Blindsight

Adriane Leigh

Blindsight Adriane Leigh

I want her.

She thinks I need her.

What she doesn't know is she needs me more.

I'm hiring her to protect her.

To save her life.

To make her beg.

Because her big brown eyes make my d-ck pound and the thought of leaving her to the wolves makes my heart bleed. But the past is colliding with an out of focus present that's on course to a fatal future. Unless I can beat fate at its own game.

**Blindsight is intended for a mature audience only due to graphic sex, violence, and language.*

Lina's Reviews ♡????????♡??Book Blog?? ♡????????♡ says

+++++4 Stars+++++

I loved this book. It was sexy and mysterious.

Watch Erin as she gets entangled into Hunter's life. Hunter is a handsome and dark erotic photographer with secrets. Can their attraction overcome all the things that they keep hidden?

The book was sensual and fun to read. I simply cannot wait for the sequel!!!

ARC kindly provided by the author in exchange for an honest review.

Raine Miller says

Blindsight is an intense, erotic mystery that kept me turning the pages. I can't stop thinking about this story!

Jayne says

Questions. Questions. Questions. It is strongly twisted. I have a headache, but nothing will stop me from reading further. I want some answers.

About the plot: Erin is in need. She must find a job to become independent. When she goes to a job interview, falls into a very handsome and appealing guy, Hunter. He is proposing her job as a PA, and she can not resist him in any subject. Hunter is a photographer, and doing artistic nude photos. She accompanied him on trips where they make hot photoshoots and try not surrender to passion for each other. They both have secrets, which over time collects a lot.

Final thoughts: This book is very confusing. Firstly it begins with a shocking prologue. It has two POV, mostly it is Erin POV, but there is also the person POV who was watching her. From the very beginning Hunter is very mysterious. He is intense, rough and incredibly appealing. And she can not resist him. But you just know that something is not right.

Although there is a lot of testing, it is extremely erotic and hot. This steaming photo sessions will stimulate you before they even reach the bed. And when they do, it is fire, passion and a bit of bondage.

So why only three stars? Because kinda too much frustrating. This part does not give us any answers only mystery. You can go crazy, but it is certainly intriguing. So I could not give more, I'm waiting for answers and developing the action. But the whole series is going to be definitely encouraging.

*****Quick Review:*****

Series: The first in the Blindsight series.

Grade/Tag Tabs: Erotic Romance. Romantic Suspense.

Release Date: October 26th, 2015.

Main characters: Hunter Ellis, is a photographer, a former soldier, and is very secretive. Erin Warner, twenty-nine, she works as copywriting and editing, now is Hunter's PA, also has a history, which would prefer to forget.

Secondary characters: There are some people that connect with the storyline, but the whole plot revolves about the main characters.

Location: Chicago.

Steamy: (view spoiler)

Sensitive topic: (view spoiler)

Love triangle: (view spoiler)

Cheating: (view spoiler)

Cliffhanger: (view spoiler)

HEA: (view spoiler)

Next in the series? Yes. Blindsight 2, December 9th 2015.

Follow me on Facebook or Twitter. Thank you!

Amy says

Blindsight is the first book in an exciting new serial series by Adriane Leigh. Since this is a serial series, I can't say too much, because I don't want to give anything away. Here is what I can tell you: Blindsight is fast paced, mysterious, and intriguing. It pulls you in from the very first page and leaves you asking questions right until the very end. This story is sexy, and I mean SEXY. You can never go wrong with an alpha male :)

I loved the story-line for Blindsight. I thought it was really unique and not like anything I've read lately. I will warn you though, this book does end on a big cliffhanger and it is one that I did not see coming. I know I will be on pins and needles, waiting for the next episode.

I was provided an ARC copy of this book, in exchange for an honest review

Series Cont.? Yes

Recommend: Yes

Book Boyfriend: Hunter

SUMMARY (50 words or less)

Talk about a shocker there at the end. I really liked this one. From the beginning we are drawn in. And you want to know more from start to finish. And although there is a semi cliffy at the end, it more or less answers a question. So that’s good. Don’t miss this one.

For a full review and yummy pic, see my blog post at:

Angie Elle says

Thank you to Adriane Leigh for providing a copy of this book in exchange for an honest review.

Blindsight is a tough book to review, because to be honest, I’m still not sure what the hell happened. What makes it difficult right off the bat is that I never really connected with either character, but I’m not sure I was meant to. (At least not yet.) Secrets abound in this book that even the reader isn’t privy to. That makes it nearly impossible to get to know who you’re reading about, and the whole experience makes the reader feel disconnected.

