## We Roam The Seas Theresa Marguerite Hewitt

When an unknown evil lingers in the distance, Viking daughter Freya is forced into a marriage to keep her safe. Defiant at first, Freya soon finds herself wanting the attention and touch of the stranger whom is set to be her husband.

Asgar never worried about finding a wife, he only wants to take care of his people the way his father always has. When he sees Freya, he's pulled in, knowing he has to protect her no matter what.

Thrown into a life neither really wanted, can these two learn to love? Can they share one heart? Is the unknown evil really the one they need to worry about?

Prepare to be thrown into the dark world of Vikings, mixed with a love story and betrayal that will tear at your soul.

## From Reader Review We Roam The Seas for online ebook

### Neesha Brown says

Excuse me while I have a TMH fan-girl moment.\*clears throat and squeals\* It only took 4 hours for me to finish this book, i deprived myself of sleep before work because I could not put it down. I need more vikings now!

I love Theresa Marguerite Hewitt, she never fails to bring a great story and draw you into the world she has created. I've read many of her series and this as now become my favorite series, sorry Rhea and Chad! Freya is a young beauty that has been sought out by many men including her best friend and protector Eska but her father has turned all away up until recently. Due to an impending threat of a raid to his homeland her father has arranged for her to marry Asgar, the son of another clan member and long time friend of his. Watch as Freya and Asgar try to navigate their intense feelings, Eska try to resist losing his best friend and Freya navigate a new land, duties and way of life. TMH definitely delivered with this book and I am now on edge waiting for the next book!

I suggest you all stop buy amazon or smashwords to read this sexy little novel and to check out TMH other books!

### Savanna says

Ok, wow! I started this book for the simple fact that some of my friends kept on and on and on about it. Seriously, that is all I heard about. "Sav you need to read the Vikings" so I said what the hell. My friends have good taste and they would never steer me wrong but I was still skeptical. I started the book and ummmm let me say I never expected to get so pulled in like I did.

First off you meet Freya and she seems shy and guarded and a bit naive and can I say I was WRONG! I mistook her completely. Shy yes but the one word that describes Freya is LOYAL! She is loyal to the core. She is strong, loving, and believe it or not an undercover badass. She is not one to be messed with at all!!!

Then you meet Eska her beloved best friend. I hate him! Period, point, blank. In my opinion, he never loves Freya. He is just obsessed. Obsession is never a good thing and I wanted to get inside this book and bitch his slap his ass.

Ok here is the fun part.... You finally meet Asgar!!!! Oh my word! I expected him to be this virgin taking, loud, dirty, raw, sweaty, fish eating, ale drinking, fat, hairy man and I WAS WRONG!!!! He is this hot, sexy, loyal, loving, raw, rugged, built, sex god viking man and I'm not even kidding this guy is hot.

Anyway I will not ruin the story with the basics so I will say this. If you are looking for a quick, easy, but different read this book is for you. It is NOT what you think it's going to be, trust me, I've been there. It is so much better. The storyline is good. It flows well. The characters are lovable except for Eska of course. The sex is hot. A certain, ummm punishment totally is hot! And overall it's just an overall really good book. So

'We Roam the Seas' gets 4 sea roaming stars and also I just gotta say thank you to TMH for making me question my sexuality because Freya is hot... just kidding... or am I????? So read the book and find out :)

### **Mindy Flynn says**

I've never read a story about Vikings. Wow, have I been missing out! I loved the chemistry between Asgar and Freya from the very beginning. Their mutual attraction that grows into so much more as the story goes on. I actually fell in love with Asgar's entire family. The writing was so descriptive that I felt I could see them and know them.

Once I started reading this book, I couldn't put it down. This book has super sexy Vikings you can't help but love, conflict, death, love, passion and so much more, you'll love it! I can't wait for the next book to see where the author takes these characters.

---

### **Dawn Smith says**

I was given an ARC of this book by the author in exchange for an honest review.

Honestly, I have never really been much of a reader of historical novels, but when the author asked me to review this book, I thought. I'll dip my toes in the water and try it.

Let me tell you, I LOVE IT! This book drew me and would not let me go. We Roam The Seas is an amazing story, full of life and character.

