**Filthy Boss** Penny Wylder

**Get ready to leave your panties at the door.**

The first thing Alyssa—my brand new secretary—said to me was that we needed to keep things... Professional.

She acted like I was some wild animal. Like I might grope her in our first investor meeting. It infuriated me—not because she was wrong, no. She was right about me. I was definitely an animal.

It just pissed me off that she thought she could tell me what to do.

I was the boss.

Not her.

But fine. I tried to stop thinking about her long hair, her decadent curves, her intoxicating scent.

And I could have stopped fantasizing about her.

Until I found her fantasies.

Alyssa has been writing about how much she wants a man to control her. A man who can make her kneel, beg, sweat and moan.

A man like me.

My secretary has a secret—one I'm ready to use against her.

I'm about to see how professional she *really* wants to be.

## Eve Recinella (Between The Bookends) says

A short insta-love and SMOKIN hot office romance....

*"The sight of Alyssa spread out in front of me, dazed from her orgasm, is nearly enough to make me come. The hungry look in her eyes when she saw my cock is definitely more than enough. Having her under my control is like a fire has been lit inside."*

Even before Alyssa starts her new job, she has been warned to stay away from her manwhore new boss Charles. Rumor has it he has a thing for his secretaries. Alyssa doesn't plan on being the next notch on his belt, so she lays down the law. Everything will remain *professional* between them. That doesn't stop her from having naughty fantasies about being dominated by Charles. So what is a gal to do? She posts her naughty thoughts on an online website. Which is all fine and well until the day that Charles reads those fantasies for himself, and suddenly remaining *professional* takes on a whole new meaning...

**Filthy Boss** is Miz Wylder's debut novella, and I have to say, I was REALLY impressed with this book. The writing was fantastic and the plot was interesting and flowed nicely. The characters were likable and pretty well rounded for this being a short book. There is a side plotline that I think could have been fleshed out more, but it didn't take away from my enjoyment of the overall story. This is insta-love at it's best and without a lot of angst. Charles wasn't a manwhore, but he WAS smokin hot and sweet. There is really no OW/OM drama or pushing away. Charles likes to be in control, but I would classify this as BDSM light (blindfolds, tying up, orders) It ends on a 6 months in the future epilogue that I wish had been farther in the future. Apparently though you can sign up at the author's site and receive an extended epilogue.

Overall I really enjoyed this one, and will for sure be keeping my eye out for more releases from this very talented new author.

---

## Janey says

4 Rule number three stars

Alyssa has scored a new job, but her only problem is it's as secretary to the notorious womanising Charles Saxon. She's determined not to become another notch on his proverbial bedpost, so suggests to him that they need to keep things professional.

Charles isn't happy with Alyssa's request, not only because his reputation has no foundation, but he also resents the controlling suggestion.

What ensues when Charles gets sight of Alyssa's closely guarded fantasy list, is his decision to be anything but professional.

I adore a good office romance, and this was a goodie, albeit short. I enjoyed Penny's writing, given this is her debut novella offering, and I liked both of her MC's. In a limited number of pages, she managed to establish a great character connection, as well as a well crafted story. This was assisted by alternate POV's, which always gets the story rolling.

In summary, i enjoyed the short time I spent with Mr Saxon the Dominator.

### **TheresaDK says**

#### **4 "I got me some nookie"-stars!**

This was an excellent, short, sweet and steamy office romance!

I thoroughly enjoyed it!

---

### **Bookloverme says**

[Not true. He never had sex with any of his secretaries. Never did anything with them. (hide spoiler)]

---

### **Emily says**

When Alyssa is hired to be the secretary for Charles, she gets warned right away about his tendency to sleep with his secretaries. It is only a matter of time though before she realizes she believed a false truth. Charles wants Alyssa and once she is on board on seeing where the attraction will lead he plans to make sure she knows she isn't going anywhere. However someone else seems intent on splitting them up.

Fun story. Was a bit quick and I think I would have liked it longer. When Charles and Alyssa meet it is pretty funny.

---

### **Lisa (Remarkablylisa) says**

MOVE ASIDE ALEXA RILEY BECAUSE PENNY WYLDER GOT ME GOOD.

Her novellas are short but unlike other novellas you grab from off the market, Penny Wylder delivers sexy short reads with strong male and female characters who fall head over heels in love AND with little to no dumb events! For example, the males typically admit their feelings and are gentle sweethearts!!!!

PICK UP PENNY WYLDER'S BOOKS NOW!!!

---

### **Chitra \*CJ\* says**

Pretty good smut-tastic book.

Alyssa and Charles have Smokin chemistry. Insta lust and later love, mild bdsm elements and a HEA. Loved the BJ scene under the desk.

