Three...

Greer's been searching for love in all the wrong places. He wants kids ... and lots of them, so it's time to get busy and find the lucky woman to share his bed and his life. Though there isn't a lot to choose from in the small town of Treepoint, he has managed to narrow his choices down to three.

The strange thing is, the one he's falling in love with remains a mystery, hiding her face and name in the messages she sends from behind her computer. The mysterious woman may dodge his questions about her identity, but it's only a matter of time before she finds out that this Porter brother won't back away from something he wants, and he wants her.

Come hell or high water, he will find the one who goes by KentuckyGirl and make her his, despite what anyone says, even her. And KentuckyGirl is going to find out the last Porter rule the hard way: A Porter always stands his ground and leads his prey into his waiting arms...

A autora soube como preservar as características muito peculiares do herói e também mostrar o lado mais sensível dele.

Nossa heroína como todas anteriores é um capacho e boa demais para ser real.

A relação com os membros do moto clube é aprofundada e a família do herói vai ter que se acostumar com a demonstração de apoio e amizade deles.

Cenas engraçadas e também muitas cenas emocionais.

No final foi uma boa leitura.

-----

The author knew how to preserve the very peculiar characteristics of the hero and also show the more sensitive side of him.

Our heroine as all prior is a doormat and too good to be real.

The relationship with the members of the motorcycle club's depth and the hero's family is going to have to get used to the show of support and their friendship.

Funny scenes and also many emotional scenes.

In the end it was a good read.

### Highlights:

"Kentuckygirl: What do you do for a living? Sharpshooter: You first... Anything that involves law enforcement? Kentuckygirl: I'm an IT manager. You? Sharpshooter: Self-educated botanist."

"Holly saw Greer climbing out of Diane's car. He had stayed the night with her again."

"She had learned as soon as she had moved in with the Porter family that Greer used any and each opportunity to use his sarcasm on her."

"Woman, why do you have to make everyone so fat? Is that how you plan to catch a husband? Make men so fat they can't run away from you?"

"There isn't a woman alive who can pull one over on me," he bragged.

“Woman, you won’t know what you’re capable of until you fuck me. I’ve been known to make blind women see.”

“Woman, I’m going to send you where no man has sent you before.”

“You wanted me, but you didn’t mind getting your rocks off with Diane, or any other woman whose panties you could talk your way into.”

I have never been a fan of The Porters except Rachel they always rubbed me the wrong way. I read Tate story and I started to liked them but reading Greer story I absolutely love them. They really are a great family, when they used to give Rachel so much shit I couldn’t stand them but you realise they had her best interest at heart. They really are great men and brothers. I love this story with Greer and Holly and was hoping Greer would get his stick out of his ass to see what is in front of him with Holly. She’s such a loving girl. Another great read from Jamie.

I really try with JB's books. But I think this will be my last book with her.

I've read the different series from JB, but I find that each book I read from here is the same formula.

Man is a manwhore who sleeps around...

Woman is a pushover with no backbone...

Woman falls in love even though man is mean and sleeps around...

Get the point? I mean there is a such thing as VARIETY! The only book I've read from this author that I absolutely adored was Sex Piston. She wasn't a push over and gave as good as she got.

Now to the review of this book:

Holly & Greer have a volatile past. She feels guilt for keeping Dustin's son from him and Greer isn't one to miss a step when it comes to blaming Holly. Although Greer has no qualms showing his dislike for Holly, she pines away for him FOR 6 YEARS! I'm sorry but Holly must be a masochist if she's in love with a man who hates her and isn't afraid to let the world know.

When Greer decides to settle down and marry to have kids (this is the part I just rolled my eyes and knew the book was going downhill) he doesn't know that one of his candidates is Holly aka KentuckyGirl. When he does find out about Holly catfishing him he basically blackmails her into marrying him. BUTTTT how can it be blackmail when for some ungodly reason Holly is in love with him?!?

Where was the love between these characters? I don't believe for one second that Greer actually loved Holly. What about passion? If this is the quality the rest of book JB is putting out then I'm done. I honestly don't think I will pick up another book from this author. It's gotten to the point where I just skim through her books now because she just ruins the characters for me. It's as if the author thinks "Oh no this female character is showing some independence, time to knock her down a notch".

Standing His Ground has blown me away. I knew it would be explosive because of the sparks this couple has thrown off since day one but man... It was SO. DAMN. GREAT. So much depth, all sorts of feels, such thoughtful storytelling... Definitely one of my favorite Jamie Begley books to date!

