## **Munchkin says**

Set in the same world-Vampire Wardens Series and the Werewolf Society. These books wove the two series and characters together seamlessly.

i enjoyed the characters struggle with how they saw themselves and what they felt their roles were in the world vs what the others characters felt was their duty to their race; The mirror in which we view ourselves vs how others see us. Their interaction with the other supernatural communities in the world is engaging. Happy endings do come about but only after lives are forever changed. There are mysteries to be solved and villains to be eliminated. Great heroes and heroines coping with what life if throwing at them. This are paranormal romance books with erotic elements as the titles suggest Hot Vampire Kiss, Hot Vampire Seduction, Hot Vampire Touch, Wicked Werewolf Night, Wicked Werewolf Secret, Wicked Werewolf Passion.

## **Mandy Jones says**

One day I was looking through Amazon trying to pick something to read and I came across this set by Lisa Renee Jones. I thought this looks interesting, so I bought it. I am sooooooooooooooooo happy I bought this set. I love Vampires and Werewolves, plus the added benefit of them being Alpha males. If you are looking to get into a series about Vamps and Weres this is the perfect set for you. The Vampires are the Brooks brothers - Evan, Aiden and Troy. The Werewolves are Nico and Kole. This is a must read set. I give it 4 stars.

---

## **Samantha Shaffer says**

These books suck you in with the hot were wolfs and hot vampires you can never get enough of. I really thought these books were really good some scenes get a little steamy. Be sure to read them in order.

---

## **Cheryl says**

### **Good story and characters**

I really liked these stories. Maybe could of dug a bit deeper into the background story but still over all very enjoyable. Strong characters both male and female. Storyline wise was good imo that they did flow together nicely. I want to know Marcus' story as well as Ariel's. So anytime, Ms. Rene-Jones, outweighed story

worked out would be totally awesome please

---

## **Purr More says**

I have a book or two by Lisa Renee Jones on my shelves and though I haven't read them yet I was familiar with the name. So when I saw this box set on sale at Amazon, I was quick to one-click! Vampires, werewolves, romance, and smexy times...right up my alley. The box set is made up of five novellas. There are three novellas in the Vampire Wardens series and the other two novellas are from the related Werewolf Society series. The characters will often cross over from one book to the next and one series to the next. The novellas combined probably equal one good size novel.

This set is not a serial so you won't be left hanging at the end of each novella. It is more like a regular series where each one gets wrapped up with an HEA for that story, but there is also an overarching story line that runs through them all. The stories are standard paranormal romance fare and focus more on the romance aspect at the expense of the suspense and conflict. Threats to the main characters were often resolved easily leaving me to say to myself "That's it? It's over?" Even when it was building up over a couple of books, it just seemed to end quickly without a lot of effort. Though I did like the storytelling overall, I personally don't think there was always a good balance between the romance and the plot. So if that doesn't bother you and you read more for the romance than the intrigue, you're good to go.

I did find myself becoming invested with some of the characters. I liked the brothers Evan, Aiden, and Troy, but probably enjoyed Troy's story the best. His character felt like it had some extra depth that the others did not due to his unique situation. It added some more layers to explore though I can't say they were really explored that much. His story is also the last one of the three brothers to be told so you get more page time with him and have more time to connect.

The stories did keep me reading and I can say I enjoyed them but I did find some issues that frustrated me at times and that I just can't overlook. There were inconsistencies in character actions, plot holes, and about 70+ typos for the entire box set which is about the size of a novel if you combined all the novellas. That is quite a bit and not just a "handful" that you can expect from most any book. Almost half of them occurred in the last novella alone. Not sure what went so wrong with that one compared to the others. It became quite distracting in the last book since they were popping up so frequently at that point.

So now for the tough part...what to rate this boxed set. I am torn between actually liking the stories, the world, and the characters, and being frustrated and disappointed with the lack of editing/proofreading, which sometimes distracted me and pulled me out of the stories. I didn't dislike them, but I can't say I really liked them as much as I could have if they had been polished. Even with all the typos and issues I still liked the set as a whole so I will give this three stars.

There are more Werewolf Society novellas out or coming out and it is likely that I will pursue them if the price is right because after reading five of these books in a row, I do have some investment in the series and would like to see what happens next. I will be doing so knowing what to expect polish-wise but also hoping that the quality will improve.

## **Melissa Vasquez says**

Overall I loved these stories. The last one was kinda like bam...here is the end. That was different from the first ones.

They were an easy to follow story all the way through. Not complicated to really picture what was going on.

---

## **Angelica Defruscio says**

Once again found an amazing erotic collection that I could not put down. Seems to be a pattern that I read the first of a series and become so engrossed that I can think of nothing else. I would be ecstatic if more of these books happened to be written! :)

## **Bleumoon says**

I am enjoying this series! There is lots of action, steamy romance, yummy vampires, hot witches and werewolves and twisted bad guys. Having the box set helped keep the story flowing. The characters and stories were all well connected and I am finding myself wondering if we are going to get to see the characters from previous books again. Some of the endings were kind of anticlimactic... that was a little disappointing... and yes there are some grammar errors but I felt the story lines and characters made those errors easy to overlook. I will be getting the next two Werewolf Society books!

