White Hot

Sandra Brown

White Hot Sandra Brown

Updated cover of this Kindle edition.

The #1 *New York Times* bestselling author of *Seeing Red* ignites crackling suspense and fiery emotion in an unforgettable novel of passion and vengeance.

When her younger brother, Danny, commits suicide, Sayre Lynch breaks her vow never to return to her Louisiana hometown, and gets drawn back into her tyrannical father's web. He and her older brother—who control the town's sole industry, an iron foundry—are as corrupt as ever. Worse, they have hired a shrewd and disarming new lawyer, Beck Merchant...a man with his own agenda. When the police determine that Danny's suicide was actually a homicide, Sayre must battle her family—and her passionate feelings for Beck—as she confronts a powder keg of old hatreds, past crimes, and a surprising plan of revenge.

Mo says

2.5 but I will round it up to 3 as she can write.

This one was a disappointment. Although when I saw Sharon's review I should have known that I would not LOVE it as I have noticed that the SB books that we have read, we more or less have the same opinion about them.

There was chemistry between the heroine and the hero but my main problem was that they were rarely together in the book. I swear they were only interacting for about 10% of the book. And the book was way too long. I was getting bored.

Not going to spend a lot of time on the review. Spent enough time on the book.

There are better SB books out there. Check them out instead.

Huff sure was a piece of work.

And Chris was no better. The apple doesn't fall far ...

Rachel says

[Not anything to do with the MCs, but regarding side characters yet. It didn't bother me because they were bad people all around, but Sayre's brother, Chris, was still married yet made it known that he slept around a lot - his wife left him and had her own affairs. Chris also was involved with a married woman throughout the book. It all comes back to bite him in the ass. (hide spoiler)]

Suzanne says

I'm happily adding this author to my go to list. Always quick to deliver romantic suspense, smouldering heat is always at the fore with her her storylines, it's always there. I like a strong female character, and Sayre (pronounces as rhyming with chair, or with two syllables with a southern accent) was the one here. What a skilled narrator! Characters were voices separately to the very smooth narration, I could listen to this guy all day. His voice was calm but always in control. Lots of characters to love and despise, and good solid twists to boot. I love a southern accent, and added to this, the descriptive elements of the hot climate against the

back drop of industrial wrong doings was as descriptive as it was entertaining. Huff was the patriarch with a dark dark history, at the reigns of an evil empire. Enter Beck as his legal side kick trying to smooth the waters in an agitated fed up community that are quickly tiring of this ruthless family and the empire it has built. Loved it as my work commute.

Glass says

My first Sandra Brown novel was a perfect experience. Thanks to Linda Howard, I started to read more suspense novels and it is slowly pushing down other genres on my favorite list.

White Hot is a story about small town people, mystery and corruption that will keep you wondering what happened and who is a bad guy until the very end. It is a bit longer novel, but every page would be worth your time. Other than the great story, main thing why I enjoyed it this much are characters. Adults who are actually acting like the adults and not kids with hormone issues.

It is funny how after reading for years, you can notice if the book was written over ten years ago or even more. I guess that even writers are following current trends so they are offering to their readers what they want. That is why I think that not everyone would enjoy White Hot or other similar books, because if you are expecting alpha males and damsels in distress from Kristen Ashley novels, you would be disappointed. But if you want something different, go ahead and read this book.

Laylaw says

3.5 just wasn't into Sandra Brown stars. It was okay, and wasn't a waste of my time but when you are used to sheer literary genius time and time again, this can't be anything but a disappointment. It felt cliche and predictable and at the same time so far fetch with other elements. My feelings are hard to describe but I read it and I will never regret reading a Sandra Brown story but this certainly was nowhere near her other books that I think are outstanding.

Some elements were very visual and some things took my breath away but at the same time I found myself shaking my head towards the end. No worries though because there are lots more Sandra Brown books to make up for this one and seriously how bad was it really if I scored it 3.5?

willaful says

Another awesome narration by Victor Slezak. The heroine's southern accent didn't always work for me, but otherwise it was perfect. The story is chock full of crazy: corrupt old Southern family doing all sorts of horrible things. Lots of fun twists and a hot romance. I don't know if I would have enjoyed it if I'd read it, but Slezak could make a pamphlet on savings bonds sound sexy.

