Boss Rules Victoria Quinn

I've got skeletons in my closet.

So what? Who doesn't?

But I find myself wanting to raid her closet.

I'm familiar with strong women who rock the business world.

But I've never met a woman like this before.

I don't want to share her. I don't want her to slip through my fingertips.

But if I don't keep her, someone else will.

Omg I loved this book. I was very hesitant on the last book because I wanted more Tatum and Diesel and less Thorn and Vincent. But this book actually evened the story lines out. I really hope Vincent gets over his fear and gets his happy ending. I really wanted to hate Thorn but he is growing on me. You can totally tell he has strong feelings for Autumn and that he is fighting them hardcore. I love that Tatum and Diesel are finally getting their happy ending they deserve! I can't wait to see how this story end but also sad at that same time for it to be ending.

Jennifer Hevern says

Love is a beautiful thing! Or, is it? I'm totally loving all of the "stories" in this series. We get more of Diesel & Titan and now there's Thorn & Autumn and Vincent & Scarlet. Victoria Quinn does a fantastic job weaving all of these tales together. Making us love every single character. Yet, she does not hand it over easily. It's done in a way that keeps you questioning everything you thought you knew and begging for more. Can't wait to read the final book in, what has come to be my favorite series of the year so far.

I'm kinda sad that Diesel and Titan story is almost coming to end but I'm also really enjoying these duo POV. Even though my main focus is on Titan and Diesel relationship I like seeing the struggle that Vincent and Thorn is going through in their own relationships. In general this series has been such a emotional journey but I loved every moment. I'm looking forward to seeing what's in store for everyone and hopefully everyone gets HEA they deserve. I voluntarily read and review this ARC no minority compensation was received the opinions I have expressed are my own.

I am really enjoying this series! I know I've said it a lot. We move through Diesel and Tatum's story in the beginning of the series, but also fall in love with the secondary characters. Now we not only get their love story, but also Thorn and Autumn's story and Vincent and Scarlet's story. I am loving the way all of their stories are growing.

Watching Vincent fight so hard against what he wants made my heart hurt for him. It's beautifully written. His love for his wife was so strong that he doesn't think he can love again without it being disrespectful to her memory. I loved that his talk with Tatum had him looking at it differently. I love that we went from not seeing Vincent's thought processes til now.

I am loving that Thorn has done a complete turn around on relationships only he isn't seeing it yet. We see Tatum also show him what he isn't seeing yet. I can't wait to see how his story is going to continue to

evolve. I am really liking Autumn. I want to see her take him in hand, and make him fall in love. I think he already has, but he's refusing to admit it.

I recommend these books highly!

This book was by far one of the best books of the entire series!! I am so happy that everyone had a part in this book and it touched on everyone's lives. I absolutely loved seeing Thorn and Autumn get so close I just hope that he can pull his head out of his butt so he doesn't lose her. Vincent and Scarlett just make me happy, you can tell that he really cares for her in a way that he has not cared for anyone since his wife passed, but he deserves to be happy again and not live a life of solitude. But what I am really excited about is Diesel and Tatum's wedding OMG!! It is going to be amazing. I really can't wait to see what the next book holds and I know it will be amazing!!!

Nicki - The Overflowing Bookcase says

With Titan still recovering and going a little stir crazy from being out of her element for some time, the saga continues to focus on a Thorn and Vincent. Thorn finds himself letting all of his secrets go with Autumn and actually invites her into the same deal he had with Titan. But when she walks away he finds himself in a world of hurt. Will this be finally the one that can open Thorn to love? Vincent on the other hand admits he wants more with Scarlet, but can she stay with a man who still loves his dead wife? Will Diesel and Tatum really get married? We will have to read more in the series to find out. I absolutely love these characters and as much as I want to know if everyone gets their HEA I am afraid to let them all go and have nothing left to read.

Patricia H says

Thorne surprised me,!

I use to think that he was really incapable of love. Now he's totally in love with Autumn, and he doesn't even know it. What's up with Turns mother?!!! What's her story? What's the real reason she abandon Titan, at such a young age? Has Diesel father, Vincent finally found love, with Scarlet? What about Brett, and Jax? Will they find love too? I cannot wait to find out!!!!?

Samm Lynn says

Once again, the author finds a way to keeps us vested in this great story. Titan and Diesel are finally approaching the culmination of their relationship with only a few minor skirmishes to overcome (what did you expect smooth sailing from two such strong willed people? - never going to happen). Now Vincent and Thorn's lives are heading for turbulent waters with the continued appearances of Autumn and Scarlett. Once again the author gives us more independent, strong-willed characters to care about and keep us glued to the

pages waiting to see what will happen next. Life is never easy and even though these fantastic characters have all the money and power they could want, I think the author loves tossing them a curve ball - just to see what happens.