It just had something missing for me, or I'd have given it a higher rating.

Safe read

3/5

---

### **Tink Magoo is bad at reviews says**

This would have been a 4 star read if it wasn't for the poor editing. Missing words, added words, words in the wrong place, it happened often enough to distract me from what was going on.

Apart from that I liked this. You can't go wrong with a bit of insta-love and over the desk sex if you ask me.

---

### **?Tonya? says**

Ok, Penny Wylder, you've definitely got my attention. I already read (and loved) My Dad's Friend....and now this is yet another hit for me.

Great main characters who are so wonderful together. There is sweetness, devotion and a hell of a lot of steamy sex!

-hot filthy talking boss

-extremely likeable heroine

-steamy hot sex scenes

-no cheating or ow/om drama

-just a smidge of pushing away at first but it thankfully doesn't last long.

-hardly any angst whatsoever

-too short of an epilogue, but the author offers a bonus epilogue if you sign up for her mailing list. It was cute and about a year later. The greedy bitch that I am still wanted more!

I will definitely check out more from this author. I hope she keeps them safe and hot!

DNF @ 45%

Just not for me. Felt too juvenile. Too many grammatical errors. The whole story felt cliched. Moving on.

---

## 'Q' aka CoCo says

I downloaded this after reading *Her Dad's Friend*, which had a wonderfully snarky FMC and some sexy scenes. I really enjoyed the author's writing style and wanted to give her another go.

It was hard to believe this was written by the same person.

Full of errors, wrong words, and confusing sentences, i.e. "But would that really help? I don't know, but the water does." Really? The water knows? Amazing! It was not only hard to read, it was annoying. Once you read (and sometimes reread) the scenes and understood what was going on, it was still pretty lackluster.

Alyssa is Charles' new executive assistant, and of course, it's instant attraction for both. Hearing that he's a manwhore, Alyssa tells him upfront that she wants to keep things professional, which he respects, until...are you ready for this? He happens upon the dirty fantasies she's writing about him **on her work computer**. This is where I lost all respect for the FMC. Who does this? Less than a week on the job and she's sneaking around using company time on some fetish site to write down all her dirty '*I wanna be dominated*' fantasies about her boss? Um, no.

Of course we go straight from discovery to "You will obey me" and "Command me, Sir" and from there, it's a quick fall straight into love. Add in a small drama with a coworker to add a little angst and call it a day.

Nope, this one just didn't work for me.

DNF @ 13%

So. *Filthy Boss*.

*Filthy Boss* was infuriating.

The author of *Filthy Boss* substituted underlines for italics. I don't own a physical Kindle, I use the Kindle App on my iPhone. This means that I'm reading all of my KU books on my phone...

...and I run into this.

Every word that looks like it would be italicized has been underlined. When the heroine's fantasy was on page, it was underlined. That equated to **5 or more pages** of underlined words. Underlined words that made my eyes cross. Underlined pages that I did NOT read.

Someone suggested that the underlines may have been for the editor to convert into italics. I don't care. If it was, that means that NOBODY even bothered to flip through this file before uploading to Amazon (though I still think nobody beta read/edited this book). Fuck this book, you only get one pair of eyes in life and this damn book isn't worth mine.

---

## **Jos says**

5 HOT Stars

I LOVED this book! This was my first read by this author but most definitely won't be the last. I loved everything about this story.

The writing was terrific, and although it was a fairly short and fast paced story filled with lots of HOT sex, I absolutely was in love with it. The characters, Charles and Alyssa were hot, sexy, fun and flirty. Was this an insta-love, insta-lust, oh hell yes and it was done just right for me! Anyone who wants a feel good, literally, wink, wink, story and is limited on time, this is a great fast story. I also found it was a great read with no drama and needless angst, it was just an awesome feel good story that left me with a huge smile on my face! Sometimes, I need that "emotional" break from an intense read and this was just the ticket for me!

Congrats Author Penny Wylder, I am hooked and you have now moved onto my ever growing list of go-to/must read authors:)

---

## **Kate Hastings says**

A dirty, flirty, fantasy come to life, insta-love story that was an enjoyable read.

A quick few chapters of smut-filled decadence, where you don't need to look too deeply into the plot, just allow yourself to get swept up in the OTT-ness of Alyssa & Charles exploring the world of sexual control, domination and experiencing your dirty desires come to life.

---

## **Karen111 says**

Only a few pages in and the typos began. 'Barley' instead of 'barely', and she talks to a girl at the party called Jennifer, but in her head she knows this girl's name before they've even introduced themselves! This author is way better than this book.
