Dogme Et Rituel de la Haute Magie

Éliphas Lévi , Liphias L. VI

Dogme Et Rituel de la Haute Magie Éliphas Lévi , Liphias L. VI

Born Alphonse Louis Constant, French magician Eliphas Levi (1810-75) wrote prolifically on the occult sciences. This highly popular two-volume treatise on practical magic attempts to initiate the reader into the mysteries of occult philosophy. Identifying magic as the 'nurse or godmother' of all intellectual forces, Levi proclaims his firm belief in man as microcosm of the universe, the strength of human willpower and the effectiveness of sympathetic magic. Taking a more practical focus than the first part, this second volume, 'The Ritual of Transcendental Magic', focuses on the rituals and ceremonies of Western occult philosophy, offering explanations for magical equilibrium, the use and consecration of the pentagram, talismans, necromancy, transmutations, the Sabbath of the sorcerers, witchcraft, and the alchemical work of Nicholas Flamel and Raymond Lull."

Cix says

Edizione Harel con codice ISBN stampato ma che non corrisponde a nessun libro, cosa che non succede con il gemello : Il Dogma Dell'Alta Magia di cui l'ISBN è esatto.

Eternal Student says

Fascinating, didn't expect much from Eliphas Levi but I was utterly wrong, the second book definitely is my favorite. Going to be reading this work soon again, exceptional occult material.

Bruno Sia says

Since Gurdjieff's book I've not read something so complete like this. A definitely guide for life.

Justin says

Explained as clearly as I've heard, but not for me

ASalazar says

A work full of pagan, religious and mythological trivia. It promises occult wisdom and powers to shape your environment, but that's the carrot on the stick for the credulous and naive.

Take it as a essay on occultism and you might enjoy it. Take it seriously and you will only lose many hours of your time.

Ana Loera says

Es demasiado cristiano para mi gusto.

Edric Unsane says

A well done translation of French Occultist Eliphas Levi's The Doctrine and Ritual of High Magic. I was

both surprised and elated of just how much of the contents of the book is still relevant to modern Occultism today. I was also a fan of the notations found throughout the pages as they clarified a great deal of obscure references. John Michael Greer and Mark Anthony Mikituk did a wonderful job with the new translation and I highly encourage people interested in the Occult to give this a read.
