### Misty Goan says

An awesomely written and executed action packed, very dangerous, revenge seeking, explosive hot story. That includes the right amount of danger, mystery, suspense, action, intrigue, steamy chemistry and drama. Likeable interesting characters that both struggle with trust issues, they are kinda damaged all from past circumstances. The stories descriptions on the plot development, the settings, the action taking place, and execution is flawlessly written making you feel like you're right there gluing you to each page hoping and waiting for a HEA. I can't express how much I enjoyed this dangerous, battle of wills using temper and pride as they navigate thru. Olivia and Gabe are both very stubborn and used to being in control that they seem to spend their time insulting, repelling, loving, hurting each other during their exciting relationship with off the charts chemistry. Gabe will seduce, admire all before threatening Olivia to follow him back to Chicago for revenge on her ex stepbrother who she ultimately ends up wanting revenge on also, but can Gabe and his friends keep everyone safe. He partners betrayed him with shabby work, faulty equipment and cooking the books before one ends in jail and the other he wants revenge on. A must have story that will keep you on the edge of your seat from the beginning including thru the steamy sex. I voluntarily reviewed this standalone ARC and highly recommend.

Gabe has worked hard all his life to build his business only to have his partner all but destroy it. After his business partner is sentenced to jail time he learns that his son Devlin has stolen from him as well and is on the run. How will he handle the situation? Gabe learns that Devlin has a sister and he is hoping to find her and get her to lead him to Devlin.

Liv, well she is a spit fire with secrets all of her own. She's broken and will not let a man ever hurt her again. But will Gabe break down her walls?

This was an awesome story!! Loved the chemistry between Gabe and Liv. They both want to be in control and are set in their ways. Who will break who down. Will they both break and find love.

If you're looking for hot, steamy & great story line this is a must read.

Thanks Jessica for once again delivering a 5 star book.

I received ARC copy of this book and I am gladly leaving my honest review.

Super Strong Characters – Will they love or kill each other?!?

Gabe is recovering from his business partner taking him for millions, and dragging his company's name through the mud. Like father like son. Father is in jail, but the search begins for the son Devlin. An attempt to wrest that info from the step-daughter Olivia reveals a bar-owning, bat-wielding, Ducati-riding dynamo who teaches self-defense in the worst parts of town. She doesn't act like a pampered princess.....

Liv goes up in flames when Gabe makes himself known at her bar. She usually keeps things casual but Gabe definitely gets under her skin. When news coverage of the trial makes clear he purposely pursued her she is so not happy.

Danger, intrigue, and high heat follow this pair as they work to find Devlin and remedy all the damages brought to the company. But will they handle the damages on a personal level? One of my favorite reads this year!!

This is like a definite one click scenario,,,,, take this book, a glass of wine, and a fan for those steamy scenes,,,,, I definitely would totally recommend this book to anyone ,,, I will totally be purchasing this book for myself,,,

Exciting story where the plot and the characters create an addictive romance

Very good story in which intrigue and romance are as important as each other. It's full of actions and some reversal, rather warm scenes between perfect characters, with real temper and probably too much pride, but which are only the products of their past. They don't trust anyone, not even themselves. They spend their time loving, hurting, repelling, insulting, each other, but their relationship is exciting.

In Chicago, Gabe's former partner is judged for fraud and his son, Devlin, a crook too, has disappeared. To find him, Gabe makes contact with Olivia (Liv), the ex half-sister of Devlin. She has a bar in Detroit and is a real tough girl. He quickly understands that she doesn't have anymore relations with her ex-family, that she's different. He admires her, seduces her, then threatens her because he needs her to follow him to Chicago to find Devlin, whom she also wants to take revenge on. But once in Chicago, they suffer from several attacks against them two.I voluntarily reviewed an Advance Reader Copy of this book.

It took me a few chapters to really get into the story - which is why it's 4 stars and not 5.

Once the story really got rolling though, I could not put the book down.

The main characters are Liv and Gabe. Right away, the sparks start flying between these two. They have a common enemy that they work 'together' to bring down. Revenge blinds them both to the feelings that are developing between them.

Liv is a badass who turned tragedy and abuse into self reliance and defense skills. Gabe is a self made business man who has serious trust issues and a strong possessive streak.

The plot has even suspense to keep me turning the pages and enough heat to keep the story really going! :)

I'm really hoping all of Gabe's friends get their own stories as well! They were a great list of supporting characters and I would love to get to know them all more!!!!

I love a feisty, take-no-prisoners heroine, but whoo-boy! Liv is a firecracker with an extremely short fuse. Force her to deal with Gabe, the brooding alpha billionaire, and you've got a mixture of fire and gasoline. The chemistry is going to light up sparks, but there's a really high chance somebody's going to get hurt. This pair is incendiary together, and I still haven't made up my mind if that's a good thing or a bad one. One thing's for certain, their story pulled me in and kept me glued to the pages. This is romantic suspense that will leave you aching to know what happens next.