Freya is a viking daughter who is being forced by her father to marry Asgar in order to protect her. Asgar sees something in the young and sweet Freya and immediately feels the need to protect her. The pair fall in love, but life is never easy and there is tremendous evil lurking. Evil that is capable of tearing the couple apart and destroying their love. There is also jealousy in the form of Eska, who is also in love with Freya and is determined to have her for himself. To aid in his cause, he enlists the help of Bracka and Callen, who are evil incarnates in their own right. Freya and Asgar must fight to protect each other before they are ripped apart forever.

This book is jam packed from beginning to end. You don't even have time to catch your breath. There is dark evil, jealousy, love, anger, violence, pain and some majorly scorching hot sex. The author depicts with scenes with words so descriptive that they transport you back to Viking times. At moments it feels like you are right there along with Freya and Asgard. The plot was so much more than I expected. This is not your bodice ripping, Fabio looking hero who has to sweep in and save the weak damsel in distress book. This is a viking tale on fire! The characters were amazingly developed and you either loved or hated them. Each was so well defined with a personality that was uniquely theirs. Freya, although she is young and innocent is also a bad ass viking chick. And Asgar....if I ever somehow get magically transported back to Viking times. I am looking this man up. I loved Freya and Asgar as a couple. They totally worked and you could feel the love and passion between them.

We Roam The Seas is an amazing piece of writing. I am so impressed and can safely say addicted to Theresa

Hewitt's writing. I want more. I am so glad that I was introduced to this author's books. Amazing. simply amazing. 5 out of 5.

---

### **Sarah says**

Simply amazing. I couldn't put it down. I love Theresa's writing style, everything just comes alive as you read it. I would love to see this as a movie. It has everything! I cannot wait for book 2!

### **Jodi A. says**

Theresa Marguerite Hewitt

Theresa Marguerite Hewitt is a self-published, independent author of paranormal and military romances. TMH (as she is referred to by her rapidly growing fan base) consistently brings to life strong, emotional characters that have to face and overcome many challenges in their lives. The characters do not have "happily ever after" thrown at their feet and they do not always make the best of choices, but they will fight like hell for what they believe in and defend their loved ones with everything they have inside them.

"We Roam The Seas", is the first book in TMH's newest series, "The Viking Dreams Series". Once again, the author has brought to life a couple that has to face several challenges in their growing relationship. Freya is the daughter of a Viking chief, that is forced into a marriage to protect herself and her people against an evil that is starting to spread across the land. Asgar wasn't worried about finding a wife, but once he meets Freya, he is quickly drawn to her. The attraction is quick and powerful between them. As their relationship grows, they are faced with several challenges that will test them both.

This story delivers all the things readers have come to expect from this awesome writer, and then some. It is brimming with love, betrayal, heart-break, sadness and lots & lots of passion!!! I held my breath during the fight scenes, cheering on the heroes, and praying the villains would get a well deserved butt-kicking. The sex scenes were so well done, that I wanted a cigarette afterwards! LOL I held my breath throughout the book and as usual, I can't wait to see what this **FREAKIN' AWESOME** writer brings us next!!!!

---

### **Aimz says**

I received an ARC of We Roam the Seas, Book 1 of The Viking Dream Series by Theresa Marguerite Hewitt. She has written several amazing series, but I think she has outdone herself with this one.

This story pulled me immediately and didn't let go until the end. I laughed and cried, was intrigued, was angry, and on the edge of my seat through the entire book. The characters are so real, you feel as if you are actually there and not reading words on a page.

To keep her safe, Freya's Chief Father, arranges for her to be married to Asgar, the youngest son of another Chief and they travel back to his homeland to be married. The love that develops between Freya and Asgar is

so very intense and you can feel the chemistry radiating off of them. However, her best friend, Eska, who is in love with her, accompanies them to Asgar's home. Eska has different plans for Freya, and he joins forces with two sinister brothers, Bracka and Callen. This is a story that should definitely be added to your "to read" list to see how the story unfolds.

I am already anxious to get the second book of The Viking Dream Series!

