Beyond Repair

Susie Tate

Beyond Repair Susie Tate

Everybody loves Katie; with her bubbly personality, her beauty, her never-ending supply of care and support for her patients and friends, and her huge sense of fun, there's very little to dislike. Yes, she's a bit scatty, she tends not to sweat the small stuff (like an engine light on her dashboard – that is until her Mini won't actually start any more), and she can talk the hind legs off a donkey, but none of that stops most people from thinking she's pretty damn adorable.

Well, most people, other than Sam, that is.

Sam is anything but bubbly. His surly demeanour is the complete opposite of Katie's, and over the six years that she's known him one thing has become very clear: Sam cannot stand her. The fact that he makes her nervous doesn't help the situation. Around Sam her verbal diarrhoea seems ten times worse, the snort that she tries to hold in when she laughs refuses to be suppressed, and her clumsiness assumes clown-like proportions.

If only he weren't quite so intimidating, she might be able to act like a normal human being, but his sheer masculine beauty is enough to throw her off before she's even spoken to him. Then there's the fact that he looks at her like she's something he's scraped off his shoe. The combination is enough to short-circuit her brain.

Katie may be bubbly and bright but unfortunately her past is not, and it's started leaking into her present. She hides her fear from her friends as they have problems of their own, but when Sam finds out the potential danger she's in, for some reason he is furious.

Then again, there's a reason Sam is the way he is. He has his own demons to contend with. Shutting himself off and burying his pain has been working well for him over the last six years since leaving the Special Forces, so the last thing he wants is to spend any time with the one woman that cuts through the numbness he surrounds himself with and actually makes him feel again. But he simply can't stand by if Katie is in danger; he can't allow her to be hurt. Unfortunately there are other ways to be hurt, and by getting closer to Katie, Sam may inflict more damage than her past ever could.

Because Sam is damaged, and some things are beyond repair.

This is a full-length contemporary romance / romantic comedy with its own HEA and no cliffhanger.

Warning – Beyond Repair differs from Susie's other books in that there is some violence within the story. If this, combined with some swearing at times, is not for you, then it may not be your cup of tea.

Author Background

Susie Tate is a general practitioner now, but she has also spent years working in hospital medicine. This the first of her books to be set in general practice and she hopes that it will give readers a feel for what it's like behind the scenes, as well as being a funny, at times heartbreaking story.

Debbie "Buried in Her TBR Pile" says

Thanks to the author for responding to a request from me for this book and thanks to AlexaG for recommending it to me.

This is the second book I've read by this author and it won't be the last. I like the characters, the story, the interactions between the MCs (Katie and Sam), all the characters in this series, and the Welshisms (I want to use twp in a sentence if I was sure about how to pronounce it.)

I was a little worried that this one would not be as good as *Broken Heart Syndrome* - I rated BHS a solid 4 star for me.) I sometimes have problems with the descriptions of characters and they can turn me off but this was not done repeatedly or in a way that took me out of the scenes or story. Katie is just what the doctor ordered for Sam and for Goodie as well.

Another solid 4-star read for me. I'm off to read *Sticks and Stones* and I am looking forward to Goodie's story. Looks like this author may become an auto-buy for me. I think she changed my book slump juju.

Lynn Newman says

My first time of reading a book by this Author & it certainly won't be my last. Although it is a standalone book, I've fallen for the characters involved in this story, I def want to read more. The story of Sam & Katie, made me laugh , made me sad, made me think and sure does make we want to visit Wales again!

Alexa says

**** Received a free copy from the author for an honest review ****

This is the third book I've read of Susie Tate's and like the other two, I have given it a BIG FAT 5 STARS.

What I love most about this book and the others *Broken Heart Syndrome* and *Sticks and Stones*, is the interaction and dialogue between the characters. It's full of banter and Welsh-isms which are just hilarious. The main characters in this story, Katie and Sam, both come with difficult back stories, but it has been written in such a way that it supports why the characters behave and feel the way that they do and is not just used as a plot device to add shock and melodrama (a pet peeve of mine).

The story is told through the third person perspective and without giving too much away, almost follows a *Pride and Prejudice* theme, which is always a winner for me.

The supporting character, some of which we have met before in previous books, are great and really add to the story. My favourite character in the whole book though would have to be Goodie. I really do hope she gets a story of her own.

:)

Bwmurf says

1/24/18 just finished reading first 2 books in series and I am unsure why I thought they didn't grovel enough. I still loved both of them, yes there could have been a little more grovel from Dylan I think but it was sufficient as is. That being said I think I'll skip reading this one again and give Goodie's book a try.

Not my favorite

This is definitely not my favorite book by this author. I think the hero was a major arse and was forgiven way too easy way too often. I prob won't read Goodie's book, if I remember correctly the previous books had little grovel from heroes. so i don't want to take my chances on the next one.

Hollie says

I'm a sucker for a "broody" hero but this book almost took it too far. He went above and beyond to be hurtful to the heroine just so he could avoid her. He continually mentioned how he "wasn't good enough for her". I can handle this book trait to an extent, but at times I did find it highly frustrating. The push and pull was ongoing. I did like things once he got his act together. The heroine was adorable and I really liked her character. I'm definitely going to read the next book in this series because I found "Goodies" character highly intriguing. Glad this was offered as a kindleunlimited.

Andrew says

Great book!

This was such an excellent read with all of the humor and heart needed for a great story that makes you laugh and tugs at your heart without being over the top. Excellent book and the writing was fantastic I love this author!!

