Ice Wolf J.R. Rain , H.P. Mallory

From J.R. Rain, the international bestselling author of over sixty novels, and H. P. Mallory, the New York Times and USA Today bestselling author, comes their first co-written book, ICE WOLF!

Ellie Matthews is the new police chief in Hope, Alaska. An experienced homicide detective, she's running from a past that haunts her. One bullet changed her entire life and set her on a career path that collides with native lore, shape-shifter legends... and wolves.

In ICE WOLF, a hunter stumbles upon a naked body. When Ellie and her deputy retrieve the frozen corpse, he's got a silver dagger in his chest but no ID. It's Ellie's first homicide case in Hope and she aims to solve it. But even stranger things happen and this murder investigation will be anything but routine. Ellie doesn't want to believe the forensic evidence, but there's something creepy about the John Doe victim. There's no way that she'd walk away from this case, but maybe she should run.

The prime suspect is Alex Johnson, a bounty hunter who knows a lot more about shifters than he's telling. But is he crying wolf? Things could get downright steamy with Ellie's number-one suspect, who may be her only ally in town. But can this beauty trust a beastly hunk who's under arrest?

It will take all of Ellie's homicide investigation experience to track down the killer before the killer finds her first.

“ICE WOLF is funny, thrilling and sexy! It’s a page-turner with spine-tingling suspense, a hot romance and a compelling paranormal mystery. I fell in love with the Alaska setting and the engaging characters. It’s like Joe Leaphorn meets ‘Eureka.’ Loved it. More werewolves, please!” —Eve Paludan, Author of Vampire for Hire: Wolf Moon

Nancy says

I want to give it more ?'s

I want to give this story more than 3?'s because it was an interesting mystery, as well as life changing for the protagonist. But the story was rushed, it could have been so much More! This was not fully fleshed out, the opportunity was there for more.

William says

So much bothered me about this book.

-The Police Chief Ellie declared she had never seen a certain situation in her career in policing. This sounds like it could be a long time, but the character is only age 30.

-Ellie says Andy is speaking BS, but she is wrong. Very soon after that Ellie declares she is very good at knowing whether someone is lying.

-The ease at which the so-called police chief allows herself to give in to sexual desire with a werewolf.

I am surprised I finished it.

Babs says

I would suggest to a potential reader of this book that he/she must be a fan of paranormal romances. I liked it, but that is because I am a fan of paranormal romances. If you're wanting to read it just to read it and you have absolutely zero interest in storylines along the paranormal romance genre, skip it and move on.

For those of you who are closet, hopeless romantics who live a hard "exterior," but are soft and yearning for romance on the inside, give this one a shot. (Yes, I just described myself) It's a nice little "alternate world" to escape to when you're in need of a big, buff, and brawly man to fall madly, head over heels in love with you. Yes, we all love our significant others or spouses, but sometimes you need that extra "kick" of excitement.

I was a huge fan of H.P. Mallory's "Jolie Wilkins" and "Dulcie O'Neil" series. If you were a fan of those, or anything along those lines, then this is definitely a must read. Yes, most of these books are basically the same story. A hot and sexy, with a gorgeous physique to go with it heroine who usually occupies a job along the lines of "shop owner", "bartender", or "detective", and always complete with a bit of "paranormal" abilities, seems to find themselves tied up in a "murder" mystery. The other "detective", who also has a sort of "paranormal" side or ability, gets assigned to the case. This character just so happens to be a conjuring of the most incredibly gorgeous man imaginable. There are always descriptions of other, sometimes more beautiful women in the book, but of course the gorgeous detective only has eyes for the sexy, yet kind of

"nerdy" and "uncoordinated" heroine. Not to mention, there is always that side, "comic relief" other gorgeous man that had previous ties to the heroine first, who always seems to come between the main character and Hottie McHotterson that we all are usually rooting for to win the heart of the protagonist.

Exciting stuff, right? Well, it is for me! Give this book a shot. Again, if you loved all the other "paranormal romance" novels, then you won't be disappointed by this one.

Christine says

Wow

It's like Elmore Leonard meets Steven King. Two of the best writers in their respective genres. The authors of this book blend them artfully. Excellent character development and well structured story line. Cannot wait to read the sequel. If I was your editor I'd give you a big red ?

Misti says

I wish the second book was out now!!

Nurse Lisa In Ohio (PRN Book Reviews) says

4.5/5 stars. I hope the next book is longer & soon!

TJ says

There are absolutely awesome points in this story and absolutely infuriating points. LOVED the overall story, itself. It starts with a bang that is fun, intriguing and very well set up. But, Ellie's character flip-flops at whiplash speed. She is supposed to be the chief of police but acts like a snotty teenager. From arresting a man for no more reason than annoying her (really?!?). To acting like a total jerk to him after SHE initiates a physical relationship (that very same night, btw.) And, seriously what woman police chief who is trying to gain respect has sex with a stranger she arrested earlier in the evening?!?! Makes. No. Sense!! The examples could go on and on.

And, just as the story becomes really interesting, it suddenly fast-forwards to the finish. WAIT!! It was just getting good! And it wasn't in the I-can't-wait-until-the- next-book way, though, but in the you-rushed-it-and-didn't-allow-us-time-to-enjoy-it way. A very fast, wrap it up, be done with it kind of finish. SO much awesome potential for depth and growth in the storyline was just ignored and brushed over right at the very best parts. Then...The end. ARGH!!

Vintagebooklvr says

2 1/2 stars. Overall it was ok. I liked the chemistry between Alex and Ellie as well as the story line. But the end seemed rushed. Just as Ellie stumbles on an important clue--pretty much the only clue--there is final confrontation with the killer. It should have been developed more.

Ellie, at times, seemed like a competent police officer but other behaviors were definitely off. She had no grounds for arresting Alex because she was annoyed with him. And then sleeping with him when she considered him a suspect is a definite no no.

But there were more positives than negatives.

Janet Swiftbird says

Wolf zombies?

Can the Chief of police find the killer to her John Doe and find John Does body when it walks away?

Debbie says

I love me some J.R. Rain, but not this combination

The storyline was excellent & the Chief of Police's thoughts & actions were so similar to Samantha Moons' I could see J.R.'s influence. This story was too simple & single story lined for me. The writing was wonderful, just not developed enough...

Dianna Sandora Sandora says

Love this book!

If you ever thought of yourself as "Team Jacob" from Twilight, then you will love this story! The authors have captured that sexy wolf vibe in so many ways! I can't wait for the next book.

shari.macdonald says

Good light read. Story Interesting.

Good story line .Great characters alight read but an excellent read. Can not wait for the next one to come out.

Denise Ferraro says**Awesome book!**

HP Mallory, I have been waiting since sinjin for another read from you, I just stumbled upon this new book while searching for something to hold my attention. You do NOT disappoint! I loved everything about this story, cannot wait for book two, thank you!

Sharon Karson says**Enjoyable read.**

A fun fast read with engaging characters and fast action, a touch of romance and a little magic. If you enjoy these things, you will enjoy this book. I am looking forward to the next book in this series.

samantha says**You wont put it down**

This book starts off a little slow,took me a bit to get into it.however stick with it because by chapter 4 or so you will not want to put it down and will finish it before the nights over like I did!