---

### **Vickie Nattrass hawkins says**

I truly enjoyed this book. The love scenes far surpassed scenes I have read in other books. Truly enjoyed the way she worked what have been listed as Viking traditions into the story as well as the romance and vengeance. I can hardly wait for the next 'chapter' in this series.

---

### **Valerie Gaston says**

Theresa Marguerite Hewitt is a rising Indie Author. She has quite a few great books out and We Roam the Seas is the newest series to escape from her imagination.

I LOVED THIS BOOK! It is absolutely one of my new favorites from her. She does a phenomenal job taking you back in time to the Viking period, drawing you in with the promise of friendship, love, betrayal and suspense. This story had me on an emotional rollercoaster- laughing and cheering and then crying with heartbreak. I couldn't stop reading. It definitely kept me on my toes until the end. I can't wait for the next!!

---

### **Dawnn Mays says**

I was fortunate enough to get an ARC copy and Theresa doesn't seem to ever disappoint. At first I was a little worried about reading a book about Vikings only because I have never read anything about them nor I have watched a movie about them BUT I figured I would give it a shot since I have loved everything Theresa has written so far and just let me say this.....OH MY GOD I LOVED IT! I was emotional within 12 pages of the book. I read the entire book in one sitting and in about 3 and a half hours. I was truly captivated. Freya and Asgar's relationship is definitely swoon worthy. The action is nail biting and the "romance" is breathtaking. The Epilogues in Theresa's books always leaves us loving and hating her but patiently (and sometimes impatiently) awaiting the next book... Definitely 5 star worthy!!

---

### **Antie says**

I was given an ARC of this book by the author in exchange for an honest review.

I love this story. The characters come alive right away. I was drawn into the story right from the beginning. I really like how strong Freya is. She is faced with having to accept a new husband, and a new life away from her family and the only home she has ever known. I like her husband Asgar, he is a warm and loving man, even though he does not want to show it. This book is full of love, with some betrayal. I enjoyed it all and I

could not put it down. I would recommend this book to anyone who loves a great Viking Romance!

---

### **Jennifer says**

So I read this book because one of my friends said you have to meet Asgar; then I had another friend who read it and she also said give it a go. I am going to be honest; I wasn't sure if I was going to like reading about Vikings and boy was I WRONG. Theresa does an amazing job about giving us details; it's as if you are actually there in the Viking Era. I want and Asgar in my life and then his wife Freya is amazing. She is so strong and loyal and just wowed me; I would have broken enduring what she had to.

You will not be disappointed in this book and I can't wait for book 2 to come out. Well done Theresa.

---

### **Shelley Chastagner says**

Great story line. Lots of action and adventure. Freya is sweet and innocent. Protected by her Father, brothers and best friend. She is however no wilting flower. This girl can seriously kick some butt. I loved her feisty side. Asgar is great hero. He's serious minded, is devoted to his family and people. He is immediately attracted to Freya, but he quickly falls deeply in love with her. He will stop at nothing to protect her from all threats, even from the ones she doesn't see right under her nose. I was delighted that he was proud of Freya's fighting ability as well as her more feminine skills. I'm looking forward to the next book in this series.

Adult read

---

### **Estelle Martinez says**

I love all the series Theresa Marguerite Hewitt has written to date this is my first Viking book and this one book has made me a fan. The story between Freya and Asgar just pulls you in from the beginning. The trouble is right around the corner their attraction to one another is just Hot!! Asgar is rough strong and powerful with a no nonsense attitude were it counts but he has a softness when he is with Freya. Freya appears to be soft and does what she must for her people but wow don't get on her bad side for she is a force to reckon with. Favorite quote from the book is when Asgar tells Freya "I love you wife, my heart beats for you" can't wait for book two of the Viking series

---

### **Shelli says**

This is her 1st Viking Series form this Amazing Author and my time reading one. She transports you to a world of Viking warriors and their way of life. Freya is a young maiden who lives on a small island with her father the Chief and her brothers. To keep her safe her father arranges for her hand in marriage to Asgar a mighty warrior from a far away Island. This is when the adventure begins and I was hooked. There is love, betrayal, heart break, revenge and Hot... Hot... sex scenes. This series is not one to over look and I am looking forward to book 2.
