Oke, ini perkenalan pertama sama Sidney Sheldon. Suka, jadi kepingin baca yang lain. Saya selalu nyari novel lokal yang bertema romance-keluarga-drama tapi dengan tambahan konflik pembunuhan atau misteri apa gitu, jadi kan bisa seru. Mungkin semacam Maria A. Sardjono, V. Lestari, gitu, ya? eh, Mira W. atau Marga T. juga suka, sih.

Excellent, as almost all Sidney Sheldon books, only the plot is a bit overdone. Harry Stanford is meaner than mean and Tyler is more corrupt than a judge could possibly be.

## Book 2: A crime novel

## **A quick read**

First Sentence: *Dmitry asked, 'Do you know we're being followed, Mr Stanford?'*

Sidney Sheldon is one of those easy reading writers. You pick-up the book and before you know, you've read have of it.

Gripping, full of plot twists and interesting characters you can't help but like what's in your hand.

I should definitely make a priority to read the other Sheldon books on my shelf.

Nice plot twisting all over. Characters I couldn't invest in one bit.

Wow!! One of the best Sidney Sheldon I have read. The book is a classic. You never know what to expect as you keep turning pages. The plot is a good old one - a wealthy father cruel to his children and the children trying to get hold of their father's wealth. But Sidney has made it a refreshing tale filled with twists and turns that make you feel if riding in a roller coaster is better. The witty and cold - blooded Judge Tyler Stanford, the soft Kendall Stanford, the drug addict Woodrow Stanford make a great combination and add to it Julia Stanford! now that's what I call a family.

The dreary life of Woodrow and Peggy Stanford and the blackmail letters received by Kendall add spice to the central plot. The character of Julia Stanford is a thing of beauty. She could have been portrayed a little more deeply. The various crimes committed by Tyler Stanford eventually dig his grave.

A perfect entertainer that keeps you glued to the pages. A must - read for all ages. The master story - teller has stood up to my expectations again. This time in an even better way.

Harry Stanford - Cruel, self-made millionaire is falling off from his yacht into raging sea. Before his murder mystery gets solved, his children are gathering to share their father's wealth. Story starts when his illegitimate child Julia Stanford joins the race. Mystery unveils slowly & steadily. The final twist about the

supposed "wealth" proves why Sidney Sheldon is the best storyteller of the century.

The downside of having read too much Sidney Sheldon is that you already know what to expect – surprising plot twists. That is why while reading this book I was already making bets with myself as to who the real culprit was. The thing is, Sheldon spoiled the fun for me as he already revealed the perpetrator early on in the story. Or so I thought. Because a few pages before it ends, something turns the story around. But still, the surprise I was preparing myself for wasn't as that much of a surprise. Just an "oh okay" reaction from me. Nothing mind numbing. Nothing that made me turn to the previous pages so that I can fully grasp what happened.

AND. I couldn't help comparing it to Rage of Angels, which for me is Sheldon's best, so far.

Morning, Noon & Night is divided into three parts: Morning, Noon and Night. (Why aren't you surprised?) And just as one day consists of a morning, a noon, and a night, one day is all you need to finish reading the book. Or less.

A fun read. I liked it. Now, on to something new.

## **H.M. Flath says**

Morning, Noon and Night by Sidney Sheldon is an easy, quick-read and enjoyable novel filled with intrigue and subterfuge. Having read several novels by Sidney Sheldon, I was looking for and anticipating interesting twists which I have come to expect from this author. I certainly was not disappointed as many curve balls were thrown but I was surprised by the one where I learned that the cruel, wealthy billionaire, Harry Stanford, actually had no money at all. I guess that is what makes Sidney Sheldon such a wonderful storyteller.

The main characters, Tyler, Kendal, Woody and Julia, were all strong, real, believable characters and all were consistent in their own character throughout the entire novel.

My disappointment in the novel, rests with the conversations. In my opinion, I found the conversations stilted, shallow and often unbelievable. Also, my personal preference when reading a novel is to enjoy description and detail which was very sparse in this novel.

Sidney Sheldon created a story that again kept me reading right to the end even though it certainly is not his best work and I definitely will continue to pluck his books from the shelves for a good read.

1.5

What a lot of nasty unpleasant characters. A few of them develop some slightly redeeming characteristics in the course of the book, but the only really nice person from first to last is Julia and she just does not deserve to be thrown in among these others. The first Sidney Sheldon I have read and probably also the last.