The story is interesting. As far as we know, Hunter takes erotic photos for a living, and Erin is down on her luck in desperate need of a job if she wants to remain in her current living situation. Hunter offers her a job as his PA, solving that problem. But working with him brings a whole slew of new ones, including an attraction she isn’t ready for. Erin is unable to resist Hunter’s advances, and they embark on a relationship of sorts where neither really knows the other one. There were some intimate scenes here, but because of the detachment I felt toward the characters, it lacked the steam I was hoping for. As the story unfolds, it becomes clear that of the two, Hunter seems to have a closet that has more skeletons than a graveyard. The book ends on a cliffhanger, but not the one you think it’s going to be.

So here’s the thing – this book is part of a serial, and I reserve the right to change my rating once I’ve read

all three parts. I'm hopeful that this is all going to come together in a way that wows me. **Wild** by this same author is one of my go-to reads when I want a dirty talking hero, and his book started off like this one. Not plot-wise, but **Wild** was full of secrets, particularly on the heroine's side, and it took a while before the characters warmed up enough to each other to be themselves, and that one ended up being a huge win for me. I'm really not sure where this series is going, so I'm going to cross my fingers and trust the author on this one.

8/25/15: What? A new Adriane Leigh book? Gimme gimme gimme!

Christy says

Adriane Leigh.... you are KILLING ME!!! I am so happy the second part comes out next month. I need answers!!!!

Blindsight is a suspenseful, fast paced and sexy story. It's a story with lots of secrets and not a lot of answers. It's one of those books you pick up and can't put down because you're so curious to see what's going to happen and what you're going to find out. The ending made my jaw drop. I wouldn't call it a cliffhanger, more like a WTF I need to know more about this moment.

"I want to know all the things you don't tell people. The bad things you've done, the things you keep... to yourself."

Erin is in need of a job and when she's approached by the allusive Hunter, she can't pass up what he's offering. It's a PA job like no other. Hunter is a photographer. He turns erotic images into art. He's talented, he's mysterious and he has more secrets than you can even imagine. But Erin has secrets of her own...

This story was intriguing from start to finish. I love Adriane's writing and the way she can pull you into a story. I can't wait to find out more about these characters and the secrets they keep!

Olga therebelreader says

That was a great suspenseful, sexy story and boy was I blown away. For those who like thriller and romance this book is a whole meal. It was a very fast-paced story and very hard to put down.

The secrets surrounding Hunter, the mysterious stalker and Erin's naivete and gullibility made the characters interesting and kept me entranced and glued to my Kindle. Erin seemed to be more emotional and sensitive, whereas Hunter was more ruthless and rough. He was unpredictable and Erin never knew what was coming next. The stalker's secret identity added to mystery.

The events in this book will have you on the edge of your seats, yearning for the next book. That ending will leave you speechless. You just want to know what happens. The plot is unusual and the book isn't set up to play out like the usual suspense story. Overall I really enjoyed it. The only thing I kept asking myself was who is that guy after Hunter and Erin? And that prologue!!!??

ARC was provided in exchange for an honest review.

Paige says

4.5 "Blinded by Love" Stars

Going into Blindsight, I knew that it was a serial so it'd a quick read but would hold a big punch. I also knew that it was written by Adriane Leigh so it would be super hot and ultra steamy. It was definitely those things but holy wow. Twists and turns and head fakes and secrets left my head spinning leaving me pining for part 2.

The story unfolded in a kind of round about way. It starts with a crazy intense prologue that segues into the meeting Erin Warner as she's running late to a meeting and literally runs into a mysterious yet gorgeous man that offers her a job. Eventually the story follows Erin as she begins working for Hunter Ellis. He's an artist that turns his intimate photographs into works of art. Erin becomes his assistant and follows him all over the world as he works. As they spend time together the chemistry between them goes from hot to supernova. Eventually Erin begins to fall for Hunter until at the very end, he revelations not only stunned me but stupefied Erin. All the while, interspersed into the story is the point of view of someone we don't know who obviously has some sort of connection it seems to Erin but whom she is completely unaware.

This story was filled with suspense, intrigue and sexual tension that I could feel all the way through my Kindle. The spark between Erin and Hunter was positively engaging even before they actually touched. Both are mysterious characters who I still don't have a full grasp on but that has only made me even more desperate for more. By the end I was dumbfounded by some of their secrets and need book 2 STAT!

