Bullied by the Alpha Sam Crescent

Abused and expelled from her pack for being fat, Cassie has to find a new alpha, one that is willing to take her with her flaws. She has heard of Abel, an alpha with a bad temper, who was expelled from his original pack and created his own in some mysterious way. She can only hope he will accept her.

Every person Abel takes into his pack has some flaw that has been rejected by others, but he doesn't see flaws, just beauty. When he first sees Cassie, he knows he wants her. He senses the darkness and the strength inside her, and he has no choice but to use every single means possible to make her crack, so that she can use the strength that now terrifies her. Only by pushing her is he able to get under her skin and unleash the power that Cassie holds.

But Abel's needs come flooding him. He's the alpha, meant to be strong. No woman has ever been able to handle him. Has he found that woman in Cassie? Can she handle his brand of control? His need to protect?

This story is short, fast paced and an enjoyable read. I read this book in one sitting and was left wanting more.

After being abused and thrown out of her pack, Cassie finds a new one. When Cassie meets the alpha of her new pack, she is instantly attracted to him but she doesn't make a move. Abel knows that Cassie's strength matches his own. Although he tries to resist Cassie he can't. Although Cassie is insecure about her curves and her weight, Abel finds Cassie's curves attractive.

The chemistry between Cassie and Abel is clear to see and the passion between them is through the roof. I really liked that Cassie protected/saved her mate and also stood up to her old pack for the way they treated her. I was cheering her on when she was fighting David.

The storyline for this book is easy to follow and an enjoyable read. I cannot wait for more from this series. I hope that we get Jessica and Carl's story.

Sam Crescent never gets old!! Her characters are wild and full. Plus sexy as HECK! Their woman are just as strong and never let's them down.

Sam Crescent's latest story in the Alpha Shifter series is a great story with an even greater message. People who are different should not be discriminated against, we need to be accepting and show some common decency. Cassie was rejected by her pack because of her weight and because of her strength. She goes to Abel's pack, whom he created with 'discards' from other packs and he's made his pack members see their strengths.

There's a definite attraction between Abel and Cassie, but Cassie doesn't think she is someone that can be loved. Abel has to use whatever methods he can to get her to see her inner and outer strengths. I felt like that was harsh for him to do but at the same time, it was what she needed to break out of her shell.

I hope you all get a chance to read this amazing story!

I voluntarily reviewed an advanced copy of this book

?

This was an okay shifter romance. Abel and Cassie were a cute couple. Abel is alpha of all the shifters rejected from their packs for ridiculous reasons and Cassie finds herself with his pack. There was nothing wrong with the writing it just didn't interest me much.

To say I was pleased to receive this as an ARC would be a gross understatement, I have everything this lady has written both in E-book form and paperback. So yes a little biased but then Sam crescent could write the phone book or the menu and I would read it. She is the queen of my one click on Amazon.

This is brilliant with a strong message attached. We are all different in shape sizes colors religion and also those with disabilities, yet underneath we are all the same we just want acceptance and love. To be who we are without judgement or ridicule. Sam has a way of writing plus size ladies with such passion and feelings that I as a plus size can identify with them and that's the point when I pick up a book I want to connect if you fail to do that then I read like a robot.

This story centers on Cassie and Abel, One Alpha who couldn't submit to another alpha so sets up his own pack of misfits, don't belongs and forgotten and hurt pack animals. Enter Cassie who has been abused most of her life and made to feel disgusting and dirty because of her size. Alpha recognises his mate. Yet Cassie has no self confidence after 20+ years of been told your not good enough, It does take some acceptance to believe others like you and even love you for the very thing you have been ashamed off . This is a brilliant read, read straight through this afternoon. Highly recommended 4 star read, I would have given it the full 5 except for one little niggle the ending and epilogue I wanted more, it just seemed so fast in particular knowing about Jessie and Carl, I think their story would have been an excellent follow up or a little novella. other than that top notch read.

Once again Sam you have delivered .

I haven't read a shifter romance in a while, but this one I really enjoyed

Abel was a bit of a douche. But you can understand why. He is running a pack of that has been cast aside by their old packs because they are different. Everyone has something that doesn't fit into a 'perfect' pack, and that is what Abel does, he's the one that takes them all in. But he also makes sure that they are strong and trains them to be able to take care of themselves and their pack.

Which is exactly what he is doing with their latest intake. Cassie has been thrown out because she is not thin and beautiful according to her pack. So Abel is making sure that she knows how strong she is and also how beautiful she is. As up till now no one has been able to keep his attention, but now he thinks he has found his mate.

This story was a good read for me, it kept my attention and made me want to finish the book in one go just to see how this would all end. Definitely adding to my favourite collection for shifter series.

Cassie has been cast out of her pack. Knowing she will go feral if she doesn't find a new pack, she seeks out Abel's pack. Abel had left his own pack years ago and is the Alpha of a group of wolves looking for acceptance. When he sees Cassie he feels a spark, but Cassie is withdrawn fearing her own strength. Abel plans to make Cassie his mate, she doesn't know it but he is going to get to see the powerful woman he knows she is.

This one was great. I liked the pace of it and was rooting for this couple. Another wonderful read by Sam Crescent.

First off i really hate it when they call heroines "fat" (she's size 18) and then they use a particularly smaller model for the cover. I also don't like the term "fat". And I don't like it when they use a woman's size as a big issue in anything.

Other than that I liked the book :)

There were some things I didn't agree with when it came to this book. However as sams books go this was was way better than others I've read and I only can across a few grammar, spewing, and added words. Which is normally an extremely high number. All in all I enjoyed it.

I was happy hearing about this book, because its series I enjoy to read.

I love when h has some special ability. But I hate it and mostly I'm tired of, when h herself is scared of it, sees this as making her a freak or something, or blaming herself, when someone gets hurt, when that is so not her fault. I just wish h if not enjoys her ability, then at least is accepting of it as part of herself. Sadly, Cassie isn't one of the last ones. At least not at the beginning. Cassie isn't my type of h, even though I liked how she acted at the end. I like to read about bullying, but I love when h don't just takes it and for sure don't let any bullsh;t to get in her head. I hate when h just takes it and takes it for years. That's why I loved that at least Cassies wolf has a mind of it's own and did what human part didn't.

Also, I wish after what she been through with her old pack, she made a pact with herself. She wouldn't look for love and acceptance from others, but firstly she will love herself. And if others have problems with her, then f*** them. They don't deserve her to begin with. But starting with the new packt she worried about others. On one way I could understand it, being wolf and wanting acceptance but still... The way she acted/thought sometimes... I just wanted to slap some sense into her.

I didn't talked any about Abel. But there isn't much to say. If you ignore his 'bullying' of Cassie at the beginning, he was good h. I loved him as an alpha and as a man.

I loved the pack that Abel created accepting others who have unique qualities. To me this set the tone of the book. I loved the way Abel accepted and worked with Cassie. It was a bonus for me that they ended up being a mated pair. With all the trouble of her old pack, they still found happiness.
