The Stonekeeper's Curse Kazu Kibuishi

In this thrilling sequel to AMULET #1: THE STONEKEEPER, Emily and her brother Navin head for Kanalis, a beautiful and mysterious city of waterfalls, where they hope to find the antidote for the poison that felled their mother. That cure lies in the eggs of a giant serpent atop Demon's Head Mountain, but the kids' archenemy, Trellis, is headed for the peak, too. A battle that will engulf all of Kanalis is looming. It's up to Em to triumph over evil while controlling the amulet's power . . . without losing herself!

John Papadopoulos says

Okay, i have to say book number 2 is way better than book number 1.

We get to see character development in this one, as well as the formation of friendship which gives the story another dimension. The action and the intensity was amazing! The concept, and i said this to my last review but i am saying it again; reminds me of those 90s cartoons which we love watching back then and makes me so happy; it transports me back to that time. I know it is going to get better and better as we go along. 5 stars! Guys, you need to read this especially if you didn't enjoy book 1 you're going to love book 2 ;)

ashley (saidthestory) says

This was even better than the first volume. I am loving the world Kibuishi is creating. Can't wait for volume 3!

Kate (GirlReading) says

I'm absolutely loving this series, this volume even more so than the first. The fact that it hasn't been picked up for a movie or tv show is a crime.

Jim says

4,5 stars

This was even better than the first one.

Emily must wants to help her dying mother, in order to do that she must find a specific fruit that can be find only in one place. The elf king sends his army after her. Emily will realise that she's the only one who can save her mother and the entire Alledia

Brian Yahn says

The second installment of Amulet is basically Pacific Rim meets Narnia.

Like Pacific Rim, this issue walked dangerously close to becoming mindless action. But it was able to distinguish itself with all the clever and fun intricacies of the world.

On the one hand, the uniqueness from the first issue started to wear off. The protagonist's arch got a little too close to The Lord of the Rings. But on the other hand, for the first half of the issue, while Kazu Kibuishi was building up the world of Amulet, it was just too creative and wonderful to mater.

I'm slightly worried the world building and character introductions seemed to stop at the midpoint. But I'm hoping that in the next issues, the magic in this world has some deeper meaning, that really ties into the characters.

I'll definitely be reading more.

Maxwell says

3.5 stars

I'll admit, I wasn't a huge fan of the first volume. But I wanted to give the series another try, so I checked this out from the library. And I was much more impressed with this volume.

The art, same as the first volume, is *beautiful*. Kibuishi has an amazing style that is whimsical and fantastic. He also creates great characters. Cogsley and Miskit are two super cool sidekicks. And the walking house! I want one.

The story definitely picks up in this volume. You get more conflict, some back story, and some good character development from Emily and Navin. I really liked their parallel storylines in this one.

My only minor qualm with this series is that because it's for children, a lot of things resolve nice and tidy, so I'm never really concerned for the characters. However, it doesn't shy away from some violence and intense action scenes.

I'm glad I continued on with this series, and that I checked out Volume 3 from the library as well!

Lola says

I'm not hooked. I'm addicted.

Maisie says

THIS KEEPS GETTING BETTER AND BETTER.

Mel says

On a bit of a graphic novel kick so I decided to pick this one up. Really enjoyed it. Glad I decided to continue on with the series because I like where the story went. Will be getting to the rest of these.

Melissa ♥ Dog/Wolf Lover ♥ Martin says

I enjoyed this second book in the Amulet series. Emily is still trying to control the powers of the Amulet, which is a hard thing to do and if she doesn't it could corrupt her.

The gang decide to go to the city of Kanalis to get more help for their mom who is dying from poison. I really love the walking house, I want one :-)

The city is full of animal people which is very cool, but they are suffering under some kind of curse but they are fine. Emily and the gang find another friend that goes by the name of Leon Redbeard, he's a bounty hunter and a fox :-)

They have to get out of the city because the elf prince is hot on their trail. They find out there is an underground system and they have warriors to help fight for the cause and guess what? Navin, Em's brother ends up being the commander. Go Navin!

They also find out their mom needs the fruit from a tree at Demon's Head Mountain, so they separate to get things done.

Emily, Leon and Miskit take off for Demon's Head Mountain while the others try to keep their mom and everyone else safe. But Emily and them are followed by the elves with every step they take.

We find out that prince Trellis of the elves is hiding a secret. He's not all what he seems and his father is a jerk.

I thought this was a wonderful book and I want all of them! Number 7 comes out soon and here I am on number 2! Anyway.... the graphics are wonderful and the story line is awesome! I love it ♥

Kristina says

SO GOOD!

Antonio { ManiacWithBooks } says

3.5

Faith says

Not as fun as the first one, but definitely expanded the world and the threat. I really liked the bad guy, and the obvious Zuko knockoff is still great, despite being an obvious Zuko knockoff. This series really hits the middle grade spot.

Regan says

I really enjoy this series

Sue Moro says

The elves are getting close and the action ramps up as Emily and Navin race to find a cure for the poison that is killing their mom. Emily must learn to control the stone as it fights to try and take control of her. This was even better than the first volume!
