Spirit of Meradoon Margaret Douglas

Many are familiar with the word loch: the Scottish Gaelic word for a lake, and throughout the British Isles rumors abound of the Loch Ness monster. No one, though, is aware of the existence of a different creature inhabiting another loch.

The Biggs family decide to vacation in Scotland, and instead of a tourist trap, prefer to stay in a remote location. When an idyllic cottage overlooking Loch Meradoon is available at the height of the season, they believe it will perfect their first visit to the Highlands. Assured of a quaint cottage surrounded by beautiful views, it seems a dream to be near both the loch and romantic, ruined Castle of Meradoon.

One misty morning the children, Emma and Thomas, decide to explore the castle where they encounter something beyond their wildest imaginings. They are immediately propelled into a series of adventures: exciting, mysterious and puzzling, even frightening.

As this memorable vacation draws to a close the children receive a special gift, so unique it provides life-changing consequences.

I was given this book for free in exchange of my honest opinion/review. Brother and sister embark on a interesting journey while on vacation. They learn about life and about themselves, and form a lasting bond. The scenes were described so well you could picture it in your mind.

I received this book as part of Goodreads' First Reads program.

This was a very charming story about siblings who have a grand adventure while on vacation. I enjoyed the characters and the way the author, Margaret Douglas, can make a whole fantastical world come to life in vivid color. Ms. Douglas also has a way of making her characters come to life. I so wanted to meet the Biggs family and Meradis. I also like the way Thomas and Emma work together and bridge their differences.

I am going to pass this along to my niece, who I believe will really enjoy it.
