kathryn says

Bomb led this series off, but Spark is even hotter.

Logan & Cassie are getting closer, while hiding their relationship. If that's what you can call it. They've not seen each other even a handful of times since the accident.... but the spark is growing. They are drawn to each other, Logan knows it's a bad thing, Cassie confused as ever.

M G says

The story line is full of betrayal, sex and mystery that continues where the first book left off(Bomb). Logan(aka Bomb) is acting president (while president is in recovery) finding his young untried guys hard to act like the brothers they should be he initiates a bonding ceremony learnt from a previous group of outlaws. He still hasn't told anyone about Cassie but like all secrets someone finds out and possibly going to use the info to their advantage. It is a well written,quick exciting read leaving you wanting more. This was an ARC copy which I am very happy to have received and reviewed.

Cheryl says

And the plot thickens

Explosive heat and dangerous plots. By keeping a secret Bomb endangers the woman he finds irresistible. Once the secret gets out he not be trusted among his own crew and be a target for the rival MC. Bomb/Logan cares for Cassie and be wants to protect her. Stay tuned for more thrills and immense passion. I am looking forward to the next installment. I am thrilled I have them all at once and not waiting impatiently waiting for each. Thanks Amy!

Roseanna McClain says

This book was better than the first, but still lacking substance. I couldn't connect with Logan and Cassie. They seem one dimensional. I dont like how the MC is being ran. I like for the brothers of the MC to have each others backs. This was just all over the place for me. There is no voting involved nothing. It just feels like a bunch of men getting together to do illegal stuff without guidance. I hope the series gets better.

Tracy Buttles says

*** I received an ARC in exchange for my honest review. ***

Spark is the second in the Ruin Outlaws MC series--book one is Bomb (Ruin Outlaws MC #1). This MC romance has great potential to be outstanding. It was a very quick read that I enjoyed very much.

The main characters of Cassie and Logan (aka Bomb) are very likable. You can feel the sizzle when Bomb and Cassie are together. You also can't help but feel for Cassie as she struggles with her confusion over her attraction to Logan. I must warn, the end of the book leaves you on the edge of your seat for what will happen next. I'm looking forward to the next book to find out how things develop between Cassie and Logan.
