Shelby says

Don't get me wrong, I LOVED The Hazel Wood but it ended on such a good note... what are you going to do?

Miss says

Gimme now!!!

Mircatxbooks says

Okay, all I can say is that I hope that Alice and Finch can find their way back to each other. Maybe she'll join him in another world along with her mother - after all, Ella missed the magic too.

Melissa says

I'm definitely going to read this a lot of times.

Samantha Sophia says

I'm hanging on for book 2 because of Finch and his worlds exploring. I think there is room to tell a better story that doesn't drag and with a hero you would actually root for that doesn't dismiss the only person of color's narrative. Also Janet and the story spinner would be great folks to expand upon

This story has potential and it falls short in a number of ways. I did find a continuity issues at the end with Sophia Snow, feels like a late add that was poorly edited into the book. The tales within the book, eccentric minor characters and Finch saves my rating from being a 1 to making it a 3 star book. I have to admit I've read many stories with way less imagination and back bone. I'm hopeful about Melissa Albert's writing evolution.

CerysAnne says

This better be about Finch. That's all I'm asking for. GODDAMN IT WOMAN PLEASE JUST GIVE ME MORE FINCH!

Chey says

I need this book like right now ???

theresa 🌸🥑 says

GIMME GIMME GIMME I WANT ALICE AND FINCH PLZZZ

Cody Roecker says

LET'S GO I CANNOT WAIT

(i am going to adore this, 100%)

MJ says

a second book! yessss!
