## **From Reader Review Invincible, Vol. 23: Full House for online ebook**

### **Sina Tavoosi says**

I'm so used to Ottley's art that Walker's just ended up being weird. Although Cory Walker is an amazing person and artist in his own right, I can't stand how he draws Mark and Eve and was biting my lip for the duration of the book.

The story had its problems too; what happened at the end was illogical at best. Villains just don't act that way, not that villain, he'd get it done and end it (he had all the more reason after what Mark did). I'm reading the final volumes now, and I've loved this journey. I trust Kirkman and Ottley to deliver, as they most often do.

### **t.i.m says**

3.5

---

### **Timothy Boyd says**

I have heard this series will end around the #150 issue. I must say it's been a great and entertaining read the entire time. I will definitely have to go back once it is ended and reread the entire thing so really appreciate the depth of the many plots and story twists. Honestly this entire series reads like a Superhero roleplaying game my friends and I would have come up with. Very much worth your time and effort to pick it up and read, it only gets better as the issues pile up. Very recommended

### **Martin says**

Just loving this!

---

### **Patrick says**

This was a freaking awesome volume. I haven't had a book keep me on the edge of my seat in a long time. Sooooo good!!!

---

## **Aldo Haegemans says**

Mark and Eve is my favorite couple like in forever! I truly hope They get a happy ever after!

---

## **James DeSantis says**

Man only two more volumes (maybe 1 very large volume) left. I am so sad. This is easily one of the best series of all time. Okay, breath...here we go.

Mark is back and his daughter is much older now. He decides it's time to stop all this hero shit. He loves Eve, he loves his daughter, it's time to get the hell out of dodge. He tells everyone he's out, peace out, and goes. The next few issues are him accepting what has happened when he was gone. Things with Eve, with his kid, with Allan. It's sad, emotional, powerful. Then we get more into his current life, him adjusting to his daughter, his father seeing him again, and we even visit Mr. Robot. You know that crazy fucking nut. Then after that we switch over to King Asshole as he sends his army of little kids to attack. Well just two, but still.

I love the first few issues. As much as I love big battles I love the small moments just as much if not more. Seeing all the family stuff was great. The last two issues are very very quick paced, a lot happens, and it felt a little rushed to me. Maybe because to get to the final arc that's coming we had to rush a little. I didn't get the impact I wanted sadly.

Also the art seemed off. I heard the artist was different than the regular and you can tell. It's off beat and faces are odd.

Still, this is a very solid volume. The first half is VERY strong and makes me so scared for the future cause I might cry without my Invincible. This series will be missed big time and if you haven't read it yet, goddamn it, get on it!!!!

---

## **Michael says**

OMG Amazing!

---

## **Jonathan Roberts says**

Still one of the most fun books to read, super bloody and yet somehow believable. I love how bad Thragg is, truly a superior bad guy for a hero named Invincible. But how is anyone gonna beat him? I will trust that Krikman can come up with something awesome!

---

## **Anne says**

[

Oliver is supposedly a traitor working for Thragg, but then sacrifices him

---

### **Daniel Polansky says**

For my money, Invincible is the best superhero comic ever written, and one of the best comics period. A hundred plus issues in and Kirkman still manages to keep the story fresh, with surprising plot developments and solid character development. I guess it's coming to an end soon, apparently, and that's kind of a bummer but also I'm looking forward to seeing these evil Vultrimites get their what for. Fucking Vultrimites. Keep.

---

### **Paul E. Morph says**

I'd review this but I'm still trying to pick my jaw up off the floor...

DAMN, Mr. Kirkman... Just... HOLY GOOD GOD DAMN FUCK! If you're trying to give me heart failure, you're going the right way about it...

I'm so upset this book is ending but, after reading this arc, I know the final twelve issues are going to blow me away while they break my heart.

Sheeeiiiit...

---

### **Craig says**

Why leave someone like Emperor Thragg alive? Why? I'm really getting a bit tired of this series. Time for it to end.

---

### **Drown Hollum says**

Cory Walker is back! And he's amazing! Of course I miss Ottley, but Walker's art is incredible, the man just doesn't waste a line. It's great tonally, considering the time-skip. It feels familiar but all new, and that's a hell of a thing.

On top of the amazing visuals, Kirkman's storytelling is in top form. I love every volume and always give it five stars, but this one really deserves it. The arc resolves with such power and intelligence, you just know the finale will be worth losing the title. I can't wait, no matter how absolutely bummed I am that this amazing book is finally ending.

The time skip was a great opportunity, and Kirkman did not squander. Terra is incredible, Eve is the most complex and amazing she's ever been, Mark is the product of his wild life, and every piece on the table is placed with purpose, ready for checkmate.

I love Invincible, and it's about to go supernova.

---

**Shadowdenizen says**

4.5 stars. I'm not sure why this long-running comic isn't getting more publicity/exposure, since it continues to knock my socks off volume after volume.

It's sad to see this title languish and suffer (presumably due to TWD juggernaut) since it's far superior to the Walking Dead: I think this title is arguably Kirkmans best.

The one drawback is that it's not especially newbie friendly: you really need to read from the beginning to get heft and progression of each arc
