My wife, Sarah, came out of the house to see what all the commotion was about.

“Bren?” She called. “What’s going on”?

“OI’ Sam chased a rabbit in amongst the horses and got kicked - killed ‘im dead.”

“Oh, my Lord!” she said, bringing her hands to her mouth. She started down off the porch, but stopped when I told her to.

“It ain’t a pretty sight, Honey, so just go on back inside while I dig a hole for ‘im.

**Great writer**

I have read both short stories by this writer and love them! If I had a beef it would be he doesn't have anymore to read. I hope he writes more as I sure do like reading them!

**LEAVE PEOPLE THINGS ALONE**

A quick read(novella) lots of normal western action. Brendan Francey aka Bren and his wife Sarah have settled in for the evening, then they their horses who are whining you know uneasy. Bren grabs his rifle opens the door, immediately he's feels a hot rush, stinging attack. The white blast followed by a stinging sensation he felt as he was thrown back into his wife who else went down. Bren remembered before the blast was a man on a pinto horse, leading two of his horses from the corral out into the dark.

Action Action just as I said previously, Bren and Sarah tend to their wounds before he started out to search for the man who stole his horses and wounded him and his wife. Bren catches up with the horses stealer and exact his revenge on this greasy head blonde, who had also murdered Margaret Leary's father who he caught on the trail. This horse stealing saddle tramp also stole their horse, leaving the hidden Margaret alone on the trail...very very bad, dangerous situation.

Bren catches up to the horse stealer and takes back his stolen horses, but before he sought revenge, he tied the horse stealer to a post outside the saloon aimed the same shotgun at the owlhoot pulled the trigger which shredded muscle, sinew and bone after which he said out loud before "you ride again you'll think about stealing from someone's ranch again"..so goes the law and revenge in the old west..best to leave folks hard earned things alone or else you may end up with a earth blanket..or better still hanging from a tree blowing in the wind..ouch

**Nice read, novella length.**

I enjoyed the story. At the short length, characters are not fully developed, but story was complete in itself. I would not re-read this book, but think it was worth my time.
