## **Diane Vallere says**

I love this series! Pucci scarf as murder weapon? White go-go boots? Martinis and mod dresses? So. Much. Fun!

Once again I love it! For me to already have read this book and still want to read it over and over again is weird for me, but I can relate to Bebe on so many different levels. Where is my Mr. Williams when I need him? Can wait to read the next in the series!

SO fun! Setting and descriptions are PERFECT. Story lines to die for!

This was a retro mystery with lots of style and wit. I really liked it!

Another period mystery, this one taking place in 1964 when the British "invasion" was heating up. I found it disappointing because the secondary plot line involved the main character, a secretary, having an unrequited passion for her handsome boss, an idiot with very bad taste in women. No likeable characters in sight.

## **Kathy says**

I liked how the book was written with the 60's language and dress. I thought that the author did a good job on the main characters relationships with her boss and roommate. The ending took me totally by surprise.

Fun series  
light and easy to read

Just plain fun! Single girl in the swinging sixties with a mad crush on her dishy boss and. . .murder. If you're one of those midlife know-it-alls (no confession here!) you may notice a couple of time-warp errors, but they don't spoil the fun at all!

The gimmick with this series is that Bebe's boss works in a different glamorous industry in each installment. So in #1, "It's a Mod Mod Mod Mod Murder," the the boss is a record company exectuive and the murder is of a visiting British rock star.

In this book, the setting is a modeling agency. If you like light mysteries, you will enjoy this.

BTW, just a note about book #3 in this series, "Secret Agent Girl." I can't really recommend it. It just doesn't have that fun 60's sex comedy quality. The time period feel just isn't there. Too bad.

This is one of my favorite books! I love Rosemary's writing style!!

This mystery was a lot of fun! It was interesting to go back to the 60s when money was rolling in the ad industry. I think i paid more attention to the budding love story than the mystery though :)

This was a fun book set in the 1960's. I think the author did a wonderful job capturing a bygone era, you really did feel like you were in the '60's. The mystery was a lot of fun, even if you could see parts of it coming.

I'd give it 2 and a half stars