Review provided to A is for Alpha B is for Books for honest review.

Lisa (Two Bookish Brits) says

This was my first read by Adriane Leigh but I don't think it was the one for me. The writing style is good but I just found myself disinterested. The storyline is actually an interesting one and that cliffhanger on the end is making me want to buy the box set as there isn't a choice to just buy the second book.

This book is a short-ish read with a cliffhanger at the end. I enjoyed most of the book there were some parts that had me skipping over. I found myself skimming through the words as they weren't connecting with me like some of the others did.

The sex though, that was hot. Especially the shoot with the tree, I thought I was gonna need a cold shower hah.

I'll definitely try another book from this author in the future

Sonja says

3,5?

Hunter and Erin meet "accidentally" and he offers her a job as his PA. She accepts and soon she finds herself in exotic locations with mysterious Hunter. They're are attracted to each other a lot, but both of them have so many secrets.

The prologue got my interest from the start and the rest of the book is fast paced. I'm giving it only 3,5? because although I liked Hunter, I didn't really connect to either of the characters. That's probably because they both have so many secrets, and we got very few answers. But anyway, I'm looking forward to book 2 cause I definitely need some answers!

Blog: <http://thehopelessromanticsbookblog.b...>

WTF have I just read? This book has left me completely confused and with a billion unanswered questions!! The whole story was wrapped in mystery and left me wanting to know what the hell was going on.

When Erin and Hunter first met there was an instant attraction that couldn't be ignored, especially by Hunter, so it wasn't long before things got steamy. Before I knew it the pair were head over heels for each other. As this was only the first part of the story, I felt that I didn't really get to know Hunter and Erin that well and as they were both so secretive, I felt as though I needed to know much more about them before I could decide how I truly felt about the pair. I also struggled to fully invest in Erin and Hunters relationship because unfortunately I did not feel any chemistry between the two and I thought their relationship seemed to develop way too quickly. Despite this, I am intrigued by the pair so I may change my mind as the series continues.

I have been left utterly baffled by this book and with an ending that made me want to throw my kindle at the wall, I can't wait to read the next book in the series. It's definitely one that has piqued my interest.

"Blindsight" gets ♥?♥?♥?.5 from me.

Sybil aka Lala says

Erin is down on her luck. On her way to a job interview that could turn her life around and get her out of her

current situation she bumps into Hunter. She's immediately attracted to the sexy man.

Hunter is a photographer who specialises in erotic shoots for the rich and famous and offers her a job as his PA. Desperate for a job, Erin accepts his offer and her life is turned into a fantasy of exotic locations and steamy situations with Hunter.

From the very beginning this book grabs your attention with a killer prologue! I thought the book was cleverly crafted with subtle (and not so subtle) hints of something dangerous coming. Hunter as an H was amazing. Mysterious, sexy, controlling and tatted up. His body is covered in scars and he is extremely secretive about his past. He's curious about Erin and her life and yet seems to know little fact about her that he shouldn't.

The steamy scenes between these two were insanely erotic, not only because of the steamy situations and creative sexy times, but also because of Hunter's flirting and intense personality. The characters were both attracted to each other but Hunter has reasons to not let himself succumb to them.

Erin as a character didn't have much depth but I feel like this was done deliberately. Mainly told from Erin's POV this book also has a POV from a stranger watching Erin in secret adding to the mystery of the story. This is a short, very sexy and fast paced book. I kept checking my progress on this book because I didn't want it to end.

An excellent start to the series but be warned that it ends in a cliffy and the second book will be released in November 2015. I cannot wait to see how this story unfolds!

Absolutely recommend this book to EVERYONE!

(ARC provided by author in exchange for an honest review.)

✿kawehi.reviews says

? I received an ARC via Ardent PRose in exchange for an honest review. Thank you!! ?

Damn, I cannot wait for the sequel!! While not the cliffy that I expected, *Blindsight* definitely kept me on my toes with the crumbs of puzzle pieces it gave off.

I felt like Hunter's life was a big weave of secrets and mysteries. I mean, just when Erin, and us readers

would find one clue out, out came another. That man was just one hell of a conundrum.

His rapport with Erin is quite interesting, as it isn't the conventional type of one that readers are used to. There was an initial spark between them, but their 'romance' was a bit slow brewing, as there's so much more under the surface than what Hunter exudes and lets known.

I felt like, during the course of this first part of this series serial, we are just scratching the extremities of what's to come. Damn, I can't wait!!