Greer, Greer, Greer... I was already crushing on you before but now I am head over heels in love with you! You are #2 only to Cash in my book! You were sweet, charming, romantic, protective & clever but the most AMAZING part was that you were all of those things without losing your famous a\*\*hole persona. You were still you & that was straight-up sexy. But I am so sorry about what happens after you use your power... \*zips lips\*

Holly, woman... LOVED what you & Diamond started! My heart broke for you with every insult & sneer that was slung your way but I admired the way you dealt with it all. You were so strong, caring & selfless. I loved your relationship with Logan & when you decided to go all in with Greer. You balanced each other out & it was beautiful & fun to see your story unfold.

There were so many memorable scenes in this book! The house meeting, the ugly cry (OMG, I was devastated!), the way Greer took care of Diane & the conversation Greer had with Knox at the end were all definitely highlighted in my kindle but the very BEST ones were the out-of-body experience Holly & Greer felt in the field of daisies & the barn scene with the whole Porter family. The field scene gave me goosebumps; being so sexy, magical & meaningful. And that barn scene... I LOVED how therapeutic it was for EVERYONE.

Have to admit... I was a bit irked that daisies were the flower of choice because I associate them with one of my least favorite characters, Bliss, & her daisy chain but I'm choosing to replace the bad memories with the good ones because Greer & Holly's daisies were fantastic!

Although it was hard to leave some loose ends lying around, I'm excited to find out how things are going to

play out between the Porters, Hayeses, Colemans, Curt Dawkins & Luke Baxter in *Claiming His Enemy*. (At least I think they're all linked together somehow because of events that happened in this book.) I feel lots of trouble brewing!

Very much looking forward to the next installment in this massive Jamie Begley saga! Not sure if it'll be *Rider's Revenge* (the prologue of which was included at the end of this book) but I really hope it is! :)

Erm where was the chemistry, the love? I sure didn't feel it even though it was obvious I was supposed to. Six years she was pining for him while he was with ow and then suddenly out of nowhere he decides to marry her. As for her, pining after a guy who ignored her unless he was being cruel to her was just disturbing! All the excuses she made for his cruel attitude and defending him to Diamond was not sweet to me but actually sickening. She was too pathetic for him....still waiting for JB to write a stronger heroine like Sex Piston who was the only one so far not totally succumbing to usual pining doormat female leads JB seems to prefer writing about. Both the characters were boring and I almost DNF.

Better than I expected!

Frankly, I didn't expect much from this book. Dunno why, I just didn't.

Anyway, I ended up falling for Greer and respecting Holly's decisions (most of the times). It's a book worth reading, especially if you've read other books from this author. She's awesome!

**IT'S LIVE! <http://amzn.to/2ogQ3Qj>**

*Standing His Ground* is the second in the Porter Brother's Trilogy and follows Greer Porter, the reckless brother that most people perceive as idiotic. But he's far from stupid, which is something Holly ends up learning the hard way when she tries to pay him back for being so cruel to her.

So this book is a little hard for me to review because while I liked the overall story, I didn't always like how it was told. Greer and Holly were interesting to read about and they certainly had my attention for the majority of the book, but I didn't always understand their relationship. At time it felt like we were being told how they felt about each other, but not shown. So I honestly didn't see too much of a connection between them.

And on top of that some things just didn't fully add up for me when it came to Greer. I think I just needed more of his POV to understand some of his actions and without that I was left confused at parts. Again, we were being told things that we didn't see so it just didn't make much sense for me.

Bottom line, I still enjoyed this story even though I had a few issues with it. And I would still recommend it, and all of Jamie Begley's other books. This is the second in the trilogy but you would have no problem reading it before Tate's story.

I didn't think it could be done but Jamie Begley managed to make me love Greer. I actually think I liked this one more than Tate's book. Really loved Holly and Greer together, I just wish we got more scenes of them as a couple. Looking forward to Dustin's book.

Ignore the 1 star haters, Greer is an asshole YES but Ms Begley once again wrote the character as she portrays him in her mind, Greer has always been an ass so we shouldn't be surprised

I'm glad Greer and Holly finally got it together

4.5~

I adore this book even if I was a little confused up until the 60% mark. But just keep reading and it will all be explained in the end. Also, don't forget that this is a Jamie Begley book it means that there will be some action, a little (but powerful, like I teared up kind of) angst and the other woman before the main characters get together. Don't let Greer's character get to you. He might be an asshole at first but you'll see the real him towards the end. Actually around the time he started being "nice" I was really confused and thought that it might just be due to poor execution, but as the secrets get revealed, it becomes clearer. Holly is awwwessssooomeee! I didn't get why she loved Greer but I thought how lovely it was that she loved him as an asshole, of course she'll love him more as he shows his true colours. I love that she might be "weak" but she fought her battles. This family and their friends are so tight and you can just see how they love each other. The ending was so sweet especially Greer's p.o.v and the little explanation from Holly's p.o.v. That's when it becomes crystal clear for me. And that part about how in the future he might end up in-laws with Knox? How cool would that be? Awesome book, sexy when needed and peppered with hilarity. I can't wait to read Rider and Jo's book and based off that sneak peak at the end, the Last Rider's are acting as matchmakers.

