Mate For A Month Georgette St. Clair

Silver Peaks is no place for a civilized shifter.

One minute, city girl Eileen Pennyroyal is running in terror from a bear – so scared she even forgets that she can turn into a wolf. The next minute, she's being rescued by the handsomest, rudest shifter she's ever seen. Does Marcus even know how to speak, or does he just grunt when someone tries to make conversation? Eileen knows when she's not wanted, and she thinks she's never going to see him again – until the local Alpha tells her that Marcus needs a mate immediately. And it's her.

If she agrees, she'll escape being forced into an arranged marriage with a hateful, abusive Alpha. But does marrying the hot-tempered, surly Marcus mean giving up on love forever? And can she show Marcus that he's worth saving – before the dark forces that shaped him come back to claim him for good?

Donna Hokanson says

Laws of attraction

This is the story about Marcus, where we find out why he's such a loner and that his Alpha is fearful that Marcus may turn feral. And matters only get worse when the Council of Shifter Affairs show up wanting to evaluate him. Then there's the city slicker of a woman, Eileen, who comes trying to get them to let her father build a road only finding out why the Alpha doesn't want him to. But in reality she's there trying to escape her father somewhat, and wants to show her worth to him and in something. This is truly an awesome story of fate and right timing as well as the laws of attraction. Self-contained story and yet part of a series. Well written and very entertaining to read..

Deborah says

She Is Hopeless?

This is an quick read about a young woman who has never had to do anything for herself. She can't even pick out her own clothes without help. He has been used and abused until he broke free. He doesn't think he should be around anyone else because he may go feral. They might be good for each other if they can learn to trust themselves. Enjoy I did.

Sherri says

I received this book in exchange for an honest review.

Wow, I love this continuation of the Silver Creek Pack! Marcus is awesome and gets his HEA with a very cute spoiled little rich wolf. The story line was amazing and it answered so many questions I had from the first book. Hoping we find out about the cub in the next book!!

Anakay Mchayle says

For a shifter enthusiast, the plot makes no sense but if you want to pass the time it works.

Dani says

(I listened to the audiobook edition, but that wasn't available as a choice at the time of this review.)

Mate For A Month is heavier on the romance than the first book in the series but it still had the humor and a

touch of mystery and action. It also had more explicit sex scenes, so I would be more selective as to who I recommended this book to.

Even though the audiobook was only 3.5 hrs long, it didn't feel rushed at all. A great diversion for an afternoon of doing chores. The narrator, Stella Bloom, did an excellent job portraying our heroine as a poor little rich girl as well as capturing the humor of the prose.

Lory says

I truly have to say that this has to be by far one of my favorites. Marcus the grumpy giant with a heart of gold Eileen prove her worth that she was more than just a pampered princess. The story had many twists and was filled with lots of suspense just when you thought you had it I'll figure out you were hit with a rude awakening. Can't wait for the next book in the series.

Krys says

Good book, no complaints!

Yvonne Daniels says

Mate for A Month
Shifters of Silver Peak
By Georgette St Clair
???????????

I received this ARC to read and give my honest opinion in a review. I rated this book five stars but if it was possible I would rate it a trillion stars. That's just how much I enjoyed reading this book. I have always enjoyed reading Georgette St. Clair books, the flow is always good the pace is just right not too fast not too slow. Ms St. Clair is so creative and it shows in all of her books. They are captivating, suspenseful, and sizzling hot. I have fell in love with every series she has ever wrote. Her storylines are always full of awesome characters and scorching hot scenes, and as usual in her series are amazing, powerful, exhilarating and full of surprises.

This storyline is about Marcus a huge, buffed, drop your panties gorgeous, gentle but no one gives him credit, not even hisself wolf shifter and Eliene a curvaceous, sassy, unsure of herself, can't boil water beautiful wolf shifter.

The story is awesome, impressive and engaging. This is a spectacular storyline, the scenes are intense, vivid and fabulous. There is lots of humor, danger, pent-up rage, life threatening moments, suspense, lots of camaraderie and heart pounding romance. Poor Marcus just wants to be alone even though he thinks he is going Feral. Eileen just wants to be needed and cherish by someone. She would do any to close the deal, but as a world of secrets merge into nightmares and danger that threaten their lives and the pack.

