Under a Midnight Moon

Cora Zane

Under a Midnight Moon Cora Zane

Betsey broke up with her boyfriend, Jonas, and this time it's for good. Now she's a single werewolf and plans to stay that way...until she takes one glance at the new handsome biker in town. She knows Chase Tillman is a hellraiser, but can she resist the havoc he's playing on her emotions?

Imjstgr8 says

Pretty good short story... I was a little confused but realized that it is part of a series... As personally I am trying NOT to start any new series, I might (or might not) give this series a try...

Maddy the Romantic says

This short, hot story about a pack of wolf shifters is fast-paced, well-written, and detailed enough to make me want to see something longer by the author.

Jeannie says

Nothing special whatsoever as far as the paranormal romance genre goes. So while this is a free, quickie read, I would suggest you spend your time elsewhere!

Sussan says

Great short read. Got lost somewhere when then knew each other before introductions are made but otherwise good read

Kris says

This was a free short/excerpt from Amazon. I'm not normally one for stories where weres are the focus, but this was a great intro to this world. The characters were well formed, the story line was fluid & without any other knowledge you understood the history & the conflict. I will be looking up more from this author!

Emily says

Dumping a cheating boyfriend was easy enough, but no one seems to believe Betsey that they are official through. There is one exception, biker Chase Tillman who wants to claim her as his mate.

I don't know what to think, I liked the writing and the beginning was great but I felt like there was a huge huge chunk missing. I know this is part of a series and probably more of an excerpt but I was overly confused by the end. I am going to give the series a try though.

Phuong Ta says

Cute & way too short!

Brenda Demko says

Under a Midnight Moon had the potential to be a good story. It was not long enough though. As soon as the story got started, it was over.

NOOK Book FREE

Published June 6th 2010

This started off slow and I laid it down. But this week I'm trying to read a book a day and picked it back up. Here is another prime example of a slow started that once it picked up it was a page turner.

You 've got a pack that moves into a were' populated area to merge with existing pack. The ladies realized after much debate amongst themselves that they are a rare commodity among all the male weres' and believe they will be better treated as the ratio is like 3 to 1.

The first gal to hook up is Betsy – she is recently broken up with a were' that treats her bad by lieing to her. I found it odd that she breaks with Jonas... goes to a pack gathering where many ppl are asking her where is Jonas.. so it is obvious everyone is use to them being a couple. She is so annoyed she goes off.. alone. She then makes eyes with one of the other pack male's and you know he will be the one.

Okay so far.. she lures him to run with her.. but when she stops to mate with him... she calls him by name then tells him she loves him – he returns the comment. [confused] have they been dating while she was dating Jonas?

It was fast... too fast... like we missed something. But other than that ... it was good. I liked the short story. But it was supposed to be erotica and there was a tiny scene. Was it enough to be labeled as erotica? I label it on MY blog as Romance.

SheLove2Read says

short story. not enough pages to make it work though.

LorettaLynn says

2.5 stars

Hot, short and spicy this story. Betsey get's rid of wolf and finds new biker Wolf.. Chase Tillman, hot, dark and Handsome this one is.

This was a fast read, I did enjoy reading it and thought it was a fun read.

**18 and older I am recommending

Happy Reading Everyone!

Martha says

Nook.

Lana says

This book was a bit of a disappointment because it was kinda too short. The story line was also rushed and seemed to jump ahead too soon. Maybe a sequel will give us a little more depth into the lives of the werewolf pack, but we will have to see.

A fair telling.

April says

To short!

MsBDiamondDiva1 says

Super short, super hot read!!! I like, could have been longer! But, still a nice read:-)