Review Date: 10/28/2008

"OOOOH YESSS...WHITE HOT is Entertainment at it's BEST.....!"

WHITE HOT wondrously written by none other than the legionary talents of a True trail blazer& Gifted prodigy ...SANDRA BROWN!

((much)) props to the beautiful the eloquent....SANDRA BROWN...!"

You'll notice specially while listening on AUDIO....

WHITE HOT flames sparkles ...Tenaciously & Teasingly and yummmm what a nice savory Intense Kick it has!

..Yes indeed...Most definitely some will find that the AUDIO is the way to go if you wanna be Carried away...

After a hard consuming rat race of a day and your Inner self screams a Sweet Rapturous release YOU can find it in Relaxing with this READ.

WHITE HOT is your Remedy to get Carried away Audio Utopia Style..teeheee!

This reader experience..a soothing Cure or so to speak a bliss of pure listening pleasure that jumps starts ones entire Being with rhythmic vibrations ,also it can best be describe as.."OOOH Snap, what a wild Rush...WOWWEE..!!!"

As the Story line un folds into separate entities or piece by piece of life forces ups and downs struggles,plus survival of the fitness,who ,why what and How the HECK..?!!!
it delicately weaved into a it Story.

It's story is...ATTENTIONNNN...SIT UP TAKE NOTICE.. demanding while it peaks little by little then show signs of revolving, and at the same time blends into sharing portions of it's secrets.

The story teller makes it seem with little of ease(what a season Writer!) to connect,cross, and joined everything together...all as ONE all proper like.

Yet and still the climaxes kept being reborn with Bursts of explosion, dissolving in to colorful arrays of real life fast pace suspense ,romance & drama.

I didn't want it to end..but the ending was on POINT..holllaaa!

WHITE HOT subconsciously made me have thoughts &desires of reading RICOCHET also..yuppp by Sandra Brown...hmmmh..what a nice touch!

Prolonging the story for me would've continue to be a pleasurable intriguing delicious treat!
this Reader's deepest thought was...," noooooo...don't end...PLEAZZZE more....Mr. Victor Slezak.....aha a don't Stop!"

Then again,That's ONLY the Magic, the talents of SANDRA BROWN...affects on you.

This is one Reader whose glad to have thrown caution to the wind....

As I Listen I heard and took in the Story with an...OPEN MIND. Heyyy that's sooo American to demonstrate...my Freedom Choice!!

The Hero/Heroine blend&jellied very well together!

The Hero-BECK was smart,sexier than he had a right,also Tough too!

You know,this Reader was not at all taken back by the character,disposition of the Heroine.

It was different cause usually it's the HERO who act ornery,because of sigma's society places on us...we

don't say much about it..men acting out how they feel..it's the NORM. but when WOMAN...acts ornery she gets persecuted.

It's a wonder SAYRE...what a lovely name didn't have a breakdown...what a tough Cookie;O)
All the lemons that what smacked up side SAYRE head, and knives diggers thrown into her heart her feelings, however her actions & feelings were justifiable, also how her own blood/relatives mistreated her It sunk!

I felt Sayre's pain.

What a passionate Spitfire Sayre was and I give kudos to her for taking a stand for the TRUTH cause some folk wouldn't nor couldn't separate themselves from family the way she did!

Sayre was such a TRUE... SHE-ROE ,
like most STRONG BRAVE COURAGEOUS woman she endure hardship liken to a good solider.
I Champion for the love Sayre & Beck shared...even in the mist of sooo much pain, suffering & death...Love prevail in the end...!
THANKS once again Ms. Brown for entertainment at it's very, very BEST!
Best wishess!"

Courtne says

One of my favorite reasons to read Sandra Brown is that I know that there will be at least one or two surprises, even if I feel like I've figured it all out. "White Hot" did not disappoint in that regard. I wouldn't say the small town foundry with the crooked ownership lording over beleaguered workers is my favorite set up of hers, but it worked. This one was light on the romance, but I did enjoy a genuine connection between Sayre and Beck - it was rooted in compassion for people and that's so much easier to read than long passages of glorying in rippling pecks and strong jaws. A solid read that got me out of my slump.