I received a complimentary advanced copy of this book.

### **NICHOLLE ANDERSON says**

Let me start off by saying there were so many of the finer details in this book that I loved, it made it absolutely impossible not to give it 5-Stars. First off, Jessica Blake gave us a powerful, stubborn and bad a\*\* heroine in Liv Redmond. She's a fighter with an amazing "take charge" personality that makes you just wish you were her friend. She loves 90's rock, she wears bad a\*\* clothes and she takes charge of her life when others would have crawled and hid. Gabriel "Gabe" Ainsley is her perfect pair. He too has a powerful personality, even if he's dealing with "blow after blow" to his corporation and his image. He's learned a lot about business the old school way, by getting his hands dirty, and his only down fall is putting his trust in the wrong people. The pair together are a "power couple" that you can practically feel the push pull on every page. So many things about this book go so against the typical stereotypes, and I loved every minute of it!!!

What a great read!

In this story we meet Olivia and Gabriel.

Olivia is a badass woman that took all her earlier suffering, from when she as a teenager and used to build the woman she is today. Really, Olivia is my new girl crush, she is amazing!!! She is incredible, independent, strong, fierce, courageous and brave. She is a role model! I can't express enough how much I enjoy reading books with strong female characters! It is so gratifying!!!

Gabriel is the billionaire that had a traumatic experience as a teenager and that experience helped create the man he is today however, it also stopped him from trusting people and from letting his feelings take over, specially in his romantic relationship.

*"I kissed her. It was like coming home."*

This story is filled with action, suspense, bullets flying, fires and scapes, but also, filled with love and companionship.

This was an amazing read, I really enjoyed it. It deserves the 5 stars.

#### **OH MY LUCKY STARS!!!**

OMG! OMG! OMG! This is one read that totally blew me away. Man, Jessica nailed this bad boy right here. You get all the excitement, drama, spine tingling, heart pounding, action packed, hard hitting moments that will take your breath away. The two main characters chemistry is off the charts explosive. A connection so strong it cannot be denied. The characters are all well developed and complex. Their personalities are so vast and different they play off one another perfectly. The scenes are vividly detailed and descriptive it paints a fantastic backdrop that really makes the storyline pop. The heated scenes are steamy and alive. Talk about hot under the collar. Whew! I had to throw my reader in the freezer for a moment. It was smoking. All the twists that pop up and detour our main duo with enough turns you wonder if they might be part bloodhound. This read captivates from the start and holds your attention until the last word. This is a no-brainer one click. Jessica did a magnificent job bringing this read to life flawlessly. Great job Jessica, thanks for sharing this awesome read with us.

Claiming My Vengeance by Jessica Blake 5 Stars

This book left me with multiple different emotions. It is an action packed, thrilling romance story. I didn't want to put it down! This book contains everything from suspense to romance. It is in dual point of view between Gabe and Liv. They are both stubborn, hard headed, and controlling. Both being scorned in the past, neither were looking for anything more than just a fling. Gabe was out to get vengeance against two men who stole from his company and ruined his company's reputation. Liv just wanted to run and hide from her dark past. Neither one knew how to give up control or how to give love. To say the least, these two fought constantly but they had chemistry between the sheets!

This story is a rollercoaster ride and a page turner. The reader won't want to put it down! It is one of those stories that keep you on the edge of your seat waiting to see what comes next. It has so many twists and turns! I would recommend this story to anyone who appreciates a hot Alpha male and a sexy female who keeps her own!

## **Velvet Messer says**

It took me a little bit to get into this book but once I did it held my attention. Gabe and Olivia are complete opposites who are drawn to each other, have major chemistry but don't really want anything to do with one another. The passion is tense and there is no denying the inevitable. So for the most part they don't. They share a common goal which neither know about but ultimately work together to achieve it. There are many bumps and twists and turns therefore the suspense element was there which I really liked but it was also a bit predictable as well. However that being said it was still a good read. I love Gabe's grandpa!!! He added a lot of character and humor to the story. He was blunt as hell and didn't take any s\*\*\* from anyone including Gabe. You can't not love him and will find yourself chuckling during most of his scenes. Such a great addition!!! My only complaints about this book are that it was too predictable at times and that the epilogue should have been a bit more about Gabe and Liv. However it was still a good read!!!

“Claiming my Vengeance” by Jessica Blake is such a terrific book. I am literally blown away at what a wonderful book this is. From the very first page I was caught up in the lives of Gabe and Olivia. You get everything with this book. Edge of your seat suspense, humor and sizzling hot romance. Each and every part of this book had such incredible details. Jessica brought these characters to life in such an amazing and sexy way. Chester was one of my favorite characters that totally added to this story. I can't begin to describe how much I loved this book. The depth of each character was terrific and so well developed. This author makes the good characters great and the wicked characters terribly evil. This is a must read book. I did not put it down until I read the very last sentence. I can't wait to read more from Jessica Black. I voluntarily reviewed

an advanced copy of this book.
