Love in Carson Falls (The Falls Series Book 1) Paisleigh Aumack

Arianna Morgan:

She never thought life would beat her down. She never imagined the man she loved doing it either. Starting over in a small town was her only option. Once she arrived in Carson Falls, she realized her life never really began until the locals, one specifically, proved that there were things that can mend your spirit.

River Bradshaw:

He never thought the mother of his child would walk away. He also never thought she would end up dead. Living in a small town his whole life, he knew what his life's meaning was, or so he thought. Once a stranger from out of town started teaching his daughter piano, she proved that life had much more in store for him.

This is a story about loss, love, and how music can teach us about ourselves.

****ARC was given for a Honest Review****

I have been waiting for this book and Paisleigh did not disappoint. From the beginning I was wrecked and had so many feelings . Paisleigh did a wonderful job writing this beautiful story and I fell in love with River and Arianna. But who capture my heart was Cady , and how her and Ari build a wonderful relationship.

River was a wonderful father but there were times I gotten mad at his reaction to Arianna. But overall River showed Ari that she was worth love by letting his daughter and him heal her.

"Because I found the Moon and Sun in you eyes. I don't have to chase after them any more-River"(swoon)

For being Paisleigh debut book, she did a incredible job and I take my hat off to her. Read this book in one sitting and what a great story. I cannot wait to read the next book in this series (especially if it is Penny and Braxton story, because I know it will be another emotional story that I will love). I recommend this story and you will not be disappointed .

Boundless Book Reviews says

Arianna escapes abuse from an ex by escaping to Carson Falls. She lives with her best friend, Penny, until she can get on her feet. River is raising his little girl, Cady, alone after the tragic death of her mother. Piano lessons for Cady bring these two souls together. Both Arianna and River have hard pasts to come to terms with and are trying to move forward to a better more hopeful future.

This story is a heart-wrenching tale of love and hope. Arianna has such a sad story and is in a bad place when she finds her way to Carson Falls. River is a single father facing the day to day struggle of life alone with his little girl. Together these two build such a strong bond and are able to help each other move forward. This story was a great read. It was raw and real. It had me in tears and it had me laughing. It was a book filled with emotions and I absolutely loved it. It was written well and I hope to read more from an author with such talent.

What a great book. That was a very emotional read, I can't tell you how many times my heart hurt and eyes leaked. The whole town was endearing and made me want to live a small town life. The writing was on point and the story flowed at a lovely speed; the supporting characters are all easy to love or hate!

Ariana has been through hell, she escaped to Carson Falls to stay with her best friend, Penelope. She is picking her life up after recent events and this beautiful town is just the place to heal. River is a hot fireman and single Dad to Cadence, a beautiful five year old girl. It's not hard to fall in love with these people, I certainly have!

The things that happen in this story had my emotions all over the place; laughing one minute, crying the next, happy tears as well as sad. Just what I need to keep me reading, drama and an alpha man who is hell bent on protecting the woman.

I'd definitely recommend reading this and I'm excited to read about Penelope and Braxton next, those two need a serious talking too in my opinion

Sara Oxton says

Love in Carson Falls by Paisleigh Aumack a fab four-star read. This is the first book in the Falls series and also the authors debut novel, what a debut novel this author shows a great talent and I can't wait to read more. The characters have a depth to them that makes you want to take them home with you for wine and gossip, well most of them at least one or two I wasn't so keen on but they were written so well even though I hated them I still wanted more about them. This book does have some scenes of an adult nature and does deal with situations that are only suitable for adult readers.

Arianna Morgan is a woman who has left her past behind, she arrived on a greyhound bus and thought that she had landed in a place that looked like it belonged on a hallmark card, and into the arms of her best friend Penny who is there to help her deal with the shock of small town living, where people are nice to you on the street, something a city girl doesn't know anything about.

River Bradshaw has lived in the small town of Carson Falls all his life, he has also faced a past that not many could overcome. River must stay strong for his little girl, she is the light in his life now and he would do anything for her. Including helping his daughter get the piano lessons she wants from a classically trained

pianist, no matter how uncomfortable he is.

Will Arianna and River ever get their happy ever after? They have faced enough hardship in life that they deserve it, but that doesn't mean it always happens.

I went into this story from a brand new author to me a little blind and had at it. Oh my goodness it was good. A slow burn new start romance that blossomed quite beautifully. Ari the woman starting over new, and River the single dad with one of the sweetest little girls I've ever read about. I loved the way the characters interacted, the build up of trust and the relationship between Ari and River and little Cady was absolutely heart melting.