Alex says

One of my favorites by Sandra Brown. Both leads were intriguing and effortlessly pulled me into their complicated world on the verge of exploding. Sayre is a fantastic female lead, both strong and vulnerable, and it was great to watch her battle both her own and her family's demons. Huff, her father, filled the role of the tyrannical father perfectly, but as readers we were also invited deep enough to see how damaged he was and watch this mountain of a man fall apart as his world crumbled. And Beck? An absolute favorite. His placement in the family was interesting and his banter and pull to Sayre was steamy.

All of these fascinating characters were then thrown into the mystery surrounding the murder of Sayre's brother as well as the fall-of-Rome type conditions at the family's iron foundry. Everything about this book was pitch perfect and it was one of the rare books that almost had me dropping it from its surprising, but oh so fulfilling, twists.

A perfect Sandra Brown book.

Pamela(AllHoney) says

Sayre Lynch returns to Louisiana for her brother's funeral. She left home years before vowing never to return. There she meets the family's new lawyer, Beck Merchant. When the police decide that her brother's death was not suicide but homicide she ends up staying longer. Sayre is then forced to confront past demons.

I read this book for several reasons. First, I found out it is going to be a movie on Hallmark. Cool! So second, it fit a few challenges I have chose to participate in. Third, it's been on my TBR shelf for quite a while. And then fourth, it's Sandra Brown! It was a fairly good book but not my favorite of hers. I struggled at first but as the story got going there were some interesting twists and turns.

Oana says

***Edit 29/01/2016**

Well, this time around I loved it. Not one of SB's best, still, a very engaging romantic-suspense, better than mostly anything in the genre. I'm so happy I gave this another chance. Yeah, I guess it's all about the timing.

26/06/2014

The written proof that even the authors of genius have their bad days.

♥Sharon♥ says

Okay so it has happened. I have stumbled upon a Sandra Brown book that hasn't blown me away. It will be added to my liked it but didn't love it shelf.

I finished it the other day and have been trying to figure out what really didn't work for me and honestly, it wasn't any one thing.

I liked the main characters. Beck was sexy and mysterious, Sayre was sassy and had a back bone and the side characters were interesting enough.

The plot had intrigue and had me wondering but when it all came together it just didn't wow me. I reached about the 30% mark and remember thinking something needs to change. And I am kinda bummed because for me it didn't.

Normally SB books make me do this....

But in the end it was more of this....

Not a highly recommended read from me but if your a SB fan, give it a go and see what happens. It really might be a case of it's me and not the book. :)

Melissa says

So this was the first Sandra Brown book that I ever read and was the one that started my obsession with her books! To this day it remains one of my favourite books of all time.

Huff is a manipulative tycoon with the town of Destiny Louisiana in his pocket.

Sayre, Huffs estranged daughter, returns to Destiny following the death of her brother Danny. There she must confront her father, her remaining brother Chris, and the new family lawyer Beck Merchant, after there is suspicion to believe her brother was murdered. So begins Sayre's quest to find the killer while trying to stay clear of her father.

Despite vowing to despise Beck because of her affiliation with her hated family, she finds herself drawn to him. With typical Sandra Brown style, there are many twists and turns and a touch of romance, until the ultimate conclusion - which I never saw coming!

I have read other reviews of this book saying that it is not one of Sandra Brown's best novels, but I totally disagree. The characters that she has created in this book have moved me more than her others. Huff! What a character! I have never loved to hate a character so much! And the tension between Sayre and Beck is so palpable and fantastically written that every time I read it I get goosebumps!

Sayre's past comes out gradually throughout the book and in the end you completely understand why she hates Huff so much and her family, and totally understand why she would distance herself from them.

Yes, I admit it does have moments where it moves slightly slowly, but even that cannot have me deducting a star from a book that means so much to me.

I must have read this book at least 20 times and it still gets me every time.

Sandra ~ ♥ Cross My Heart ♥ says

Classic Sandra Brown with twists & turns leading to a shocking reveal near the end. I was held captivated and couldn't put it down until I finished. Another Must Read by a Master! Full review to come.

Lisa - (Aussie Girl) says

I love Sandra Brown.. and darn it I just about worked this one out. Well, was on the right track anyway with concealed identities and characters not being what they seemed. But i will say at over 600 pages I thought this one could have been edited by about 100 pages and it wouldn't have detracted from the overall plot.

3.5 stars.