"The sign he was looking for was nowhere around. A daisy couldn't bloom in winter."

I'm always happy to one-click on a Jamie Begley novel. She is a must buy for me. I'm invested in her book world and all her connected storylines.

I have gotten to know the Potter brothers from prior glimpses in the Last Riders books. The Potter brothers don't like the lifestyle the Last Riders have. They believe in having just one woman to share their life with. Despite their differences, The Last Riders and the Potters are civil with each other, especially since Rachel, their sister became Cash's woman.

To my shock, the book begins with Greer deciding he needs to settle down. He wants a wife and he wants children. He has narrowed his list down to three women. The whole family is in agreement that the woman he has had an on and off relationship with since high school is not the one for him. Jo is on his list too but Greer really likes KentuckyGirl, his online friend. She is smart, seems sweet and they get along well. She also likes daisies and Greer believes a daisy is the sign of his one true love.

Holly has been living with the Potters for the last six years ever since Logan moved in with them. Holly loves Logan as her own child. She also has developed feelings for Greer. She knows he blames her for keeping Logan apart from their family. He doesn't hesitate to let her know everything he dislikes about her. Too bad you can make your heart fall in love with the right person sometimes.

It was hard to like Greer when he was being an obnoxious mule. He treated Holly in an awful way. I wanted to give him a piece of my mind. I knew there was more to him but he only showed his worst side to her. Luckily, as the story unfolds we get glimpses of his hidden nature making him more likable.

As always with a Jamie Begley book, I was able to enjoy the story. It had many Last Rider cameos as well as great banter between them and the Potter siblings. I laughed and I cried too. So why wouldn't I give it a higher rating? Well, I thought their declaration of love came out of nowhere. I understand that Holly has loved him for a while but Greer changed from hating her to loving her the next second. I would have liked to see some major groveling from him. Other than that, I have no complaints.

Going by how Greer has been treating Holly in Cash's & Tate's books, I'm looking forward to a good lengthy grovel and chase from Greer. And of course, Diane getting a nasty put down. I'm also pissed with Cheryl- I have no issues with her screwing around but the woman has to know there's a Sis-code as well! She can go around screwing all the single men for all I care; I can even digest her sleeping with Tate (somehow!), but sleeping with Cash was really low of her! A woman who has been cheated on by her husband wouldn't want

to hurt other females by sleeping with their men! Isn't she putting other women in the same situation she has been through, much less her own female friends?! Quite an ironic character!

### **Alpha Possessive Heroes says**

#### **Greer.. the most hillbilly a\*\*\*hole in the Porter Family!**

I'm guessing the heroine here is HOLLY! \*crossfingers!\*

#### **EDITED**

#### **4. stars!**

I liked that Greer is arrogant, grumpy fart. He's the "**what you see, is what you get**" kinda guy, no pretend what-so-ever and I appreciate that about him. In the past, I saw him as this hot grouchy ass who doesn't have any filter in his mouth but throughout the story... well he still is an ass but with a big golden heart.

Holly on the other hand is a lil weakish doormat but at the same time have some fire goin' in her that put Greer in his good old place. Both main characters balance out which was good in my opinion.

The story had some ups and downs, there were times I couldn't put it down and had to stay up til 4 am and few moments in the story were I kinda scroll through and just didn't give rat ass about it. Quite predictable but since this author knows how to write, she still brought me to lala land of Holly and Greer.

**Overall** its everything I expected! We pretty much knew the premise of the series. Its linked to The Last Rider Series, so we know its goin to be somewhat the same content as her previous books. We knew Holly was the heroine for Greer since it was a lil obvious in the past books in the series. It has a solid story with a well balance characters, few emotional scenes, a lil dash of suspense that made me thinking and some good olde sex.. (*though I gotta be honest, the sex scenes wasn't scorching hot like some of JB previous books- but still its Greer. So it still kinda worked!*)

Guess the only thing that irked me and seems like did not explain well in the book is how Greer develop feelings towards Holly? I mean they've been living together for years then all of the sudden he's inlove with her? It didn't make any sense and somehow did not convince me. I guess I missed that explanation somewhere.. lol.

Overall its a solid 4 stars for me! Gotta love that we get a snippet of everyones lives.. pretty sure I'm gonna miss them when the series end.