Grab this great serial and get ready for quite a ride and some smoking hot sexy time.

I received a copy from the author and I gladly reviewed this book.

These two

So much power! I love finally that there is a power exchange dynamic. Rarely do we get to see women in charge and commanding a space. We need more of that in sexy women's literature.

Now We're All Getting A Chance To Play

We rejoin the merry gang of Tatum, Diesel, Thorn, and Vincent and this captivating saga just continues to mesmerize as we explore everyone's potential for true happiness. To say that Tatum has been going a little stir crazy is kind of a massive understatement. Her recovery is going exceedingly well, but it's not quite fast enough for her time table. After all she's got an empire to run and more importantly a man to marry! Getting Titan to take a beat for not only her own health but his sanity's sake is probably a non-starter. After all he needs his Boss Lady healthy enough for a trip down the aisle. Thorn has found himself in a situation has he hadn't previously thought possible. Autumn has both brains and beauty, but unlike his previous dalliances his feelings might actual be involved. Thorn is feeling possessive, intrigued, and conflicted leading to him wondering if Autumn could be more than just a passing fancy but a real future. Vincent knew that when he stepped outside his safe comfort zone of meaning liaisons he might be getting more than bargained for. Scarlet is brilliant and gorgeous, making him yearn for things he hasn't wanted since the passing of Isabella. It's both scares him and makes him feel guilty. Allowing her in seems disrespectful to his late wife in a way his past relationships never even came close to. With what can only be described as high stakes on the line, if they want to be happy they will all have play by their own set of rules.

Jennifer Lamb Pritchard says

Titan and Diesel continue as they work on returning to work and planning their wedding. Vincent starts to fall in love, calls his relationship off, then realizes his mistake. Him and Scarlet start to make amends to see where their relationship can lead. Thorn and Autumn.... most of this book is their story, ending with them both heartbroken because Thorn has himself convinced he'll never love. Hoping to see them fix everything is the final book. Lastly, Titans mom comes back in the picture, but Titan isn't interested in who she is or what

she wants. Can Titan open up to her and start a relationship? Cannot wait for all the answers to come in book 9!!!

Amy Toward says

I loved how this book delved deeper into the romances of everyone. I loved watching Thorn and Autumn become closer and Thorn not understanding what his feelings mean. I can't wait when he finally realizes. And I was very touched by Vincent and his emotions regarding Scarlet. He was unexpectedly very romantic. And a joy to read. And as usual, Titan and Diesel are fabulous and hot. I just adore them together. I can't wait for the big wedding and to see how everyone's romances emerge.

Kennedy says

These books keep getting better and better. I'm so sad they're ending. I love seeing Diesel and Tatum so happy together, and I'm so glad she's getting back to her strong self. I'm so excited to see what happens between Vincent and Scarlet because they both deserve to love again. Plus I'm hoping it makes his relationship with the boys a bit better. I wanna see how things go for Thorn because I believe he loves Autumn the way she wants him to but he doesn't want to accept it. The there is the matter of Bridget, I really want to know what's going to happen with that. Will Titan meet her and be upset or will they start a relationship?

Klappentext

Ich habe meine Leichen im Keller.

Na und? Wer hat das nicht?

Aber ich will in ihrem Keller nachsehen.

Ich kenne genug starke Frauen, die sich in der Geschäftswelt durchsetzen, aber ich habe noch nie eine wie sie getroffen.

Ich will sie nicht teilen. Ich will sie nicht verlieren.

Denn wenn ich sie nicht halten kann, wird sie ein anderer bekommen.

#MeineMeinung

Diesel und Titan haben ihre Bücher für sich alleine gehabt, aber die Story rund um Thorn und Autumn, dazu dann auch Vincent und seiner Lady, werden hier zusammen geschustert.

Auf eine gute und zusammenhängende Art, aber das sollte ihn klappentext ersichtlicher sein.

Der Schreibstil oder die Übersetzung sind wesentlich besser geworden, okay zum Ende hin wurde das in der Story leider wieder mehr plump, aber ich hoffe ehrlich das wir das im nächsten Band wieder umschiffen.

Madeleine East says

Let me begin by saying I am so happy Thorn got his own story but, at the same time I was getting annoyed with Autumn. I know she doesn't really understand the dynamics of Titan and Thorn's relationship but, good God woman. Someone better come to their senses soon! I couldn't wait to get home to start reading this book. Finished it in one sitting.