Marie Rich says

This was an Amazing Book

I am American so the language differences were fun, especially when at the end of the chapter she described the unknown word as posh, which really doesn't clear up the translation for an American. But I loved this story . I thought the lead female was positive, adorable and forgiving and the male lead was hopeless,

unforgivable and sexy. But they were two parts of the same puzzle. Loved it. Read it now.

Emmy says

So the writing was as strong as the first book I read by this author, but I had some problems with the story itself this time. Mostly around the behaviors of the leads. Sam decided like half a dozen times that he needed to stay away from Katie and it was just...exhausting. Once? Fine. Twice? He better do a lot of groveling (he didn't). There should not be a third or fourth. But there was and Katie didn't even make him work for it.

Now when you get to the end and find out that Sam has had PTSD this entire time its more forgivable/understandable, but now I'm wondering why Katie (a doctor) didn't figure this out a lot sooner.

There's also a whole plot around Katie having a stalker ex-boyfriend that I also wasn't enamored with. What I liked about the other book by this author was that it was more simple, everyday-type dramas. The ex-boyfriend who runs a drug and prostitution ring and then tries to kidnap Katie took it into the realm of the less realistic a bit.

I still mostly enjoyed it though and it was well written.

Kamila says

I received copy of this book from the author but I wasn't asked to write a review, just to let her know if I liked it.

This is another thing why I absolutely ADORE Susie Tate.

The main reason though is her incredible talent for telling stories that grip your heart, that let your imagination roam and give you lots and lots of laughs.

'Beyond repair' is a third book by the author.

So, we keep the medical theme(Susie herself is a doctor IRL lol), like in the previous two, but we slightly change scenery from the hospital in the city, to private practice in a small town; where everyone knows each other and it's very hard to hide anything.

Katie, for years had been secretly pinning after Sam, but she was sure she never stood any chance with him. He HATES her, it's simple as that.

He's dark and handsome, he doesn't talk much and he gives away a massive asshole vibe.

So why would a good and lovely person like Katie, be even worried what he thinks of her?

There is something in him that she sees and she's hoping that she can find a way to save his troubled soul.

I loved every page and every chapter.

Everything just felt right when reading.

I wouldn't change a bit in the story or in the ending.

Susie Tate is on her way to becoming a great author and gaining great popularity.

I definitely recommend the read and give it heartwarming 5*

Michelle says

It has been a while since I have read this book however I remember my dislike for the H and the over the top zany of the h. It was all right. I give books a star if I make it to the end because I will quit in the middle and go look for a review with all the spoilers.

Carole Ann says

3.5 Stars

DawnMarie Carpintero says

Not sure

4 stars

This book was good. It wasn't over the top exciting. It has the drama that we all seek in our reads but also something more, this author took on a task that brings light into ptsd without really going on about it till the final chapters and even then it wasn't full blown which surprised me. When touching on a subject such as ptsd I really did expect more knowledge but then again maybe it was just the right amount for this book. Sam is hot lol

Happy Sexy Reading

Becky says

Great read!

This book was hard for me to put down. I found myself even reading on the small screen of my phone. If you like a bit of suspense and a lot of fun, pick this up, you won't be disappointed!!

Carol (StarAngel's Reviews) Allen says

Book – Beyond Repair

Author – Susie Tate

Publication Date – October 11, 2015

Genre – Romance

Type – Stand Alone

Cliffhanger – No

Rating – 4.5 out of 5 Stars

Complimentary copy generously provided by the author in exchange for an honest review.

My Thoughts - Story

Hmmm...my thoughts?

Well, there are a limited number of overseas books that I really enjoy and this was definitely one of them. I thought the language barrier made this book and I found it adorable. Just as I found Katie. She was so freaking cute and made this book a winner. I loved trying to figure out what the Welsh slang meant and how everything was solved with a cup of tea!

A book like this was fast paced and the author did a great job with the characters – especially her development of Sam. From the grumpy, pompous ass that he was in the beginning to the over protective, pompous ass he was toward the end – there were so many times I wanted to smack him upside his head.

Enjoyable story from beginning to end with tons of flip flopping from Sam's part to our comedic poster gay guy...Russell!

There was only one thing that I had a little problem with and that was the sudden switch of Sam – I think I would have liked that drawn out a bit more – especially with more of the snippy banter between Katie and Sam.

Re-Cap

Katie has always had a crush on Sam (her best friend's husband's best friend) but he won't give her the time of day and even lowers himself to complain constantly about her to his friend. Until something happens to Katie that suddenly has Sam showing an over-protective streak. Between Katie's ex-boyfriend (drug/sex dealer) stalking her to the point of it being illegal and Sam trying to get past what happened in his past – Katie seems to be the only one who can bring an ounce of happiness and sunshine to everyone.

As Katie helps Sam learn to live again, their relationship grows and secrets are shared, but are they both strong enough to make it?

Reason for Reading – Author Request

Story – 5 out of 5 Stars

Steam – 4 out of 5 Stars

Angst – 4 out of 5 Stars

Writing – 5 out of 5 Stars

Content Flow – 4.5 out of 5 Stars

HEA (Spoiler) – (view spoiler)

Would Read More from Author? Definitely

Recommend To – Everyone who loves a romance between a tortured soul and bubbly, rainbow living angel

Anne says

Really enjoyed this book!

I'm not comfortable writing reviews, but made an exception for this one for a couple of reasons. This book made me laugh. A lot. It also made me cry and really feel for the characters. This is the first book in the series that I've read (but it won't be the last) however it don't the first in the series. It would be helpful if the books were numbered so they could be read in order. And being a lifelong Texan, I never realized English was also a foreign language! Turning on the UK English dictionary in my Kindle helped with the British translation and the author helped with the Welch. I'm looking forward to reading the other books in the series!