There was a bit of drama and mystery that unfolded that kept me on my toes and trying to figure it all out which I'm pleased to say I failed miserably at. Well done!

This story had me smiling, laughing, crying with and loving the characters. It was wonderfully written and a promising start to the series. Definitely going to be keeping an eye out in the kindle store for Paisleigh Aumack so I can read more!

First I have to say wow.

I don't remember when the last time was a new to me author's first book completely blew my mind and made me an instant fan but Love in Carson Falls did just that.

The blurb intrigued me but it's a similar story line I've read before so I honestly underestimated this book going in.

Paisleigh Aumack wove a tale that kept me glued to the pages from the beginning to end, Arianna & River's story was so freaking amazing. Both finding something in each other that helps ease their own pain and heal their hearts, I don't think the author could have written two more perfectly broken people.

And the secondary characters, I loved them so much, I'm not sure which one I'm most looking forward to reading.

Love in Carson Falls is well written, is well paced and keeps you on your toes trying to figure out who the villain is.

I enjoyed this book and am looking forward to the rest of the series.

Love in Carson Falls is the first book in The Falls Series by Paisleigh Aumack. I had not read anything by Ms. Aumack before and I wasn't sure what to expect from her work. But when I saw the beautiful cover and read the blurb, I was intrigued and so I decided to give the book a chance to win me over. I am very pleasantly surprised by what I read as the story is really beautiful, quite emotional, and it completely captured my heart. I LOVED it, and now I can't wait to explore more of Ms. Aumack's work.

Arianna Morgan (Ari) has fled an abusive relationship and found herself on the other side of the country, in a small town called Carson Falls. She chose this place to regroup after her ordeal and hoped it was somewhere she could get a fresh start- the fact that her best friend Penny lives in the town was even better. Penny is a great friend who really wants to help Ari get back on her feet again. Driving into town for the first time was like entering a scene on a Hallmark card. Ari can't believe how lovely the town is, or how friendly, caring and welcoming the town's folk are. She immediately feels at home in Carson Falls and easily finds a job. Ari begins to settle into her new life and is excited about rediscovering life, on her own terms.

River Bradshaw is a fireman, who has a beautiful five year old daughter, Cadence (Cady). He never expected to be a single dad, but he loves his little girl and would do anything for her. What Cady wants more than anything is to learn how to play the piano and River wants to grant her wish, he just needs to find someone who can teach Cady to play. So when the gorgeous stranger, who recently moved to town, agrees to teach his little girl- he is a little apprehensive, but also can't help feeling an intense attraction. Can he prove to Ari that not all men are monsters? Will Ari learn to trust again? Will this beautiful town and the close-knit community help Ari heal and find the happiness she so desperately deserves?

What a wonderful start to a new series! This story is really enthralling and was so well crafted by Ms. Aumack.

The characters were really well developed and endearing. Ms. Aumack captured their personalities, quirks and flaws brilliantly. She has a very creative way with her words which brought Carson Fall and all the characters to life.

I fell in love with these people and the town, and now I am really looking forward to the next book in The Falls series.

Thank you Ms. Aumack!

4.5 Stars!

This is a new-to-me author and I must say that I am loving what I've read so far. This book really touched my heart. I think this author did a really great job at capturing the emotions and feelings associated with being and coming out of an abusive relationship. The emotions felt genuine and relatable.

Arianna definitely didn't have it easy and although everything she has suffered and endured she has this strength to her and she is caring, loving and a genuinely nice person. I loved her character and her growth throughout the story. Yes, she still had her moments because it will take time to heal from all she has been through but the author does a great job showing all those different sides to Ari.

And who doesn't love them an alpha man? I know I do. And River Bradshaw is exactly that and I couldn't imagine him any other way. I think his character was absolutely perfect and fitting. Oh and we can't forget that he's the single dad that will not only melt your heart but your panties as well. Yes, River Bradshaw is swoon-fucking-worthy and panty-dropping sexy AF!!!!

This was just an all around amazing story. Paisleigh Aumack delivers a magnificent story line that held me captivated from beginning to end. An amazing set of characters from the main characters to the secondary. I absolutely fell in love with River's little girl, Cady. What a character that little girl. The other characters definitely got me intrigued. The chemistry and passion between the characters were on point. This was such a beautifully written story and I can't wait to read more from this author and this series.

Just WOW!!!! I love when I get so involved in a book that I feel like I'm a part of the story, and this one did this from the very beginning to the very end.

