*Breath of air, soul of fire,
Grant this night my heart's desire.
Womb of earth, tears of sea,
Bring my lover back to me.*

The Halliwell sisters are no strangers to Halloween hijinks. But this year, the Wiccan celebration of Samhain is met with a rash of destruction throughout the city. Upon further investigation, the Charmed Ones learn that the demolished buildings they've heard about are actually *melting*. These sites are in fact the location of dimensional portals, and they're under attack.

Piper, Phoebe, and Paige will need to secure these barriers in order to prevent all havoc from being released. But the demon working against them is no ordinary monster; it's a wraith, the product of a grief-stricken young witch seeking to resurrect her lost love. And hell hath no fury like a woman scorned....

Between Worlds Details

Date : Published May 2004 by Simon & Schuster (first published September 1st 2003)

ISBN : 9780743462525

Catalina says

La verdad es que me gusta Charmed desde que soy muy pequeña. La veía en la casa de mi abuela, cuando ella nos cuidaba (a mí y a mi hermana) hasta que mi mamá saliera de su trabajo, así que le tengo un gran aprecio a la historia original.

Por eso este libro fue muy entretenido para mí (por supuesto se que hay varios más, pero solo he leído este).

Se que no fue la gran maravilla...pero, para mí, se sintió CASI como estar viendo un capítulo más de la serie (volví a ver las primeras temporadas antes de leerlo para refrescar mi memoria y poder comparar).

Eso sí... creo que es una lectura para una sola vez...es entretenido, sí, pero no es para tanto. Además, dudo que sea entretenido una vez se resuelve el "misterio" (tal vez podría ser un libro para releer mucho tiempo después, cuando se olvidan todos los detalles).

Izabella (Pages Full of Stars) says

I've given it 4 stars but it's more of a 3.5. The book pretty much follows the episode formula and I could even tell when the break for commercials could be. The story is decent, though not hugely engrossing. However I decided to up it a star because of the interaction between the main characters, especially Piper, Phoebe and Paige. I absolutely loved it on the show and it feels just as good here in the tie-ins. All the parts where they would banter or joke around were a joy to read and made me want to re-watch Charmed all over again :)

Ignacia says

Tanto éste libro como La imagen en el espejo los leí hace tiempo y me gustaron mucho a pesar de que no son la gran cosa y no están muy bien escritos, pero Charmed es una de mis series favoritas de todos los tiempos así que fue genial leer estos libros.

Rose Heartfilia says

An interesting new concept. Which can be quite tough with that many books and episodes. This one wasn't that bad but for now I take a short break of these books because I am done with the sisters or actually the writing. However I will return soon to read them all!

Rosie says

Not a bad little book but it could've been better... It captures the speech and feel of the sisters in the living room/kitchen etc musing about everything else non-magical. But I just think it was slow, didn't flow well and was a little choppy. I feel it could've been better but has the episode-that-never-was vibe which is appreciated. Three stars.

Suvi says

One of the best Charmed books I've read. The plot pulled me in from the first page and it was refreshingly different, yet the writer had clearly done her research. I also liked the way Leo and Cole were included more than in most other books, though I have to wonder why no one was more worried about now human Cole.

Bethany says

I loved the television series of Charmed and when I was in hospital a couple of years ago my parents bought me this book to occupy some of my time.

It was ok- as the two stars suggests. I just didn't like the writing I think. It was a while ago but I remember the gist and thinking that the personalities felt dull and flat compared to those on the television programme.

Gabriel Mero says

Another great Charmed book. It read just like an episode.

Michelle Theodoulou says

Always like Halloween stories and making reference to their origins.

Gwen says

Nice book, very imaginative but still realistic. Very vivid images as well, definitely a nice read.