I truly enjoyed reading this fast paced well written series and I'm excited about reading more by this truly gifted author. And If you are a shifter romance reader this is definitely a great choice for your TBR List.

Just remember In the world of shifter romance the possibilities are endless but always fascinating.

I highly recommend this book and the series

Laura says

Roar, Growl & Kiss Anthology

Eileen is spoiled, well kinda she's really not that bad, but she comes from a rich family of shifters who don't allow her to do anything for herself even when she wants to. Marcus is an emotionally damaged shifter who is in danger of being detained by the shifter council because all signs point to him going feral. Fate brings them together and throws them into a mutually beneficial and temporary mating. They find they are more compatible than they originally thought and want to see if they can actually make it work in the long term.

The title of this turned me off a little but I'm really glad I gave it a chance. I thought Marcus and Eileen were great and I thought the story was interesting. I really enjoyed this author and will look for more work from her.

Amanda says

I think this is my favorite book from the author.

Rhonda Jones says

Great plot and characters, it was an emotional roller coaster ride

The hero and heroine were made for each other. She is a wolf shifter growing up rich and pampered. But her family does not value or love her. He was a tortured wolf shifter shutting down and on the verge of going feral. Neither think they are good enough, but they both need help desperately to get out of very tenuous situations. Being in the right place at the right time may save them. I loved these two characters. He is so alone even when surrounded by people. And so is she for different reasons. Then his past starts to haunt him again, putting those he cares for at risk. But danger comes from multiple sources when her past comes to get her as well. Oh I love these stories with multiple plots. Keeps me turning the page until I find out how it ends. I loved both characters and wanted them to feel love and feel worthy. This book was filled not only with danger, and strong emotions, but it had a light side with humorous moments as well. I enjoyed this book tremendously.

Hollie says

~4.5 stars~

I wasn't much of a fan of the first book in this series, but I have to say, I was pleasantly surprised by this one.

The pros:

- * For a shifter romance, it didn't feel like a dozen others I've read
- * This was short, but I still felt the hero and heroine had quite a bit of depth to their characters
- * Offered as a kindleunlimited
- * I love a good read where opposites attract
- * Great humor

The cons:

- * I think the title sucks - "Mate for a Month" sounds pretty lame and didn't give this book justice

I enjoyed this book a lot and will definitely check out other books in this series and by this writer.

Diana Rising says

I really enjoyed this, it is very good. We got to know Marcus in the first book, which left me wondering about him. We got to know him really well in this book, and learned his backstory. I'm so happy! The heroine was great. I really liked her and loved how she grew in confidence and sort of grew up in this story. She is 22, but her rich family kept her wrapped in bubble wrap, but without the love. In this story, she is on her own, trying to impress her dad, but finds out she is a better person than she thought she was. It's a great story, it is sexy, there is action, and there is suspense. I strongly recommend.

Ariel Marie says

Nice storyline

Storyline was good. I did get confused on a few parts of the story where I had to go back and Terra's certain aspects. But over it was an okay read.

Jessica Frances says

I loved the first book in the series, Mate Marked, which tells the story of an alpha and the newly appointed local sheriff falling in love. Marcus is shown in that story and you can see he is a wolf on edge, ready to crack. So in this story when Eileen stumbles into his life and onto their pack lands needing a favour, they ask for one as well. Pretend to be Marcus' mate to appease the council and prove that he is not in danger of going feral. However their attraction to each other is far from fake and soon lines begin to blur.

I enjoyed this story. Eileen wasn't exactly a heroine you wanted to cheer for when you realise just how sheltered her life has been. She doesn't even choose what clothes she wears each day. But I loved watching her get some confidence and to stand up for herself. Marcus was incredibly tortured and his past was so heartbreakingly sad. It was sweet seeing him begin to heal and fight turning feral.

This story was easy to read and a lot of fun. It was great entering this world again and I hope Georgette has more to come. A must read for fans of paranormal romance.