Arianna has come to the small town of Carson Falls to be with her best friend to escape the horror and devastating loss she has just endured. Ari's spirit and tenacity made me fall in love with her immediately. She's a scared "bird" as River calls her in the beginning, but through her relationship with the locals and especially her BFF, Penny, River, and his daughter Cadence, she slowly comes back to life and gains her strength again. I loved seeing her recover the pieces of herself that were taken from her.

River is a single dad who has dealt with loss as well, but in a different sense than Ari. OMG, he was irresistible. He was sexy and had some alpha in him, but it was his relationship with his daughter that had my heart melting! Some of my favorite parts of the book were with him and Cadence. I also appreciated that he was so patient with Ari. He knew what buttons to push to rile her up, but he also was very loving and supportive of her as well!

This book was just about as perfect as you could get. It was very well-written. The characters were very complex, and I liked how I would learn something new about them with each chapter which was told from River and Ari's POV. That connected me with them on a deeper level. I also liked the fact that the writer laid the groundwork for her next novel in the series which will be about Penny and Braxton. Now, there is a story there!

As I wrote earlier, I love when a writer makes me a part of the story. Aumack definitely did that! I loved the secondary characters and the town itself. My only regret was having to say good-bye, but I know I will be returning soon, so that makes me happy! Great, great book! I highly recommend reading Love in Carson Falls! I promise you will fall in love with the town and the characters as well!!!!

I really enjoyed this book, I was sucked in from the start and spat out at the end. I devoured it in one sitting, keep some time to one side as once you start you won't want to stop. Arianna has just left her abusive boyfriend and arrived at Carson falls battered and broken, to stay with her best friend. She finds a job quickly and settles into her new life. River is a single dad with the most adorable little girl, he's avoided relationships but is captivated by Arianna. I found River to be totally swoon worthy, he's great with his daughter, he

doesn't push Arianna he goes at her pace. I loved his inner thoughts but sometimes what came out of his mouth made me cringe. I loved the background characters and can't wait for there books. I loved the ending and can't wait to read more about this couple in the next books.

Theresa Alberts says

Love in Carson Falls by Paisleigh Aumack is a story about starting over and finding yourself while also finding a love that was unexpected but true. Arianna came to Carson Falls to start over after losing herself to an abusive husband, she leaves to start over and stays with her college roommate. Arianna has no intention of becoming engulfed in another dominating male, especially one like River. But it seems with River's alpha personality she doesn't stand a chance.

River never expected the mother of his child to walk away, but she did in a most tragic of ways. Raising his daughter on his own, with the help of the small town community of Carson Falls, he has not taken interest in a woman for more than a night, nor has he allowed a woman to get close to his daughter. Arianna knocks both River and his beautifully daughter on their butts and what begins is a friendship that begins to turn into something so much more.

This story is filled with redemption, love, loss and the quirkiness of a small town that will have you enjoying each word! I look forward to reading the next book in the series!

Just WOW!!

This book grabbed me from the first sentence and kept me entertained until the end of the book - I truly wanted it to continue on instead of ending. Be prepared I cried in the very beginning and several more times throughout the book.

Arianna is one tough lady to have to go through what she did to get to what I call the rest of her life was a journey that I'm not sure I would have survived or to say the least I'd been in jail for murder. Once she gets to Carson Falls and just simply falls in love with the entire town - from the first person she meets they all reach out to her - it's like they see though her to her pain and are all bound to make it better.

River and Cadence are the best father and daughter you could ever meet and they both feel that special feeling upon meeting Arianna or as they call her Birdy, and their journey starts from there.

Loved, loved, loved it.

Shelly's Book Corner says

Second chance at life, rediscovering oneself and finding a true love when you thought it would never happen again. Reading a new author is invigorating. See something new from a new set of eyes.

The first few pages of Love In Carson Falls had me gutted. As a mother, your heart breaks with the how much loss and destruction Arianna encompassed. With determination she made the choice and broke the cycle. After getting up again, she escaped to her best friend's open arms. On the opposite side of the country for a new start and a new life, Ari needed to find herself and be stronger.

River lived in the same town for his whole life. His sole purpose was his daughter, Cadence. With being a single dad, he was a protector and very selective who was around his daughter. With Frozen on repeat and continually begging for piano lessons, River was finally 'letting go' and granted Cade's wish. Arianna was a perfect teacher for his daughter. Not only did she fall in love with piano, Ari fell in love with Cadence and River.

But with ups theirs always downs. Someone wanted to take away her happiness. This is where things didn't add up for me. I understood why the person went after Ari. The man in question wanted River to suffer. But what happened to her Ex? He just totally dropped off the page.

Love In Carson Falls opens your eyes for second chance at love. When you think one door is closed, there is another that is open.