---

## **Michelle says**

5 fantastic stories - don't miss out!

Hot Vampire Kiss

I loved this! A great start to the series, a short & sexy vampire tale full of hot men, mystery and betrayal. I'm really looking forward to the next one.

Evan is a vampire warden, who's goal is to keep the secret of the supernatural from the human's. We meet him as he is working undercover as a bartender while on the trail of a werewolf who is killing indiscriminately. Marissa goes into the bar after a gruelling shift in the ER to hopefully help her put the days events out of her mind. When Marissa is attacked by the werewolf, Evan feeds her his blood breaking the law and disrupting the curse that is trying to take over. Join them on their journey to destroy the wolf before the full moon to break the curse. There are a few surprises along the way and the end sets up the next book perfectly. I'll certainly be continuing with the series.

5 Stars

\*\*\*\*\*

Hot Vampire Seduction

This is book 2 in the Vampire Warden series and I loved it! I preferred this one to the first one and I gave that

5stars, suddenly wishing the scale went higher!

We learn more about the brother's and how they came to be the men they are today and I adore the men they are today. I can't wait to get to Troy's book, I have a feeling his story is going to be even better than Aiden or Evan's. Lots of action, suspense & the sex was hot. I didn't see the middle coming, but it was wonderfully written and necessary for the plot.

Hot Vampire Seduction is an apt title... just saying ;)

5 Stars

\*\*\*\*\*

Hot Vampire Touch

The beginning of this book is set before the events in book 2 and then we join them for the aftermath. I did enjoy Troy's story and the end is set perfectly for Nico's story in the spin off.

Enjoyable, quick reads that I would highly recommend!

5 Stars

\*\*\*\*\*

Wicked Werewolf Night

This is the first book in the spin off to Lisa's Vampire Warden series, although it can be read as a stand alone I highly recommend reading them first :)

We begin this tale with the events at the end of Book 3 in the Vampire Warden series, Hot Vampire Touch, but we see events from Aylia's POV adding a whole new dimension to what I thought was going. Nico, a werewolf and Aylia, a witch shouldn't be together but they can't seem to be apart either. Secret's are being kept on both sides, will they overcome them and be together?

I love this world, seriously! This short will feature in an Alluring Tales antholgy later this year.

5 Stars

\*\*\*\*\*

Wicked Werewolf Secret

I enjoyed this tale in the Werewolf Society, although it was very different from the previous book I have a feeling the events in this one will be important in the next books.

Although this book can be read as a stand alone title I highly recommend reading the Vampire Warden trilogy prior to reading Werewolf Society book 1, having said that if you haven't tried any of Lisa's books this one is perfect for getting a feel of her writing style.

I can't wait for the next one!

4 Stars

\*\*\*\*\*

I love this box set and I highly recommend reading, I do recommend reading them in order to get the most enjoyment from them!

---

## **Jeannette Olson says**

I enjoyed the storyline. It was interesting and was similar to The Black Dagger Brotherhood series by J.R. Ward. The only problem that I had was that they were not so much poorly written, but poorly edited. I really don't understand how it's getting five star reviews with being such a mess. I found myself cringing at misspelled words and the overuse of commas. Some sentences just completely stopped and I flipped back and forth only to realize that half of the sentence was indeed missing. I would've given this series four stars if not for the poor editing. In fact, it seemed as though they hadn't been edited at all.

---

## **Donna says**

Hot reads Loved both highly recommend them.

---

## **Sheri says**

I liked all the stories ...fun/easy read

---

## **Timeforme says**

Main Characters:

Hot Vampire Kiss

Marissa - Young woman who was bitten by a rogue werewolf and will become a rogue at the new moon unless the one who bit her is killed

Evan Brooks - The vampire warden tasked with either finding the one who turned her and killing him or killing her before she is turned

Hot Vampire Seduction

Kelly Riggs - A coroner who is close to finding the vampire's responsible for an aphrodisiac drug, Blood Red.

Aiden Brooks - The vampire warden trying to find and stop those responsible for the drug

Hot Vampire Touch

Even Brooks - One of three brothers in the 1500's who is searching for who/whatever killed six townspeople

Aiden Brooks - One of three brothers in the 1500's who is searching for who/whatever killed six townspeople

Troy Brooks - One of three brothers in the 1500's who is searching for who/whatever killed six townspeople

Wicked Werewolf Night

Aylia Richardson - A witch

Nico Moore - Werewolf leader of the Royal Guard

Wicked Werewolf Secret

Sarah - A member of a family who was murdered by werewolf rebels

Kole Smith - Soon to be pack leader and leader of the Royal Guard

Synopsis:

This is a set of five interconnected books that tell the story of the vampire wardens and the werewolf society/royal guard. It focuses on three vampire brothers Aiden, Even and Troy and two werewolf's Nico and Kole who find their mates.

My Thoughts:

You definitely need to read the books in sequence to understand them. The story line continues with several other books (this boxed set was on sale when I purchased it). I generally liked and enjoyed these books but am not sure if I will pursue getting the rest of the series.

---

**Susan says**

Couldnt find just the werewolf boxed set I had read so dragged this one up. the series I read was 3 stories and I thoroughly enjoyed all of them. I will read the Vampire set
